WHY RHINO?

RhinoCo Technology has been an integral part of the electronic security industry since 1978.

Our company is proudly Australian-owned and still growing after 32 years in business. We have become best known over the years for our world renowned Rhino™ brand of vehicle security systems, our Watchguard™ brand of wireless security and surveillance systems, our Securview™ range of professional video surveillance equipment and our EasyPBX™ business phone systems.

Since 1978 we have been designing “in-house” our own range of electronic security products. We have a team of dedicated hardware and software engineers that focus on key product areas.

Manufacturing:

For over thirty years we have manufactured our products using advanced techniques. In fact, RhinoCo Technology was one of the first in Australia to adopt surface-mount production technology. The desire to export products worldwide at competitive prices has changed our manufacturing process. Now the majority of our low end production is undertaken by our ISO9001 quality certified factories in Taiwan & China.

OEM Engineering & Contract Manufacturing:

We have produced many OEM designs for numerous clients over the years, particularly in the areas of wireless radio interfaces, vehicle security systems and wireless video transmission. We have supplied complete wireless add-on alarm solutions for major alarm control panel manufacturers, designed custom vehicle security systems for armoured vehicle fleets, control panel wireless interfaces and wireless digital video transmission equipment, to name a few.

Procurement / Customised Product Solutions:

As well as our own designed and produced products, we have established long-term relationships with key electronic security and technology suppliers around the world. Due to our vast range and experience in almost all areas of electronic security, we are often called upon to develop customised solutions. Do you have a mobile video surveillance solution with online GPS tracking, integrated alarm/immobiliser and wireless duress button? Or can you supply a completely wireless, multi-channel, solar powered, wireless digital CCTV solution with remote access? Whatever our client requirements, we will strive to provide the winning solution.

Worldwide Sales & Distribution:

We have a large customer base of industry trade professionals, government departments and major retailers. Our product range caters for these distinct markets.

We have established branch offices in the international business market, expanding into the United Kingdom, Italy and South Africa to promote and distribute our range. We are able to ship factory direct worldwide to enable us to be highly competitive in the markets we choose to enter.

The Future:

This year we celebrate our 32nd year in the electronic security industry - no small feat in this highly competitive market!

We aim to be more than your average electronic security wholesaler/distributor and will strive to be an engineering design house at your service.

We look forward to continually expanding our business both locally and internationally and we will always endeavour to support you, our valued customer, with the largest range of leading-edge, value for money products with the best technical support in the industry.

Let us prove it to you!

Security Master Licence: 407530935

Due to continual product advancement, specifications and appearance are subject to change without notice.

Incredible Value & Performance !!

SECURVIEW™ XR Series

POWERED BY

SUPERDUOTECH™

Samsung DSP

The XR range incorporates Samsung DSP and Super Noise Reduction, delivering clear night imaging, whilst saving hard drive recording space.

Sony Super HAD CCD

The XR range features Sony Super HAD CCD image sensor technology, for the highest quality image.

The Securview™ XR Professional CCTV Camera Range is built with Samsung DSP and Sony Super HAD CCD technology!

SuperDuoTech™ is the combination of two high-performance CCTV technologies. Genuine Sony Super HAD interline CCD image sensors and the latest Samsung Digital Signal Processing (DSP) with Dynamic Digital Noise Reduction (DDNR) Technology. The XR Series displays unrivalled image qualities of up to 600TVL in colour, but also a complete feature-list of functions unsurpassed by cameras more than twice their value!

WHY CHOOSE SECURVIEW XR SERIES?

- SAMSUNG Technology
- 3D Digital Noise Reduction
- Highest Quality From Korea
- Superior WDR Function**

- Top Quality Japanese Lens*
- Top Performance & Value For Money
- Dual Voltage+
- IP Housing/ 3 Axis/ Rugged Design*

* Dome cameras only

** WDR cameras only

+ Applies to models: VSXR-681DV, VSXR-600FW, VSXR-601DVW

RhinoCo warrants to the original wholesale purchaser / installer that any XR Series camera will be free from defects in material and workmanship under normal use and service. RhinoCo at its option, shall repair or replace any defective unit returned with the same or equivalent model covered by this warranty. This limited lifetime warranty is non-transferable and is in addition to RhinoCo's Standard Terms of Sale available from: <http://www.rhinoco.com.au/terms>

XR SERIES CAMERAS (COLOUR)

SECURVIEW™ XR Series

Securview XR Series W5 DSP Chipset, 600TVL Day/Night Mini Vandal-Proof Dome Camera

The Securview XR Series utilise the latest Samsung technology to provide you with incredible value and performance, making them a high-quality surveillance solution. The VSXR-608DV Mini Vandal-proof Dome uses the latest Samsung W5 DSP Chipset, and a Sony Super HAD CCD Image Sensor to produces extremely high quality images of 600TVL horizontal resolution. It has a Japanese 2.8~10mm Auto Iris Lens and the Day/Night capabilities of the camera ensure it can be reliably used in both internal and external surveillance applications.

Image Sensor	1/3" SONY Super HAD CCD
Horizontal Resolution	600TVL
Lens	2.8~10mm Auto Iris
Minimum Illumination	Colour: 0.03 Lux., Sens-up: Auto (4x)
Power	12VDC
Dimensions	112 (Dia) x 83 (H)mm

Part No.
VSXR-608DV

SECURVIEW™ XR Series

Securview XR 1/3" 560TVL Day/Night Wide Dynamic Vandal-Proof Dome

A part of the Securview XR series, the VSXR-601DVW is a high-resolution (560TVL) dome camera. It has a Samsung SV4 chipset and a Sony 1/3" Interline Transfer CCD imaging sensor. The 2.9~10mm varifocal auto-iris lens allows the camera's field of view to be easily adjusted to suit the current application.

Image Sensor	1/3" Sony Interline Transfer CCD
Horizontal Resolution	560TVL (Colour)/700TVL (B&W)
Lens	2.9~10mm DC Auto Iris
Minimum Illumination	0.3 Lux @ F1.2 (Colour)/0.001 Lux @ F1.2 (Sens Up)
Power	12VDC, 24VAC
Dimensions	150 (W) x 91 (H)mm

Part No.
VSXR-601DVW

SECURVIEW™ XR Series

Securview XR Series W5 DSP Chipset, 600TVL Day/Night Vandal-Proof Dome Camera

The VSXR-681DV Vandal-proof Dome uses the latest Samsung W5 DSP Chipset, and a Sony Super HAD CCD Image Sensor to produces extremely high quality images of 600TVL horizontal resolution. It has a Japanese 2.8~10mm Auto Iris Lens and the Day/Night capabilities of the camera ensure it can be reliably used in both internal and external surveillance applications.

The camera has a number of functions designed to increase its performance and functionality, including a Digital Image Stabiliser, Backlight and Highlight compensation, 8 zone privacy masking, dual voltage and an IP66 rated outdoor weatherproof housing.

Image Sensor	1/3" Sony Interline Transfer CCD
Horizontal Resolution	600TVL
Lens	2.8~10mm Auto Iris (Japan)
Minimum Illumination	Colour: 0.05 Lux., 0.0002 Lux (Sens-Up)
Power	12 V / 24VAC
Dimensions	150 x 97mm (WxH)

Part No.
VSXR-681DV

SECURVIEW™ XR Series * Lens not included

Securview XR 1/3" 560TVL Day/Night Ultra Wide Dynamic Full Body Camera

The VSXR-600FW is a part of the Securview XR series. It is a high-resolution, wide-dynamic body camera making it ideal for usage in indoor applications or in applications of low or varying light levels. The camera utilises a Samsung SV4 chipset, producing quality colour images at a resolution (560TVL), higher than other CCTV cameras.

Image Sensor	1/3" Sony Interline Transfer CCD
Horizontal Resolution	560TVL (Colour)/700TVL (B&W)
Lens	N/A
Minimum Illumination	0.3 Lux @ F1.2 (Colour)/0.001 Lux @ F1.2 (Sens Up)
Power	12VDC, 24VAC
Dimensions	61(W) x 55(H) x 104(D)mm

Part No.
VSXR-600FW

LG: Solutions To Fit Your Success

LG is a world renowned electronics manufacturer with a reputation for innovation. Their 2010 CCTV camera range incorporates leading edge technologies to produce some of the highest possible resolutions available today from an analogue CCTV camera.

The LG range of surveillance cameras all utilise the LG XDI DSP chipset. The eXtreme Dynamic Image chipset represents LG's high-quality engineering and product manufacturing techniques, combining the latest analogue and digital functions, such as Digital Noise Reduction, Seamless Day/Night Integration and advanced Highlight Compensation Masking, ensuring that you get the highest level of performance from your LG cameras.

Please check with us for new model releases.

NEW!

LG High Resolution 540TVL 25M IR Day and Night Dome Camera

The VSLG-LV700P is a high resolution 3 axis vandal-proof IR Dome camera. It has a horizontal image resolution of 540TVL (Colour), IP66 weatherproof rating, 2.8~12mm Varifocal lens and Day/Night and BLC functions, making it an excellent choice for indoor or outdoor applications such as retail outlets, schools, airports, banks and hotels.

Image Sensor	1/3" Interline Transfer Color CCD
Horizontal Resolution	540 TV Lines
Lens	Vari-focal Lens (f=2.8~12mm / F=1.2)
Minimum Illumination	0.1 Lux (AGC High, Colour, F1.2, 50IRE), 0 Lux (IR LED On)
Power	12VDC
Dimensions	160 (Dia) x 103 mm

Part No.
VSLG-LVR700P

NEW!

LG High Resolution 540TVL WDR Day and Night Vandal-Proof Dome Camera

The VSLG-LV903P is a high resolution 3 axis vandal-proof dome camera with built-in DSP XDI Chipset. With a horizontal resolution of 540TVL, IP66 weatherproof rating, 2.8~11mm Varifocal lens and Wide Dynamic Range, this camera is an excellent choice for indoor or outdoor applications such as retail outlets, schools, airports, banks and hotels.

Image Sensor	1/3" EX-View HAD CCD
Horizontal Resolution	540TVL
Lens	Vari-focal Lens (f = 2.8 ~ 11mm / F = 1.2)
Minimum Illumination	0.0002 Lux(sens-up) 0.1 Lux (AGC High, DNR)
Power	12VDC/24VAC
Dimensions	140(Dia) x 110 (H)mm

Part No.
VSLG-LV903P

NEW!

LG High Resolution 650TVL WDR Varifocal Dome Camera

If you're wanting a premium high-performance dome with high resolution image reproduction, look no further than the VSLG-LV821P.

The VSLG-LV821P is an exceptionally high quality dual voltage dome camera. It produces high quality images with a horizontal resolution of 650TVL, has a 2.8~11mm Varifocal lens and supports dual voltage.

Image Sensor	1/3" Super HAD CCD2
Horizontal Resolution	650TVL
Lens	Vari-focal Lens (f = 2.8 ~ 11mm / F = 1.2)
Minimum Illumination	Colour Mode: 0.002 Lux(F1.2) B/W Mode: 0.00002 Lux(F1.2)
Power	12VDC/24VAC
Dimensions	140 (Dia) x 110 (H) mm

Part No.
VSLG-LV821P

NEW!

LG High Resolution 560TVL WDR Vandal-Proof Dome Camera

If you're looking for a high-performance dome with high resolution image reproduction, look no further than the VSLG-LV803P.

This high quality dual voltage camera has a horizontal image resolution of 560TVL, an extremely low-light performance level of 0.00001 Lux, has Wide Dynamic Range function, 3-Axis mounting gimbal, 4 zone privacy masking function and includes a 2.8~11mm Varifocal lens.

Image Sensor	1/3" EX-View CCD
Horizontal Resolution	560TVL
Lens	Vari-focal Lens (f = 2.8 ~ 11mm / F = 1.2)
Minimum Illumination	Colour Mode: 0.001 Lux(F1.2) B/W Mode: 0.00001 Lux(F1.2)
Power	12VDC/24VAC
Dimensions	140 (Dia) x 110 (H) mm

Part No.
VSLG-LV803P

NEW!

LG High Resolution 540TVL 30M IR Day and Night Weatherproof Camera

Incorporating outstanding stability and advanced functionality, the VSLG-LSR300P is a high-spec Day and Night IR Camera ideal for installation in a multitude of environments and applications. The camera utilises both the high performance IR LEDs and the 1/3" Interline Transfer CCD to produce images with a horizontal resolution of 540TVL (Colour) and 570TVL (B&W). The camera has a 2.8~12mm Varifocal Lens. The ICR Day/Night, superb low light performance and IP66 housing make this camera a suitable product for 24 hour monitoring, and the 34 IR LEDs have an approximate range of 30m (LoS).

Image Sensor	1/3" Interline Transfer Color CCD
Horizontal Resolution	540 TV Lines, B/W Mode:570 TV Lines
Lens	Vari-focal Lens (f=2.8~12mm / F=1.2)
Minimum Illumination	0.1 Lux (AGC High, Color, F1.2, 50IRE), 0 Lux (IR LED on)
Power	12VDC
Dimensions	74(Dia) x 151 (H)mm

Part No.
VSLG-LSR300P

NEW!

LG High Resolution 540TVL 70M IR Day and Night Weatherproof Camera

Incorporating outstanding stability and advanced functionality, the VSLG-LSR700P is a high-spec Day/night IR Camera ideal for installation in a multitude of environments and applications. The camera utilises both the high performance IR LEDs and the 1/3" Interline Transfer CCD to produce images with a horizontal resolution of 540TVL (Colour) and 570TVL (B&W). The ICR Day/Night, superb low light performance and IP66 housing make this camera a suitable product for 24 hour monitoring, and the 45 IR LEDs have an approximate range of 70m (LoS). The camera has a Varifocal 6~50mm DC IRIS Lens.

Image Sensor	1/3" Interline Transfer Color CCD
Horizontal Resolution	540 TV Lines
Lens	Vari-focal Lens (f=6~50mm / F=1.4)
Minimum Illumination	0.1 Lux (AGC High, Colour, F1.2, 50IRE), 0 Lux (IR LED on)
Power	12VDC
Dimensions	96 (Dia) x 160 (H) mm

Part No.
VSLG-LSR700P

NEW!

LG High Resolution 600TVL Wide Dynamic Range Fixed Body Day & Night Camera

For situations where you require superior monitoring and performance, the VSLG-LS923P is the camera of choice. It features a horizontal resolution of 600 TV lines, true Day and Night operation, Wide Dynamic Range, an extremely low-light performance level (0.2 Lux, Colour), 3D noise reduction, integrated cut-filter for day/night operation, 8 zone privacy masking, alarm functions and much much more.

Image Sensor	1/3" EX-View CCD
Horizontal Resolution	600TVL
Lens	N/A
Minimum Illumination	Color Mode : 0.2 Lux(F1.2) B/W Mode : 0.0002 Lux(F1.2)
Power	12VDC/24VAC
Dimensions	61.5 x 68 x 122 mm

Part No.
VSLG-LS923P

NEW!

LG High Resolution 650TVL Low-Light Day & Night Body Camera

With an extremely high horizontal resolution of 650TV Lines and superb performance in low-light conditions, the VSLG-LS521P is a high-quality, high-spec camera ideal for indoor monitoring. The camera has a number of features which help it stand out from competitors, including Digital Day/Night operation, 8 zone privacy masking and a superb horizontal resolution of 650TVL.

Image Sensor	1/3" Super HAD CCD 2
Horizontal Resolution	650TVL
Lens	N/A
Minimum Illumination	Color Mode : 0.2 Lux(F1.2) B/W Mode : 0.00002 Lux(F1.2)
Power	12VDC/24VAC
Dimensions	67.5 x 61.5 x 134 mm

CCTV SURVEILLANCE PRODUCTS

Samsung 1/4" 12x High Resolution Vandal-Resistant Dome Camera

The Samsung SCV2120 incorporates a 1/4" Super HAD Colour image sensor, 600TVL resolution, 12X optical zoom and the latest Samsung W-V DSP chipset into a vandal-proof dome. It is ideal for use in outdoor surveillance areas, for both day and night monitoring.

Image Sensor	1/4" Super HAD CCD
Horizontal Resolution	Color : 580TV lines (Min.) / B/W : 700TV lines
Lens	3.94 ~ 46.05mm (F1.67 ~ 1.88)
Minimum Illumination	Color : 0.2Lux (50IRE@F1.6), 0.0004Lux (Sens-up, 512x) B/W : 0.004Lux (50IRE@F1.6)
Power	12V DC/ 24V AC
Dimensions	148 (Dia) x 126 (H) mm

Part No.
VSSAM-SCV2120

Samsung 1/3" High Resolution Day & Night Mini Dome Camera (600TVL)

Utilising the latest Samsung W5 Chipset technology, and SSNR III Samsung Super Noise Reduction, the Samsung SCD2040 mini dome camera is the ideal solution for day and night indoor surveillance monitoring. It has a Super HAD CCD imaging sensor and boasts a supreme colour image quality of 600TV lines, giving you excellent image reproduction in many light levels.

Image Sensor	1/3" Super HAD CCD
Horizontal Resolution	600TVL
Lens	8mm Fixed F2.0
Minimum Illumination	0.15Lux@F1.2 (Colour), 0.0003Lux (Sens-Up)
Power	12VDC/24VAC
Dimensions	107.6(Dia) x 83.7(H)mm

Part No.
VSSAM-SCD2040

Samsung 1/3" High Resolution Day & Night Dome Camera - 580TVL Day / 700TVL Night

The Samsung VSSAM-SID462 is redefining what you should expect for features and performance in a fixed mini-dome camera. Using the 4th generation WIV Digital Signal Processing, the SID-462 is able to produce an unparalleled colour resolution of

580TV lines. In addition, this new DSP provides the industry's most comprehensive set of performance enhancing features such as digital image stabilisation, 3D noise filtering, and many other features not found in any other camera in any class.

Image Sensor	1/3" Vertical Double Density Interline CCD
Horizontal Resolution	Colour: 580TVL / B&W: 700TVL
Lens	3.6X Manual, 2.8 ~ 10mm, (F1.2)
Minimum Illumination	Colour: 0.15Lux@F1.2(50IRE), 0.0006Lux(Sens-up, 256X) / B&W: 0.01Lux@F1.2(50IRE)
Power	12VDC / 24VAC
Dimensions	105.5(H) x 141.2(Dia)mm

Part No.
VSSAM-SID462

Samsung 12x Zoom High Resolution 600TVL PTZ Dome Camera

Combining an image resolution of 600TVL, 12X optical zoom, 360° continuous rotation and high speed panning and tilting functions, this Samsung PTZ Dome Camera is the multi-featured solution for your high level monitoring needs.

Image Sensor	1/4" Super HAD CCD
Horizontal Resolution	600TV lines
Lens	12x optical zoom (3.9 ~ 46mm)
Minimum Illumination	0.2Lux ultra-low light sensitivity
Power	24V AC
Dimensions	147.5 (Dia) x 150 (H) mm

Part No.
VSSAM-SCP2120

Samsung 1/3" Super HAD High Resolution Day/Night 580 TVL IR Dome Camera

The VSSAM-SIR60 is an indoor security dome camera which features IR LED illumination for day/night monitoring. During day operation, the camera produces crisp 580TVL resolution color images; at

night the camera switches to B&W mode, automatically enabling IR illumination and providing razor sharp 700TVL images. The wide angle 3.6mm fixed lens and 3 axis camera adjustment, as well as the added technology and features provided by the award-winning W-IV Samsung chipset, make the VSSAM-SIR60 a high value solution.

Image Sensor	1/3" Diagonal 6mm Super HAD CCD
Horizontal Resolution	580TVL (Colour) / 700TVL (B&W)
Lens	Fixed 3.6mm, F2.0 IR Lens
Minimum Illumination	0.15 Lux @ F1.2 (Colour)
Power	12VDC
Dimensions	107.6 (Dia) x 83.7 (H)mm

Part No.
VSSAM-SIR60

Samsung 1/3" High Resolution Day & Night Compact Design Dome Camera (600TVL)

With the latest Samsung W-V chipset technology, high-resolution 600TVL image reproduction, excellent low-light performance and the ease of dual voltage support, the Samsung SCD2020 is a mini dome camera is the ideal solution for indoor monitoring.

Image Sensor	1/3" Super HAD CCD
Horizontal Resolution	600TVL
Lens	3.7mm Focal length
Minimum Illumination	0.15Lux (50 IRE@F1.2)
Power	12V DC/ 24V AC
Dimensions	107.6 (Dia) x 83.7 (H) mm

Part No.
VSSAM-SCD2020

SAMSUNG **3 Year Warranty** **NEW!**

Samsung 1/3" High Resolution 160x WDR Varifocal D/N Dome Camera (600 TVL)

Equipped with the latest Samsung SV-V DSP chipset, the SCD-3080 achieves vivid graphics with its 600TVL image reproduction. With low light levels of 0.3 Lux, it delivers crystal clear images even in a dark environment. In addition, the 3.9X varifocal lens (2.8 ~ 11mm) provides maximum flexibility for installation.

Image Sensor	1/3" Vertical double density interline CCD
Horizontal Resolution	Color : 600TV lines (Min.) / B/W : 700TV lines
Lens	2.8 ~ 11mm (F1.2)
Minimum Illumination	0.3Lux (50IRE@F1.2)
Power	12V DC/ 24V AC
Dimensions	115.8 (Dia) x 92.7 (H)mm

Part No.
VSSAM-SCD3080

SAMSUNG **3 Year Warranty**

Samsung 1/3" Ultra High Resolution Day/Night Camera

* Lens not included

The VSSAM-SDC-435 is a high resolution camera embedded with the latest W-V DSP chipset featuring proprietary video signal processing technology that achieves vivid graphics at up to 600TV lines resolution. The camera features 3D filtering noise reduction technology, effectively reducing noise while providing excellent night monitoring performance with ultra low light levels of 0.0001 Lux. Also supporting SDDR (Samsung Super Dynamic Range), the VSSAM-SDC435 effectively blocks backlights and delivers higher and clearer quality images.

Image Sensor	1/3" Diagonal 6mm Super HAD CCD
Horizontal Resolution	600TVL
Lens	Not Included (See Under Camera Lenses)
Minimum Illumination	0.0001 Lux (Sens-Up x512) @ F1.2
Power	12V DC
Dimensions	58(W) x 52(H) x 121(D)mm

Part No.
VSSAM-SDC435

Samsung 1/3" Low-Light Wide Dynamic High Resolution Camera (600TVL)

* Lens not included

Using the latest Samsung W-V chipset technology, the SCB3000 combines high image resolution with excellent low light performance and 160X Wide Dynamic Range to produce a fully-featured full-body surveillance solution. The camera features a superb horizontal resolution of 600TVL, a low light sensitivity of 0.3 Lux, Day/Night function and dual voltage.

Image Sensor	1/3" Vertical double density interline CCD
Horizontal Resolution	Color : 600TV lines / B/W : 700TV lines
Lens	N/A
Minimum Illumination	0.3Lux (50IRE@F1.2)
Power	24V AC
Dimensions	W66 x H61 x D102mm

Part No.
VSSAM-SCB3000

SAMSUNG **3 Year Warranty**

Samsung 1/3" High Resolution WDR Camera - 560TVL Day / 700TVL Night

Samsung 1/3" High Resolution WDR Camera - 560TVL Day / 700TVL Night

The VSSAM-SHC735 is a camera with a built-in fourth-generation DSP image engine SVIV chipset, which provides the best quality images, anytime and anywhere. It comes complete with the worlds best 560TV lines colour resolution, a further improved WDR function for better colour presentation in backlight, and clear picture quality without noise for low light level environments.

Image Sensor	1/3" Double Density Interline Colour CCD
Horizontal Resolution	560TVL (Colour) / 700TVL (B&W)
Lens	N/A
Minimum Illumination	0.2Lux@F1.2 (Colour)
Power	24V AC/12VDC
Dimensions	66(W) x 61(H) x 102(D)mm

Part No.
VSSAM-SHC735

SAMSUNG **3 Year Warranty** **NEW!**

Samsung 1/3" High Resolution Varifocal 600TVL IR LED Camera

Utilising the latest W-V Samsung DSP chipset, this high performance camera is equipped with black IR LEDs, allowing it to produce images of 600TVL during the day and night. The camera has a maximum monitoring range of 50M (open air, LoS), dust and weatherproof rating of IP66, dual voltage an inbuilt 3.6X varifocal auto iris lens.

Image Sensor	1/3" Super HAD CCD
Horizontal Resolution	Color : 600TV lines / B/W : 700TV lines
Lens	2.8 ~ 10mm (F1.2)
Minimum Illumination	Color : 0.15Lux (50IRE@F1.2), 0.0003Lux (Sens-up, 512X) B/W : 0Lux (LED on)
Power	12V DC/ 24V AC
Dimensions	85.9 x 85.4 x 314.1mm

Part No.
VSSAM-SCO2080

DOMES CAMERAS (COLOUR)

Securview 1/4" Entry Level Dome Camera - 420TVL

This entry level colour dome camera is ideal for those who want a ceiling mounted dome camera for general scene surveillance. It provides good picture quality and has a stylish low profile design.

Image Sensor	1/4" Colour CCD
Horizontal Resolution	420 TV Lines
Lens	3.6mm Board
Minimum Illumination	0.5 Lux @ F2.0
Power	12V DC
Dimensions	60(H) x 100(Ø) mm

Part No.
VSTP101AV

NEW!

1/4" Colour Dome Camera

The Securview VLSL-DOME is a cost-effective surveillance solution. The dome camera has a 1/4" pixel CCD image sensor, horizontal resolution of 480TVL, 0.8 Lux minimum illumination, a 3.6mm Board Lens and functions such as Backlight Compensation and Auto White Balance.

Image Sensor	1/4" Pixel CCD
Horizontal Resolution	480 TVL
Lens	3.6mm / F2.0 (optional) Board Lens
Minimum Illumination	0.8 Lux
Power	12V DC
Dimensions	118 (Dia) x 74(Dia)mm

Part No.
VLSL-DOME

Securview High Resolution 1/3" Colour IR Dome Camera 520TVL

This is a high resolution (520TVL) IR Dome camera. The 21 IR LEDs have an IR distance of 15M, making the camera day/night operational for 24 Hour surveillance.

Image Sensor	1/3" High Resolution Colour CCD
Horizontal Resolution	520TVL
Lens	F 6.0mm /F2.0
Minimum Illumination	0.3 Lux / F2.0, 0 Lux (IR On)
Power	12VDC
Dimensions	94 (Dia) x 73 (H)mm

Part No.
VSTP143WIR

Securview 1/3" Compact Design Tiny Dome Camera - 420TVL

This tiny dome camera is ideal for use in discrete applications and delivers good quality images.

Image Sensor	1/3" Sharp CCD
Horizontal Resolution	420 TVL
Lens	4.3mm Board Lens
Minimum Illumination	0.2 Lux @ F2.0
Power	12V DC
Dimensions	73Ø X 55(H) mm

Part No.
VSTINYDOME

Securview High Resolution 1/3" Vari-Focal Dome Camera 520TVL

Featuring a high resolution of 520TVL, and a high sensitivity in a dark environment (0.3 Lux @ F2.0), the VSTP-152W is ideal for a multitude of surveillance applications. The camera includes a 4~9mm vari-focal lens.

Image Sensor	1/3" High Resolution Colour CCD
Horizontal Resolution	520TVL
Lens	4~9mm / F2.0
Minimum Illumination	0.3 Lux / F2.0
Power	12VDC
Dimensions	140 (Dia) x 90 (H)mm

Part No.
VSTP152W

Securview 1/3" Day/Night High Resolution 4~9mm Vari-Focal 25m IR Armoured Dome Camera 560TVL

The VSSB-DOMEIRC has a High Quality 1/3" Sony Super HAD CCD with 560 TVL resolution providing outstanding picture quality. It also has Infrared LEDs with an IR range of up to 25m providing a crisp clear picture quality both Day and Night. The camera's field of view can be easily adjusted utilising the 4.0mm ~ 9.0mm Vari-Focal Lens. The Vandal Resistant / Weatherproof housing allows it to be used both indoor and out and is rated IP66. Ideal for all installations where picture quality counts!

Image Sensor	1/3" Sony Super HAD CCD
Horizontal Resolution	560 TV Lines Colour / 600 TV Lines B/W
Lens	4 -9 mm Vari-Focal
Minimum Illumination	0.2 Lux at F1.2 (IR LED On)
Power	12VDC
Dimensions	120(Ø)mm x 100(H)mm

Part No.
VSSB-DOMEIRC

Securview 1/3" Day/Night Varifocal 30M IR Dome 540TVL

The VSDVF30MIR is a waterproof IR Dome Camera with a 360° Rotational Vandal Proof mounting bracket. The fully-articulated bracket is able to be rotated 360°, with 180° movement in both horizontal and vertical directions. The vandal proof design of the bracket surrounds the power cable, ensuring that it is protected from environmental damage and vandalism.

Image Sensor	1/3" SONY Colour CCD
Horizontal Resolution	540TVL
Lens	4~9mm Manual Varifocal Lens
Minimum Illumination	0 Lux (IR On)
Power	12VDC
Dimensions	280 x 185 x 160mm (HxWxD)

Part No.
VSDVF30MIR

50M IR Range

Securview 1/3" Day/Night Varifocal 50M IR Dome Camera 540TVL

The VSDVF50MIR is a vandal proof dome camera designed for both indoor and outdoor applications. It has a high quality 1/3" Sony Colour CCD image sensor with 540TVL resolution providing a high picture quality. The camera has 54 Infrared LEDs with an IR range 50M maximum, providing a crisp clear picture quality in both day and night conditions. The camera's field of view can be easily adjusted utilising the 6-15mm Vari-Focal Lens. IP55 rated weatherproof.

Image Sensor	1/3" SONY Colour CCD
Horizontal Resolution	540TVL
Lens	6-15mm Manual Varifocal Lens
Minimum Illumination	0 Lux (IR On)
Power	12VDC
Dimensions	150 x 150 x 140mm (WxDxH)

Part No.	VSDVF50MIR
-----------------	------------

30M IR Range

NEW!

1/4" Day/Night Varifocal 30M IR Camera

Ideal for 24hr outdoor monitoring, the VLSL-WVF30MIR4-9 is a cost-effective surveillance method. The camera has a 1/4" Pixel CCD, a horizontal resolution of 420TVL, a minimum illumination of 0 Lux, IP66 water resistance rating and a 4~mm Manual Zoom lens.

Image Sensor	1/4" Pixel CCD
Horizontal Resolution	420 TVL
Lens	4-9mm Manual Zoom Lens
Minimum Illumination	0 Lux/F1.4 (LED ON)
Power	12V DC
Dimensions	200x171x83mm (L x H x D)

Part No.	VLSL-WVF30MIR4-9
-----------------	------------------

INFRARED EXTERNAL CAMERAS (COLOUR)

15M IR Range

Securview 1/3" Black Outdoor 3.6mm 15M IR Camera

The VSTP136BIR is an outdoor camera with 15M IR range and 480 TVL. It has 14 in-built IR LEDs, giving the camera high visibility and clarity in both day and night applications. The weatherproof outdoor housing is Standards Approved, rated IP67, and is very easy to install.

Image Sensor	1/3" Colour CCD image sensor
Horizontal Resolution	480 TVL
Lens	f3.6mm@F2.0
Minimum Illumination	0.3 Lux@F2.0, 0 Lux (IR on)
Power	12VDC
Dimensions	116.13(L) x 60(W) x 79.58(H)mm

Part No.	VSTP136BIR
-----------------	------------

50M Indoor IR Range

Securview 1/3" Day/Night Varifocal 50M IR Camera

The VSWVF50MIR4-9 is a weatherproof IR camera with a 360° rotational vandal proof bracket. The cable management design is built into the bracket, protecting the cable from environmental damage and vandalism. The camera comes with a sun-shield housing and aluminium bracket. The camera has an outdoor IR range of 30M and an indoor range of 50M

Image Sensor	1/3" SONY Super HAD CCD
Horizontal Resolution	540TVL
Lens	4-9mm Manual Vari-Focal Lens
Minimum Illumination	0.1 Lux
Power	12VDC
Dimensions	160 x 100 x 97mm (DxHxW)

Part No.	VSWVF50MIR4-9
-----------------	---------------

20M IR Range

NEW!

1/4" Day/Night 20M IR Camera

Designed for outdoor monitoring during the day and night, this 20M IR body camera is a cost-effective surveillance solution. It has a 1/4" Pixel CCD image sensor, horizontal resolution of 480TVL, a 3.6mm board lens and is water-resistant rated IP66.

Image Sensor	1/4" Pixel CCD
Horizontal Resolution	480 TVL
Lens	Board Lens 3.6mm/F2.0
Minimum Illumination	0 Lux/F2.0 (LED ON)
Power	12V DC
Dimensions	128(W) x 90(H) x 70(D)mm

Part No.	VLSL-W20MIR
-----------------	-------------

50M Indoor IR Range

Securview 1/3" Day/Night Varifocal 50M IR Camera

This Vandal-proof IR camera has a high quality 1/3" Sony Super HAD CCD image sensor and a 540TVL resolution. It has 36 IR LEDs, making it ideal for use in day and night applications, and the IP55 rated vandal/water proof housing allows it to be used for indoor or outdoor purposes. The camera has an indoor IR range of 50M, and an outdoor range of 30M. The fully articulated bracket allows for 360° rotation when positioning the camera, making it ideal for a multitude of versatile applications.

Image Sensor	1/3" SONY Super HAD CCD
Horizontal Resolution	540TVL
Lens	9-22mm Manual Varifocal Lens
Minimum Illumination	0 Lux (IR On)
Power	12VDC
Dimensions	160 x 100 x 97 (DxHxW)

Part No.	VSWVF50MIR9-22
-----------------	----------------

CCTV SURVEILLANCE PRODUCTS

BULLET CAMERAS (COLOUR)

Securview High Resolution Vari-Focal (4-9mm) Day/ Night Bullet Camera - 560TVL Day / 600TVL Night

The compact size of this High Resolution Colour Bullet Camera makes it an ideal choice for home and business security installations. It has a High Quality 1/3" Sony Super HAD CCD with 560 TVL(Colour) / 600 TVL(B/W) resolution, providing a crisp clear picture quality both Day and Night. The camera's field of view can be easily adjusted utilising the 4.0mm ~ 9.0mm Vari-Focal Lens. The durable Aluminium / Weatherproof housing allows it to be used both indoor and out.

Image Sensor	1/3 Sony Super HAD CCD
Horizontal Resolution	560 TV Lines (Colour) / 600 TV Lines (B&W)
Lens	4.0 ~ 9.0mm Vari-Focal
Minimum Illumination	0.2 Lux(Day) / 0.03 Lux(Night) @ F1.2
Power	12V DC
Dimensions	105(L) x 26(Ø) mm

Part No.
VSSB-HDBCAM

Securview 1/3" High Resolution Vari-Focal (9-22mm) Day/Night Bullet Camera - 560TVL Day / 600TVL Night

The compact size of this High Resolution Colour Bullet Camera makes it an ideal choice for home and business security installations. It has a High Quality 1/3" Sony Super HAD CCD with 560 TVL(Colour) / 600 TVL(B/W) resolution, providing a crisp clear picture quality both Day and Night. The camera's field of view can be easily adjusted utilising the 9 ~ 22mm Vari-Focal Lens. The durable Aluminium / Weatherproof housing allows it to be used both indoor and out.

Image Sensor	1/3 Sony Super HAD CCD
Horizontal Resolution	560 TV Lines (Colour) / 600 TV Lines (B&W)
Lens	9~22mm Vari-Focal
Minimum Illumination	0.2 Lux(Day) / 0.03 Lux(Night) @ F1.2
Power	12V DC
Dimensions	105(L) x 29(Ø) mm

Part No.
VSSB-HDBCAM9-22

PTZ SPEED DOME CAMERAS (COLOUR)

Securview Internal High-Speed Dome 18 x Optical Zoom

High resolution internal high speed dome camera with a built in 216 x zoom lens, using a moving IR cut filter to switch between monochrome and colour. The Pan tilt and zoom functions can be controlled either remotely using a joystick controller or via a suitable DVR. The camera uses RS485 PELCO-D / P to communicate. There are four alarm inputs that can be linked to preset camera positions. The camera has many advanced features including extremely low lux operation and a fully adjustable white balance function, these and other options are set-up in the on screen display

Image Sensor	1/4" CCD with Sony Original Module
Horizontal Resolution	470 TV Lines
Lens	216 x Zoom Ratio - 18 x Optical / 12 x Digital
Minimum Illumination	Low sensitivity of 0.01 lux (F1.4, ICR on)
Power	24VAC
Dimensions	216.5(L) x 133(Diam.) mm

Part No.
VSPTZ55

Securview External High-Speed Dome 18 x Optical Zoom

High resolution external high speed dome camera with a built in 216 x zoom lens, using a moving IR cut filter to switch between monochrome and colour. The Pan tilt and zoom functions can be controlled either remotely using a joystick controller or via a suitable DVR. The camera uses RS485 PELCO-D/P to communicate. There are four alarm inputs that can be linked to preset camera positions. The camera has many advanced features including extremely low lux operation and a fully adjustable white balance function, these and other options are set-up in the on screen display

Image Sensor	1/4" CCD with Sony Original Module
Horizontal Resolution	470 TV Lines
Lens	216 x Zoom Ratio - 18 x Optical / 12 x Digital
Minimum Illumination	Low sensitivity of 0.01 lux (F1.4, ICR on)
Power	24VAC
Dimensions	200(Ø) x 280(L) mm

Part No.
VSPTZ55W

IP BASED CAMERAS

Securview 1.3 Megapixel Compact IP Dome Camera

The VSIPMD1MP is a high performance 1.3 Megapixel IP Dual Stream Dome Camera which can deliver high resolution images to identify individuals and objects of interest. Its CMOS sensor provides up to 1280x960 image resolution which is 3 times higher than traditional high-resolution analogue cameras. The flat design of the camera allows it to be a non-invasive surveillance solution when discrete monitoring is required. The robust casing, rated IP66, protects the high resolution camera inside, and the camera is further protected against tampering thanks to the inclusion of a tamper alarm. The lightweight and compact design can give users easy, quick, and flexible installation on the ceiling and wall. The rugged mechanical design enables the camera to resist water, dust, and vibration, making it ideal for indoor or outdoor applications.

The main features of the VSIPMD1MP are:

- Privacy Masking
- Dual Streaming - MPEG4 and MJPEG
- Power over Ethernet
- Anti-Tamper Alarm
- 12x Digital Zoom
- Free bundled CMS software
- Securview NUUO Compatible

Image Sensor	Sony 1.3 Megapixel Progressive Scan CMOS Sensor
Horizontal Resolution	1280 (H) x 960 (V), Resolution > 700TVL
Supported Resolutions	MPEG-4: VGA, QVGA, CIF, QCIF MJPEG: 1280 x 960 (4 VGA), VGA
Frame Rate	MPEG-4: 30fps@VGA, MJPEG: 15fps@ 1280 x 960
Video Compression	MPEG-4 / MJPEG
Dimensions	47.6 (H) x 110.21 (Dia)mm

Part No.
VSIPMD1MP

Securview 2.0 Megapixel IP Full Body Camera

New from Securview comes this High Resolution 2.0 Megapixel IP Full Body Camera. The main features of the camera include:

- Embedded Linux OS
- TI Davinci Hardware Compression.
- MPEG-4 Video Compression.
- 1 Channel Audio Compression.
- High Resolution Video Preview: 1600 x 1200 pixels.
- Supports HD720/4CIF/DCIF/2CIF/CIF/QCIF Real Time Compression.
- Supports Dual Stream Compression.
- Supported protocols: TCP/IP, UDP/IP, HTTP, FTP, SMTP, DHCP, DNS, DDNS, NTP
- Support E-PTZ Function.
- Supports Sensor Alarm Input and Relay Output.
- Supports Network Voice Talk Function.

Image Sensor	2.0 Megapixel 1/3" CMOS Sensor
Horizontal Resolution	1600 (H) x 1200 (V)
Min. Illumination	0.5 Lux @ F1.2
Supported Resolutions	1600x1200,1280x720,800x600,704x576,640x480,528x384,704x288,352x288,176x144
Frame Rate	25fps(704x576), 25fps(1280x720),12.5fps(1600x1200)
Video Compression	MPEG-4 (Supports Dual Stream)
Dimensions	69 x 63mm x 157.5mm

Part No.
VSIP2MPFB

Securview 2.0 Megapixel 20M IR Impact Resistant IP Dome Camera

With a 2MP image sensor, 20M IR Range, MPEG4 dual-stream capabilities and Day/Night operation all housed in an impact-resistant dome, the Securview VSIP2MPVDIR is a high-resolution solution to your indoor and outdoor surveillance needs.

The camera boasts many other features, including:

- Embedded Linux OS.
- TI Davinci Hardware Compression.
- H.264/MPEG4 Video Compression
- High Resolution Video Preview: 1600 x 1200 Pixels.
- Support for HD720/4CIF/DCIF/2CIF/CIF/QCIF Real Time Compression.
- MPEG4 Dual Compression Stream.
- Securview NUUO Compatible
- Internet Browser support for Network Preview.
- Watermark function
- Day/Night Function with ICR and IR
- IP66 Vandal Resistant Housing

Image Sensor	2.0 Megapixel 1/3" CMOS Sensor
Horizontal Resolution	1600 (H) x 1200 (V)
Min. Illumination	0.5 Lux @ F1.2
Supported Resolutions	1600 x 1200,1280 x 720,800 x 600,704 x 576,640x 480,528 x384,704 x 288,352 x 288,176 x144
Frame Rate	25fps(704x576), 25fps(1280x720), 12.5fps(1600 x 912) 12.5fps(1600x1200)
Video Compression	MPEG-4 (Dual Stream Supported) / H.264
Dimensions	156 (Dia) x 135mm

Part No.
VSIP2MPVDIR

Securview 2.0 Megapixel IP Dome Camera

Using a 1/3" CMOS sensor to produce high-resolution (2 Megapixel) images, this IP dome camera from Securview is the ideal solution to many indoor surveillance applications. The camera has a multitude of features, including:

- Embedded Linux OS.
- TI Davinci Hardware Compression.
- 1 Channel Audio Compression.
- High Resolution Video Preview: 1600 x 1200 Pixels.
- Support for HD720/4CIF/DCIF/2CIF/CIF/QCIF Real Time Compression.
- Dual Compression Stream.
- Motion Detection, and Notification on PC Client.
- Supported Protocols: TCP/IP, UDP/IP, HTTP, FTP, SMTP, DHCP, DNS, DDNS, NTP
- Internet Browser support for Network Preview.
- Watermark function
- Sensor Alarm Input and Relay Output Function.
- Network Voice Talk Function support.

Image Sensor	2.0 Megapixel 1/3" CMOS Sensor
Horizontal Resolution	1600 (H) x 1200 (V)
Min. Illumination	0.5 Lux @ F1.2
Supported Resolutions	1600 x 1200,1280 x 720,800 x 600,704 x 576,640x 480,528 x384,704 x 288,352 x 288,176 x144
Frame Rate	25fps(704x576), 25fps(1280x720), 12.5fps(1600x1200)
Video Compression	MPEG-4 (Dual Stream Supported)
Dimensions	145 (Dia) x 159.8mm

Arecont Vision 8 Megapixel 180° Panoramic IP Cameras

The Arecont Vision range of 180° network IP cameras both deliver full-motion progressive scan 1600 x 1200 video across four 2MP sensors at 22fps. The cameras are available with MJPEG (8180) or H.264 (8185) compression, depending upon your requirements.

The main features of both the VSAV-8180 and VSAV-8185 are:

- Unparalleled High Definition Resolution
- Substitute up-to twenty four analogue cameras
- High Definition Panoramic 180° Imaging
- Forensic Zooming
- Reduced Overall System Cost
- Cost Efficiency

STAR DOT Technologies **TRIPLE STREAM VIDEO H.264 CAMERAS**

The Stardot range of MegaPixel Hybrid (Analogue and IP) Cameras combine the best features of the analogue CCTV world (auto iris, day/night IR filter, video out, 24VAC/12VC power inputs and I/O) with the best of the digital IP camera world (1.3/5 megapixel, Power over Ethernet, integrated Video Motion Detection, Dual Stream) to produce a range of high quality, multi-purpose, cost-effective CCTV cameras.

Stardot 5 Megapixel Triple Stream Video Day/Night H.264 IP Camera

- Unparalleled High Definition Resolution (2592 x 1944)
- Dual Codec (H.264/MJPEG) video streaming with simultaneous analogue video output at D1 resolution
- H.264 Streaming increases bandwidth efficiency
- Multiple power methods: 12VDC/24VAC/POE
- Integrated Video Motion Detection
- Day/Night Operation
- Also available in a 1.3MP Model

Image Sensor	5 Megapixel CMOS image sensor
Horizontal Resolution	2592(H) x 1944(V)
Lens	CS Mount
Minimum Illumination	Colour: 0.3 Lux, Day/Night: 0 Lux, IR sensitive
Dimensions	82(W) x 57(H) x 112(D)mm

VSIPSDH500BN

Stardot 5 Megapixel H.264 Vandal-Resistant Triple Stream Video Day/Night Dome

- Unparalleled High Definition Resolution (2592 x 1944)
- Dual Codec (H.264/MJPEG) video streaming with simultaneous analogue video output at D1 resolution
- Multiple power methods: 12VDC/24VAC/POE
- Integrated Video Motion Detection
- Day/Night Operation
- Vandal-Resistant Housing
- Also available in a 1.3MP Model

Image Sensor	5 Megapixel CMOS image sensors
Horizontal Resolution	2592 x 1944
Lens	4~10mm MP Lens
Minimum Illumination	0.3 Lux Colour, 0 Lux IR On
Dimensions	150(Dia) x 120(H)mm

CCTV SURVEILLANCE PRODUCTS

PTZ ACCESSORIES

Full Featured Speed Dome Controller

Speed Dome Controller with Keyboard and Joystick, Controls up to 32 Speed Dome Cameras, RS485 Multi Protocol, with LCD Display.

- 0~255 address range for camera & decoder
- Up to 128 preset positions and 6 cruising tracks
- Manual or automatic camera controller
- Manual control of focus, zoom & lens iris

Part No.
VSPTZKB

RS-232 to RS-422/485 Converter

RS-232 to RS-422/485 bi-directional converter. It allows one RS-232 port to be converted to and from RS-422 or RS-485 port, which can thus control up to 32 devices within 1200m in a multidrop environment.

Part No.
RS232TORS485

RS-422/485 Repeater

Boost RS-422 and RS-485 signals up to 1200m. Increase the maximum number of connected nodes to 128. Automatically detects data flow direction and switches data lines accordingly.

Part No.
RS232TORS485REP

CCTV SURVEILLANCE SIGNS

Warning Sign - A4 Size Blue Print on Corflute

These weatherproof / UV resistant warning signs help to increase the overall effectiveness of surveillance systems acting as a deterrent to would be criminals.

- Dimensions: 212(W) x 299(H) x 4(D)mm

Part No.
VSA24

CCTV Warning Sign Corflute A3 Size

A3 sized (420 x 297mm) CCTV Warning Sign, designed for display in a prominent position to act as a deterrent to would-be criminals. The sign is weatherproof and UV resistant.

Part No.
VSCDC

CCTV Warning Stickers (4 pack) A4 Size

Pack includes 4 A4 sized CCTV Warning Stickers.
2 x Rear Adhesive Stickers for use on flat surfaces
2 x Front Adhesive Stickers for use on interior windows

Part No.
VSCDSC

CAMERA TEST EQUIPMENT

Portable 3.5 Inch LCD CCTV Camera Test Monitor - Wearable Pouch Allows Hands Free Operation

The VSCAMTESTER is a Portable 3.5 Inch LCD Test Monitor used to test, adjust and focus surveillance cameras whilst mounted in position. It comes with a handy lightweight carrying case that can be worn around your arm to provide total hands free maneuverability. It can be powered by either battery or 12VDC.

- Hi-resolution digital TFT-LCD module
- Wearable pouch for hands-free operation
- Dual power sources battery or DC input
- CE/FCC approved. ROHS Compliant
- No more hand phone call charges, weak walkie-talkie signal or need for a second person to assist positioning and trouble shooting camera

Part No.
VSCAMTESTER

ANALOGUE CAMERA LENSES

2.8mm - 12mm DC Vari - Focal Auto - Iris Lenses

For indoor or outdoor use where light levels vary constantly and optimum performance is required under all light conditions. Includes the ability to adjust the field of view (wide to telescopic angles).

Part No.
VSLA2.8-12DC

6mm - 60mm DC Vari - Focal Auto - Iris Lenses

For indoor or outdoor use where light levels vary constantly and optimum performance is required under all light conditions. Includes the ability to adjust the field of view.

Part No.
VSLA6-60DC

2.8mm - 12mm Vari - Focal Manual - Iris Lenses

For indoor use. Ability to finely adjust lens aperture and focus for superior picture quality. Includes the ability to adjust the field of view.

Part No.

CAMERA HOUSINGS & BRACKETS

Armoured Dome Housing without Camera

This high quality armoured dome camera housing provides a weatherproof, tamper-resistant solution for both indoor and outdoor security applications.

- Corrosion resistant aluminium base
- Impact resistant polycarbonate cover
- Tamper-resistant screws
- Dimensions: 85(H) X 145(Dia)mm

Part No.
VSARMOURDOME

Weatherproof Camera Housing with Bracket - Suitable For Cameras No Larger Than: 76(W) x 62(H) x 220(L)mm

Constructed from light weight solid weatherproof aluminium, this housing is ideal for outdoor use.

- Suitable for cameras no larger than: 76(W) x 62(H) x 220(L) mm
- Dimensions of housing: 110(W) x 100 (H) x 340 (L) mm

Part No.
VSCA13

Weatherproof Camera Housing with Bracket- Suitable For Cameras No Larger Than: 76(W) x 72(H) x 260(L)mm

This housing has been IP66 certified and is constructed from light weight solid weatherproof aluminum making this housing ideal for outdoor use.

- Suitable for cameras no larger than: 76(W) x 72(H) x 260(L) mm
- Dimensions of housing: 113(W) x 106(H) x 410(L) mm

Part No.
VSGL606

Classical Camera Housing - Suitable For Cameras No Larger Than: 90(W) x 70(H) x 230(L)mm

This housing is constructed from extruded aluminum and is powder coated and stove finished. The design and manufacture is to the highest technical standard with environmental protection to level IP 66. The housing is supplied with an adjustable cable managed mounting bracket.

- Suitable for cameras no larger than: 90 (W) x 70 (H) x 230 (L) mm
- Dimensions of housing: 110(W) x 100 (H) x 340 (L) mm

Part No.

CAMERA ACCESSORIES

RF Modulator for Surveillance Cameras

This unit allows the connection of a CCTV camera with or without sound to a TV that has a TV aerial socket / RF socket. It has 2 RCA plugs. 1 x video, 1 x audio and a DC socket for a 12VDC power supply (100mA).

Part No.
VSARFMOD

4 Way Video Distribution Amplifier - Split 1 Video Signal Into 4

- For splitting 1 video signal into 4 without Signal Loss
- 1 x Composite Video Input
- 4 x Composite Video Outputs
- Power: 240 VAC

Part No.
VSCA17

Composite (BNC / RCA) to VGA Converter

- Converts Composite to VGA
- Output Resolution up to 1280 x 1024 @ 60Hz
- Allows Use of Cost Effective PC / VGA Monitors with DVRs
- Includes 5VDC Power Supply

Part No.
VID2VGA

Audio Microphone with Pre-Amp

- Add-on mini audio microphone, for all cameras that require an audio function
- The microphone is designed to be mounted next to the camera.

- Features:**
- High sensitivity microphone
 - Audio output 2Vp-p (max)
 - Power requirement 12VDC @ 10mA

Part No.
VSAMICV2

Inline Add-on Audio Microphone

- Inline Add-on Mini Audio Box
- Designed for use on all cameras
- Connect directly to the camera and monitor/DVR

- Features**
- High sensitivity microphone
 - Audio output 2Vp-p (max)
 - Power requirement 12VDC @ 10mA
 - Dimension 48 x 15 x 9mm (audio box)

Part No.
VSAMICINLINE

CASH REGISTER INTERFACE

CCTV Cash Register Interface

The VSCASHOSD is an excellent tool for controlling inventory shrinkage and loss prevention. When interfaced between a cash register and DVR, the unit overlays the register transaction data onto the video picture to get the complete picture of every transaction. The 24 programmable exceptions provide on-screen alerts, making the finding of suspicious transactions fast and simple.

Main Features:

- Programmable alarm outputs.
- Alarm input for drawer open, safe open, etc.
- Programmable delayed screen blanking
- Choice of 1 to 11 lines displayed on-screen
- On-screen titler up to 40 characters
- Gray scale and border selection from front panel
- Built-in test mode
- Built-in cash register demo
- Upload/download programming to a PC or another VSI-Pro
- Data captured either to the memory or to the serial port
- Local Firmware Downloadable
- Local / Remote Programming via PC Software
- Supports Hydra/Regcom/Networker/networker networking communications products

Part No.
VSCASHOSD

STAND ALONE DIGITAL VIDEO RECORDER

Watchguard 4 Channel H.264 Network DVR

The Watchguard DVR4CHSOV6H264 is one of our Real-Time 4 Channel H.264 Network DVRs, and it is the ideal product for use in a home or small business, when the owner is after a high quality Digital Video Recorder with entry level functions.

The DVR utilises H.264 Video Compression technology, which allows the DVR to record higher resolution images without increasing the image file size. This maximises the amount of footage which can be stored on the internal 500GB hard drive.

Installation and setup of the DVR couldn't be easier thanks to the "Plug and Play" setup and user friendly On-Screen Menu. The OSD can be easily navigated by the user via the DVR Front Panel or operated wirelessly by using the included IR remote control. For greater functionality, the system supports a USB mouse (not included).

Recorded video footage and images can be viewed and played back on the DVR. When you need to retrieve the video footage (ie: Evidence) from the DVR, simply use the OSD to backup the footage to a USB Flash Drive via the external USB port, or backup the footage to a remote PC via a network.

- **H.264 Video Compression**
- **Real Time Live Display**
- **USB & Network Backup**

Video Compression Format	H.264
Recording Resolutions	704 x 576, 704x288, 352x288
Max. Recording Frame Rate	100FPS Global
Max. Display Frame Rate	100FPS 'Real - Time Display'
Backup Methods	Network Remote & USB Backup.
Hard Drive Bays	1 x SATA HDD (1TB Capacity)
Network Functionality	Live Monitoring, Remote Playback, File Backup, Remote Configuration

* Monitor Not Included

CHANNEL

Watchguard 8/16 Channel Standalone Digital Video Recorders

These Watchguard 8 and 16 Channel DVRs are our new standalone analogue models, designed for commercial deployment. The DVRs utilise H.264 video compression technology, maximising the hard drive efficiency as well as offering superior image quality, especially when compared with previous generation MPEG4 compression DVRs.

Model Features:

- USB Mouse Control with GUI OSD
- Intelligent Motion Recording
- H.264 Video Compression Technology
- Remote / Mobile Surveillance
- Live, Record, Playback, Backup and Network operation at the same time
- CD/ DVD /USB and network backup

Platinum Series 16 Channel 400 FPS DVR

The Next Generation top of the range DVR PLATINUM SERIES features 400FPS display rate (REAL TIME) which is essential for prolonged periods of video monitoring (as it eliminates headaches and sore eyes). The PLATINUM400L has a 400FPS global recording frame rate and the user can select to record in either Standard Resolution or High Resolution. It has the ability to be remotely viewed from anywhere around the world by simply logging in to the system via your web browser. The included multi-host software allows multiple DVRs to be connected on a network to provide simultaneous viewing and control of up to 256 cameras. The DVR Platinum Series supports up to 5 hard disk drives allowing for a maximum of 5.0TB to be utilised.

- >>> **400 FPS REAL-TIME DISPLAY RATE**
- >>> **400 FPS RECORDING RATE @ CIF / 100FPS @ D1**

PLATINUM MULTIHOST SOFTWARE

All of our PC based Linux DVR systems are suitable for commercial, industrial or residential use and come with the latest version of MPEG4 Multihost software, which enables you to be able to view up to 256 sites simultaneously.

Some of the software features include:

- Web Interface / NT Server & Inbuilt support for remote viewing
- MPEG4 Recording (high quality video compression)
- Simple network configuration
- View via the internet / LAN / WAN using your ethernet, broadband or cable connection (just enter in your DVRs IP address along with your username and password to view all of your cameras!)
- Remotely administer your Digital Video Surveillance system without having to be in front of it! Control it from anywhere around the world
- Pan / Tilt/ Zoom control
- Search for saved images
- Secure username & password login (Multi-Level)
- Multi-Host software - View multiple sites simultaneously
- Selectable display modes (eg. view cameras as: 2 x 2, 4 x 4 etc)
- Can be used with VSNTSERVER
- Remotely backup recorded video footage

Platinum Multihost Software - How It Works

This system gives you total control and flexibility, no longer do you have to imagine viewing all your sites at once. The Technology is here and it's included with the Platinum series.

What Does It Mean?

In the example installation below the client has 3 sites located throughout Australia. Using standard non multihost systems would only allow the remote monitoring site to be able to view one location at a time, however by using the Platinum series DVRs with the included Multihost Software you are able to view and control any combination of cameras and sites from anywhere around the world simultaneously. In the example the client has chosen 13 cameras from the NSW site, 11 from the Qld site and 15 from the VIC site, meaning all 39 cameras are displayed at once on the remote viewing screen. This system has total flexibility and can be changed at any time by simply selecting what combination of cameras you require, you can choose to view and control 1, 10, 20, 100, 200 cameras or more simultaneously.

Benefits:

In today's changing world businesses are wanting to monitor their operations more closely for a number of reasons including, time and motion studies, OH&S, staffing issues and security. By being able to view multiple sites simultaneously businesses can take an overall look at their operations and compare what works at different sites and what does not, allowing them to streamline their operations for maximum effectiveness. OH&S problems and staffing issues can be recognised and rectified and one person can maintain effective security surveillance over multiple locations. The Platinum series has been designed to offer a packaged solution that suits all businesses from small single unit installations to large multi national organisations.

ADVANCED SOFTWARE - CMS MANAGEMENT TOOL

Platinum DVR Central Management Software (CMS)

The Platinum DVR CMS software offers users the most compelling remote monitoring solution available in the modern IP-Surveillance security market. It has capabilities to view, search data and control up to 1,024 cameras from any combination of up to 64 Linux DVR Software products worldwide via Internet. The powerful video data handling proficiency allows Linux DVR Software ACMS to handle high quality CIF and D1 resolution with ease. It is compatible with any of our MPEG4 Linux DVRs and NT Servers and is designed run constantly 24hours a day, 7 days a week.

Main Features

- User-friendly GUI with easy and instinctive controls
- Live monitor (up to 256 cameras in multiple windows)
- Up to 256 Hosts
- Event (motion) monitor and search
- Host manager for NT and Linux DVRs
- Remote Window for camera controls such as PTZ and presets, contrast, hue, colour
- Toolbox for top-level menubox, quick connect function
- e-map for displaying direct location of camera
- Log Monitor

Powerful Event Management

- In real-life monitoring, it may be strenuous for users to identify vital problems instantly from the video data. Therefore, Linux DVR Software ACMS provides effective event management functions in order to deal with video data from multiple cameras or DVRs.

Multi-Monitor Support

- The application of single window program will be inadequate to accommodate the diverse functions of CMS. Linux DVR Software ACMS allows users to allocate relevant functions independently in order to support monitoring using multiple monitors.

Search and Backup

- Specific video data backup and search on event basis is vital for incident capture and evidence material retrieval. To support such functions, Linux DVR Software ACMS is enriched with application of event basis search manual backup and event based automatic backup, scheduled backup and much more.

* For further information on this product please visit us at www.rhino.com.au or contact our sales office.

Linux DVR Software ACMS Multi-Monitor View

Part No.
DVRCMSAPP

Platinum Series Network Video Web Server

The VSNTSERVER encodes and decodes video/audio/control data for transmission over an IP network, so you can convert an analogue camera into a network attached recording device. Not only can it be accessed anywhere in the world, it can also be recorded over your network to a Linux based digital video recorder (DVR), saving you money on long coax runs and installation costs. Two of these units can also be used in a transmitter/receiver setup for analogue video transmission over a network, without the need for coax or even a DVR system.

- Converts CCTV analogue data into digital MPEG4 data
- Designed to be mounted to walls with aluminum case to prevent overheating
- Transmission of 25fps high resolution video images
- Bi-directional audio support for voice communication
- Application for mass scale monitoring terminal through SNMP V2 support
- Designed for use with our Platinum Series DVRs
- Utilises Platinum DVR as the video storage/distribution device
- Ability to modify transmission volume through motion detection/sensor input
- Directly accessible via Web Interface and Multihost Software
- PTZ camera support
- Sensor Input and Relay output
- Adjustable bandwidth, image rate and image quality
- 130mm x 145mm x 25mm

Customisable DVR Package Solutions To Match *Your* Requirements

Here at RhinoCo Technology we strive to provide our clients with the products and services that meet the clients needs. If you require a customised digital monitoring package, contact us now.

MAIN FEATURES:

- Store up to 80TB (82,000 GB) worth of recorded video footage over 16 machines.
- RAID support available for drive mirroring and extended recording capabilities.
- Record up to 3200 frames per second globally.
- REAL-TIME recording and playback available.
- SMS notifications can be sent to your mobile phone whenever an important event occurs (such as power loss, data corruption, network transmission failure etc.)
- Email Alerts - Your system can send emails on a range of events (eg. Motion Detection, Video Loss, Hard Drive Failure).
- Secure and lockable systems

ALSO AVAILABLE:
RACKMOUNT POWER SUPPLIES
RACKMOUNT BALUNS

UPS - UNINTERRUPTIBLE POWER SUPPLY

Provide power protection for your video surveillance systems in the case of a power failure. These units will power your video surveillance systems for an extended period of time and will activate an audible alarm alerting you that power has been lost, allowing you to safely shutdown your systems without any data loss.

DIGITAL VIDEO RECORDERS

Mount up to 16 Digital Video Recorders for a complete CCTV solution.

KVM - CENTRAL KEYBOARD, VIDEO & MOUSE

View and control multiple DVR & PC systems through the 1 keyboard, monitor and mouse. Change between machines with a simple push of a button or keyboard.

SMS SYSTEM NOTIFICATION MESSAGES

By utilising the Rhino TSMS, your system can be setup to send an SMS message to up to 5 mobile phones whenever an important event occurs (eg. Power loss, failure).

RS232/485 CONVERTER - PTZ, ZOOM & CUSTOM FUNCTION

Converts RS232 signals to RS485 to allow control of 256 PTZ cameras from the client software. RS485 repeaters and customisable protocols are available.

MULTI-HOST SETUP & OTHER NETWORKING OPTIONS...

Remotely view up to 256 cameras from anywhere around the world. Setup remote connections to your sub-branches to be viewable from your headquarters.

VIDEO OUTPUT OPTIONS FOR SPOT MONITORS...

Setup monitors remotely to display recorded & live recording footage.

OPTIONAL PACKAGE PRE CONFIGURATION

Have your customised package setup prior to delivery to your premises for a simple 'plug and play' installation - no configuring required.

ETHERNET SWITCHES

Rack mount ethernet switches can connect up to 16 DVRs.

HYBRID NETWORK VIDEO RECORDER (ANALOGUE / IP CAMERAS)

exacqVision® Pro

PREPARE TO BE 'BLOWN AWAY!'

Brilliant Reproduction

- Configure any combination of Analogue/IP/IP Megapixel Cameras
- Support for industry leading brands of IP Cameras, Access Control systems and Retail Analytics
- Advanced Searching & Zoom Functions in both Live View and Playback
- Mobile Surveillance! Monitor your cameras on your mobile phone.

Support for leading IP camera brands such as:

Support for leading Access Control brands such as

ADVANCED HYBRID VIDEO SURVEILLANCE SOLUTIONS

How does a CCTV system which can provide images TWICE the quality of Blu-ray video sound? How about an infinitely scalable system with the highest level of integrated support for IP Cameras, Access Control and Retail Analytics from industry leading brands?

The Securview Exacqvision range of NVRs represent the leading edge of Analogue, Hybrid, IP and Megapixel IP video surveillance solutions. Exacqvision has been designed in the USA as a complete multi-platform security solution capable of recording all formats on one dedicated server platform. The system can seamlessly integrate analogue, IP and Megapixel IP cameras without the need for converters or external software. The software supports individual configuration of the cameras, allowing each camera to record at it's own resolution using the specified compression format! (MPEG4, MJPEG, H.264) Each Securview Exacqvision NVR can support from 4-32 Analogue cameras like any normal DVR and can be expanded to a total of 64 IP cameras per server.

The Securview Exacqvision Server can be supplied in two formats - Windows or Linux. The client software is pre-installed on the server, and can be installed and utilised on as many client related PCs as required. For greater accessibility, the client software is available in three formats; Windows, Linux or Mac.

Why choose Securview Exacqvision?

The Securview Exacqvision range of NVRs have been recognised as one of the #1 client server platforms. The system provides full compatibility and support with a wide range of industry leading IP camera manufacturers such as Arecont Vision, Stardot, Axis, Sony, Panasonic, ACTi, IOIMAGE and many more. The support for such a wide range of cameras means that you aren't tied into buying one brand of camera - you have freedom of choice to get the best value solution for your client's needs.

If its wide range of IP Camera support wasn't enough, the Securview Exacqvision is also fully compatible with a number of leading edge Access Control companies such as Lenel, Cardax, DSX, ICT and PCSC, as well as fully supporting a number of Retail Analytic companies like MicrosRetail and Sensormatic. These companys' software integrates with the Securview Exacqvision software on all levels of security.

True Hybrid NVR

Seamlessly mix any combination of Analogue & IP cameras to create a truly Hybrid, scalable enterprise video surveillance system

Intuitive User Interface

- Contemporary, Intuitive User Interface requires minimal training to operate
- Common client softwares allows for connection of multiple servers to create scalable networks
- Powerful video and audio export features
- Powerful E-Map function

Extensive IP Camera Support

- Standard, PTZ and Megapixel cameras of any resolution
- Supports cameras from industry leading manufacturers, including Acti, Arecont Vision, Axis, Sony, and IQinvision
- Each server is expandable to up to 64 IP cameras

Powerful System Integration

- Support for a wide range of IP cameras, as well as integration with leading access control systems, retail analytics, iSCSI storage and much more

Fully Functional Multi-Platform System

Securview Exacqvision software is available for Windows, Linux and Mac

Secure and Stable Client Server Architecture

- Unlimited clients can connect to each server
- Server software runs of standard Windows and Linux platforms
- Browser client for viewing and playback in any web browser
- Mobile Support: View, search & playback on javascript-enabled mobile browsers such as Blackberry, Windows Mobile and iPhone

Advanced E-Map Functions

Maps can be imported from any image source. Cameras can be placed on maps. Seamlessly drag and drop maps and cameras in a view. Alarm events on maps create animated icons that can be selected for immediate assessment

Entry Level to Enterprise Solutions Available

As it is an infinitely scalable surveillance solution, the Securview Exacqvision can be customised to suit any number of applications, from an entry level 4 camera system to a multiple-server enterprise setup.

Intuitive GUI:

Intuitive Inbuilt Client Software

Each server has inbuilt client software which allows you to configure, view, record and playback footage.

Camera 'Drag and Drop' Setup

Customise the GUI to suit your needs. A simple tree structure displays all the cameras connected to the server. To view the cameras, simply drag the camera into the display window, as many times as needed (useful for Live Zooming function, see below).

Multi-Platform Use

The Securview Exacqvision client is compatible with Windows, Linux and Mac Operating Systems. In addition to this, the Exacqvision Web View supports all major internet browsers (Internet Explorer, Firefox, Opera, Safari, Chrome) and the Mobile Client is compatible with Blackberry, Windows Mobile and i-Phone devices.

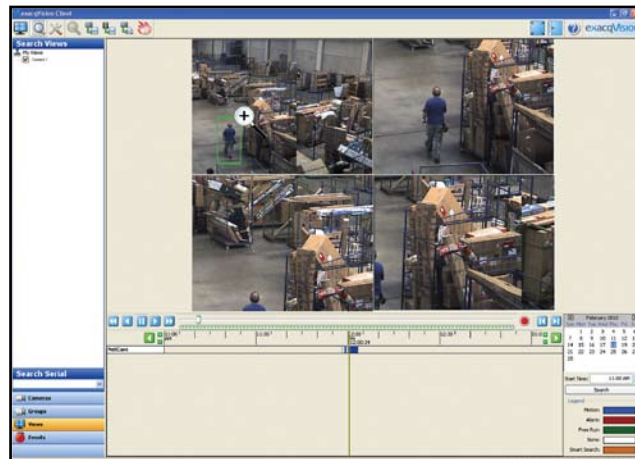

Live View Display

Advanced Zoom Functions:

Live View Zooming

Playback Zooming

Live View Advanced Zoom Functions

One of the features which sets the Securview Exacqvision system apart from its competitors is the integrated Live Zoom feature. This allows you to not only display the same camera multiple times in the same window, but by simply clicking and dragging a window around an object of interest, you can zoom in to focus upon a specified area. These zoom settings can be saved for easy retrieval and use when reviewing playback.

Imagine being able to monitor multiple points of interest from the one camera in real time!

Advanced Zoom Playback Functions

The Securview Exacqvision Playback function provides the same level of advanced zooming as the live view. Click and drag on areas of interest in the display windows, and playback the footage. The system also allows you to apply any saved view settings when reviewing and playing back footage, instantly restoring your defined zoom settings.

Easily Configure the Live View and Playback Setup

The Securview Exacqvision software allows you to playback and review footage from multiple cameras at the same time. Simply drag and drop the required cameras into the display windows and apply any required zoom settings. The footage can be sorted by time and date recorded, by event trigger or by camera, making selecting the necessary footage easy.

Powerful Searching

Search for and view video from multiple cameras across multiple Securview Exacqvision servers simultaneously. Navigate quickly and easily through the footage to find necessary events. Footage can be exported in multiple formats. It can be exported as a standard video file (.avi) for reviewing in media playing software without advanced zoom functions; or the system can export the footage as a self-executable file which will open on any PC. The benefit of this method is that the executable file includes the viewing software allowing you to access the advanced functions such as selective zooming.

Securview ExacqVision Pro 4 Channel Hybrid Network DVR

Video Compression Format	MPEG4 , H.264, MJPEG
Recording Resolutions	CIF/2CIF/D1 + Megapixel ³
Analogue Record Rate	Real time @ CIF

SECURVIEW HD

PRESENTS THE NEW GENERATION

Brilliant Performance

5 MEGAPIXEL VIDEO SURVEILLANCE SYSTEM

Up to **50X** Better Image Quality Than
Traditional Analogue CCTV!

Complete pre-configured Network Video Recorder (NVR) system with simple plug-in installation.

Utilises industry leading video management software.

H.264
VideoCompression

How does a High Definition CCTV system which can provide images TWICE the quality of Blu-ray video sound?
You will certainly be BLOWN AWAY by the brilliant performance which our Securview™ HD system is capable of producing.

Complete High Definition 4 Camera NVR Pack

The Securview™ HD4 Network Video Recorder (NVR) System has been specifically designed as a premium 4 camera video surveillance system where the quality of recorded images is of paramount importance. This product has the ability to record moving video images using H.264 video compression at resolutions up to 5 Megapixels (2592 x 1944 pixels) at 9 frames per second per camera! You can of course reduce the image resolution and increase the frame rate to match your specific site requirements. If you are a person who demands the best for your company, this is the system for you!

Utilising world class video management software, this system seamlessly integrates the high quality camera images with advanced operator management, alarm event & forensic search software. This provides outstanding operational performance and a level of functionality that has been previously unobtainable with traditional analogue systems. The general ease of use and footage backup processes are all industry leading.

One of the key benefits of utilising 5MP Cameras in this system is the ability in many installations to have one camera do the equivalent work of many traditional analogue cameras. Instead of having multiple analogue cameras with different lenses fitted to capture your required scene at a useable resolution (along with the increased costs of multiple cable runs, housings & ongoing maintenance), you can now utilise one Megapixel Camera with a wide angle lens setting and still get a far superior result. This can make the overall system cost of a Megapixel system cost effective on a comparative cost per camera basis. Once you then take into account the features & functionality the NVR software provides, there is little reason to consider any other solution unless lower resolutions are acceptable and a lower price is sought.

Although the Securview™ HD4 NVR Kit has been designed as a "Plug and Play" system, don't let that fool you as a compromise for performance. Clever use of leading edge hardware has enabled us to remove the usual complexities of installing an IP based CCTV system. Installing the system is as simple as plugging the cameras through a single pre-terminated CAT5 cable into the designated PoE sockets at the back of the unit and powering it on. Once the system is on, you will immediately be able to operate the NVR through its easy-to-use software interface.

* Many traditional CCTV systems installed are only capable of recording at CIF (352 x 288 pixels - approximately 0.1 Megapixel) resolution. The Securview™ HD4 NVR system has a recorded resolution 50 times superior when compared with CIF resolution. When you compare the most advanced analogue CCTV systems are only capable of recording at a maximum D1 resolution (704 x 576 pixels - approximately 0.4 megapixels), the Securview™ HD4 NVR system still has a recorded resolution 12 times superior!

Your Securview™ HD4 Package Includes:

- 1 x SECURVIEW™ HD IP based NVR with 2 TB HDD in a compact case for easy storage
- 4 x SECURVIEW™ 5 Megapixel IP Dome Cameras
- 2x 10m, 1x 20m, and 1x 30m CAT5e camera connection cables
- 1x LAN connection cable (optional use)
- 1x USB keyboard and mouse

Securview™ HD 5MP D/N IP Dome Cameras

- 5 Megapixel CMOS Image Sensor, H.264 video compression
- 4.5~10mm Vari-focal Lens
- 2592 (H) x 1944(V) pixel array
- 0.3 Lux @ F1.4; Day/Night: 0 Lux - IR sensitive with cut filter
- IP66 vandal & weather resistant dome housing
- 3-axis camera gimbal for mounting on surfaces such as a ceiling, wall, sloping roof etc
- Record 5 MP images @ 9FPS per camera, 3MP @15 FPS or 2MP @ 24 FPS (real-time)
- Dimensions 140 (Dia) x 125 (H) mm

NVRHD4KIT

The World's Leading NVR Manufacturer

The Securview NUUO is the next generation in Digital Surveillance Technology. It allows complete customisation regardless of whether you require IP, Analog or a Hybrid solution. It supports virtually unlimited storage space through the use of Network Attached Storage (NAS) devices. The Securview NUUO can even record 32 Channels of D1 (720 x 576) in real time using its H.264 hardware compression cards.

Securview NUUO Surveillance Solutions: How Can it Assist You?

Securview NUUO provides scalable surveillance solutions that fulfill the needs of monitoring, patrolling and analysing clients for all sizes. The key solution is the Central Management Systems (CMS), which is a powerful software designed to allow management of an unlimited number of analogue and IP cameras worldwide. No matter what the size of your business, Securview NUUO will individually tailor a solution for you.

Main Intelligent Functions of the Securview NUUO Range

Video Analytics: General Motion

Video Analytics: Foreign Object

Video Analytics: Camera Occlusion

Video Analytics: Lose Focus

Video Analytics: Missing Object

Video Analytics: Signal Lost

Multifunctional Playback with Intelligent Search

Narrow down the time it takes to search recorded footage by searching only for the selected video event. Intelligent Search-Easy Management saves time. Select a suspicious period of frames from hours of video footage and watch those frames only.

GUI Recording Schedule

Simple and user-friendly interface to set up surveillance cameras to guard, on any object. Easily access recorded footage to view events, with adjustable framerate.

Instant Response

Uses the Popup E-map to quickly indicate the location of devices. Alerts also display on monitor, activates an audio alert, sends emails, notifies CMS, Trigger Output activation and more...

Video Enhancement

Adjust video visibility, sharpness, brightness, contrast and greyscale. Enhance the video resolution for a clear accurate view of suspects.

Popup E-Map

The Securview NUUO i-Guard E-Map shows the location and status of all devices in the system, and also provides video preview of on-network cameras, allowing users to instantly respond to any event.

POS and I/O Integration

Securview NUUO NVR provides a wide range of flexibility in integrating associated I/O security devices, as well as having the capacity to receive POS transactions into the surveillance system via network.

PRESENTS THE NEW GENERATION IN

HIGH DEFINITION

2 MEGAPIXEL VIDEO SURVEILLANCE SYSTEMS

Up to **20X** Better Image Quality Than Traditional Analogue CCTV!

Complete pre-configured system with plug-in installation - no programming required

Designed as a high quality security solution ideal for small businesses, this Watchguard™ HD 4 Channel IP-based CCTV system utilises 2 MP digital cameras providing up to 20x greater image quality than traditional analogue CCTV systems. The state-of-the-art monitoring and recording software provides managers with the best tools to prevent crime, monitor work place safety and improve productivity.

High Definition 4 Camera Network Video Recorder (NVR) Pack

Imagine the clarity of a High-Definition TV on your CCTV system! With the Watchguard™ HD NVR System you can view, record and playback high-definition (2 Megapixel) surveillance footage up to 20 times* the quality of traditional CCTV systems. The MPEG4 video compression technology efficiently minimises video storage space. With ultra sharp 1600 x 1200 pixel image resolution, the Watchguard™ HD NVR System gives you smooth high definition recording at up to 12.5 frames per second per camera. The Watchguard™ HD NVR system has been designed as a fully featured yet simple "Plug and Play" standalone product.

Product Features:

- Stand alone PC server platform
- IP based megapixel solution
- Digital zoom capabilities
- Supports megapixel IP cameras - up to 5 MP
- Dual monitor display
- E-map and GUI recording schedule
- Digital PTZ and multiple viewer
- Smart detection of 6 events and 10 instant responses
- Advanced video analytic functions such as Smart Search and Object Counting
- Integrated 4 Port POE switch for simple plug-in installation
- POS and I/O device integration (optional - additional part req.)
- Digital zoom up to 64x
- Remote live viewer, playback, backup, I/O control, desktop config.
- CD/ DVD/ USB/ network backup
- Multifunctional Playback with Smart Search
- Object detection and counting
- Event management – i.e email notification if camera signal is lost
- Digital Map – load a map of your premises and mark the camera locations
- Post-recording video enhancement
- Remote live view and backup
- Varifocal 4-9mm IR corrected megapixel camera lenses, adjust optical zoom to suit your required store view

Installing the system is as simple as plugging the cameras through a single pre-terminated CAT5 cable into the designated PoE sockets at the back of the Watchguard™ HD NVR and powering on. Once on, you will be able to operate the NVR through its intuitive mouse orientated menu system and protect your business with first-class video evidence.

* Many traditional CCTV systems installed are only capable of recording at CIF (352x288 pixels – approx. 0.1 megapixel) resolution. The Watchguard™ HD NVR System has a recorded resolution 20 times superior compared with CIF resolution. Compared with the most advanced analogue CCTV systems currently available which are capable of recording at maximum D1 resolution (704x576 pixels – approx. 0.4 megapixels), the Watchguard™ HD NVR System has a recorded resolution 5 times superior!

CAMERA SPECIFICATION

Image Sensor	2.0 MP 1/3" CMOS Sensor
Horizontal Resolution	1600 (H) x 1200 (V)
Min. Illumination	0.5 Lux @ F1.2
Lens	4-9mm Vari-Focal
Supported Resolutions	1600 x 1200, 1280 x 720, 800 x 600, 704 x 576, 640 x 480, 528 x 384, 704 x 288, 352 x 288, 176 x 144
Frame Rate	25FPS (D1), 25FPS (1280 x 720), 12.5FPS (2MP)
Video Compression	MPEG4
Dimensions	145 (Dia) x 159.8 (H)mm

NVR

Compression Format	MPEG4/MJPEG/H.264
Video Resolution	Supports CIF, 2CIF, D1, 1.3MP, 2MP, 3MP, 5MP
Divided Screen	1 / 4 / 6 / 9 / 10 / 13 / 16 / 25 / 36 / 49 / 64 / 12+1 / 16+1
Recording Mode	Continuous, event, motion, scheduled, manually, w/audio, auto recycle
Video Analytic Functions	General motion, missing object, foreign object, camera occlusion, lose focus, signal loss
Included Storage	1 Terrabyte HDD
Backup Methods	CD/DVD/LAN/USB
Dimensions	325 (L) x 208 (W) x 43 (H) mm

The Watchguard™ HD NVR Package Includes:

- 1 x Watchguard™ HD IP based NVR with 1 TB hard drive
- 4 x Watchguard™ HD 2.0 megapixel IP dome cameras
- 2x 10m, 1x 20m, and 1x 30m CAT5e camera connection cables
- 1x LAN connection cable (optional use)
- 1 x USB keyboard and mouse

SECURVIEW NUUO ANALOGUE SOLUTIONS

SECURVIEW NUUO 4/8/16 CHANNEL ANALOGUE DVRs

The Securview NUUO range represents the combination of high quality performance and product functionality. Our Securview NUUO Analogue DVRs are some of our premier standalone DVRs, making them the ideal product to use as an analogue solution for a new surveillance system or for upgrading a smaller scale analogue surveillance system.

The DVR interface has been designed for easy user interaction, and the system software contains many intelligent features which set the Securview NUUO systems apart from competitor products. These intelligent video analytic features include dual monitor display for simultaneous real time audio/visual display, playback and monitoring, POS and I/O integration for more effective system expansion and instant response functions to ensure that your system alerts you when an event occurs.

The 4, 8 and 16 Channel machines all utilise a high resolution H.264 capture card, allowing the machine to capture and display images at D1 resolution. The system is housed in a 19" 3RU Rackmount case for easy storage and operation.

SECURVIEW NUUO HYBRID NVR SOLUTIONS

SECURVIEW NUUO HYBRID NVR SYSTEMS

The Securview NUUO Hybrid NVR solutions have been designed for small to large sized businesses which may already have a small scale analogue surveillance system installed and are looking to make the move towards an IP based surveillance system.

Our Hybrid units are available in three main configurations:

- 4 Channel Analogue and 4 IP Licenses
- 8 Channel Analogue and 4 IP Licenses
- 16 Channel Analogue and 4 IP Licenses

The main benefit of using one of our hybrid systems is that they allow you to utilise up to 16 of your existing analogue cameras¹ whilst also giving you 4 IP camera licenses so you can make the transition to an IP based surveillance system².

Each NVR system can support a total of 64 Cameras³. Each unit includes the Securview NUUO analytic software, which enables high end operation and monitoring through the use of a range of intelligent functions such as notification of video analytic events like Foreign Object detection, Camera Occlusion, Loss of Focus and Missing Object detection.

Additional IP Camera licenses can be purchased as your system expands, making the Securview NUUO range of Hybrid NVR products a future-proof solution.

SECURVIEW NUUO IP NVR SOLUTIONS

SECURVIEW NUUO 4/8/16 CHANNEL IP NVR SYSTEMS

The Securview NUUO range of IP NVR systems are our high-end systems which are designed for businesses which are looking to make the jump to IP Megapixel Technology.

Our IP-Based NVRs are available in three configurations:

- IP NVR with 4 IP Licenses
- IP NVR with 8 IP Licenses
- IP NVR with 16 IP Licenses

The systems includes the high performance video analytic software, which not only allows for high end monitoring and operation, but the software allows for the expansion of the system up to a total of 64 cameras¹. No matter the size or application, the Securview NUUO range of IP NVRs are the ideal scalable surveillance system solutions. Like all the Securview NUUO products, the IP NVRs utilise the high quality Securview NUUO interface and Video Analytic software, which contains many intelligent features which help set the systems apart from competitor products. These features include dual monitor display for simultaneous real time audio/visual display and playback, the ability to manage up to 64 cameras simultaneously with the Securview NUUO CMS², optional POS and I/O integration for more effective system expansion and instant response functions to ensure that your system alerts you when an event occurs.

- >> EXPAND UP TO A TOTAL OF 64 CAMERAS PER SERVER
- >> H.264 IMAGE COMPRESSION
- >> INCLUDES ANALYTIC SOFTWARE
- >> COMPATIBLE WITH IP CAMERAS FROM LEADING MANUFACTURERS SUCH AS SECURVIEW, SAMSUNG, ARECONT VISION AND ACTI:

Intelligent Video Functions

Main Features and Applications

- Supports a total of 64 cameras per server
- Inbuilt High-Performance Analytic Software
- Features H.264 Hardware Compression
- Intelligent search in 5 ways
- Instant playback control
- Optional POS and I/O device integration
- GUI recording schedule
- Supported by Securview NUUO Central Management Software
- Instant Response alerts you when alarm events occur
- Intelligent Video Analytic Functions: General Motion, Missing Object, Camera Occlusion, Foreign Object, Lose Focus and Signal Loss
- Compatible with a wide range of IP cameras from leading manufacturers, including Securview, Samsung, Arecont Vision and Acti

Securview NUUO IP solutions are more than just surveillance systems. Ask us about how a Securview NUUO system can help make your business more effective by allowing you to monitor things like:

- Customer Counting* - Easily count how many customers you had in one day, and use our POS devices to determine how many of those customers made purchases.
- Stock levels* - Monitor stock levels via your CCTV system to easily document losses, and get evidence of employee thefts.
- Employee Behaviour* - Easily determine if your employees are adhering to OH&S requirements and behaving in a safe manner.
- Safety* - Prevent accidents occurring by easily and quickly identifying workplace hazards which may arise.

NAS NVR Mini

4/8/16 IP Camera Linux-Embedded NVR

NVR Mini 8/16 Channel IP Server with 4 HDD bays

NVR Mini 4 Channel IP Server with 2 HDD bays

What Are They?

The Securview NUUO NVR mini is the world's pioneer Linux embedded IP-only standalone NVR. It is a 'plug and play' solution, developed for those who want to enjoy the benefits of using an IP-Based NVR Surveillance System. It is extremely simple to install because no specific software or hardware is needed. Simply plug it in and it is ready to use.

The NVR Mini is available in a 4, 8 and 16 channel model. All models are compatible with the extensive NUUO CMS software, include POS support, video enhancement, intelligent searching and other advanced video analytic functions.

How Do They Work?

The NVR Minis operate in the same manner as other Network Video Recorders; simply connect the device to your IP cameras and begin recording.

Users can access the live view and playback functions of the Mini through an Internet Explorer browser from anywhere in the world. This specialty live view sets the Minis apart from more advanced NVRs, which can only access playback and live view through the use of client software.

The NVR minis make use of RAID technology, which allows for an increase in the data transfer rate and the assurance of continuous system operation in the event of a disk drive failure.

Due to their unique development and specialised applications, the NVR minis are designed to be simpler to use than regular NVR standalones, and their smaller size helps make them a highly cost-effective solution.

High Performance 16 Bay Storage Server

RhinoCo Technology proudly presents this Securview 16 Bay storage/server. This model is built to handle high volume data response in an ultra cool thermal environment that maximizes storage server possibilities, making it ideal for security applications as an operating server or networked attached storage. This range supports redundant power supplies, up to 50 bays of hot-swap hard drives, hot-swap fans and Dual/Quad Intel® Xeon™ and AMD® Opteron™ server board. Featuring all server-grade dedicated hardware such as Intel Xeon CPU, Intel main board, and solid-state OS hard drives, SAS or SATA storage options, RAID (0,1,5,6,10) configurations support, this system is flexible enough to meet all your storage requirements from 10 - 100TB per server. Designed and built by RhinoCo Technology in Australia, it is also backed up by comprehensive local hardware and technical support.

Drive Bays	16 x 3.5" Hot Swap, 2 x 2.5" internal, 1 x Slim CD, 1 x Slim FDD
Ventilation	3 x 9cm Fans, 2 x 6cm Fans
Backplane	SAS, SATA or SATA 3.0Bb/s interface
RAID	LSI 16 Port RAID Config 0, 1, 5, 6, 10
CPU	Intel Xeon(R) Quad Core X3430 or above
RAM	4GB DDR3 or above
Server Board	Intel(R) Server Board S3000 series
NIC	Dual GbE
OS	Ubuntu
Hard Drive	64GB Kingston SSD
USB	10 x USB 2.0
Power	600W Fixed or Redundant PSU with warning indicator
Dimensions	480 (W) x 130.5 (H) x 710 (D)mm

Part No.

Samsung 17"/19" LCD Monitors with Composite Video Input

- 3 Year Warranty
- Screen Size: 17 inch (43 cm) / 19 inch (48cm)
- Video Input: Composite
- Display Area: 337.920 mm x 270.336 mm (17") / 376.32mm x 301.056mm (19")
- Aspect Ratio: 4:3 (Suitable CCTV Industry - Not Wide Screen)
- Resolution: 1280 x 1024
- Response Time: 5ms
- Adjustable Stand: Height Adjustable, Pivot, Swivel 360 Deg., Tilt
- Wall-Mount: VESA 75mm
- Product Dimension:
 - 17": 368.0 x 367.2 x 190.0mm (With stand, WxHxD)
 - 19": 405.6 x 380.2 x 190.0mm (With stand, WxHxD)

Modified Samsung 17" & 19" Monitor

BNC & DVI inputs only, VGA function removed. 1280 x 1024 @60Hz
Warranty by Cornick Pty. Ltd.

Part No.

TFT17V-S
TFT19V-S

**With both
BNC & VGA Inputs**

17" / 19" LCD Security Monitor w/ Glass Front

These attractive 17" / 19" LCD monitors have been designed specifically for use in the CCTV industry. They feature a protective glass front, providing more protection than a standard LCD monitor. They also utilise a 4:3 aspect ratio, ensuring that video camera images are displayed correctly and not distorted, unlike using a widescreen monitor which incorrectly stretches CCTV images. The monitors have both VGA and BNC inputs, making them ideal for use with a wide range of CCTV equipment.

The monitor has a contrast ratio of 600:1 / 8ms (17") & 1000:1 / 5ms (19"), an 8ms response time and a native resolution of 1280 x 1024 pixels.

IT & NETWORK COMMUNICATION

NEW!

802.11a/b/g/n 300Mbps Wireless Router

With three fixed omni-directional antennas and a wireless transmission rate of 300Mbps, the VSWROUTER3A is a high-quality, high performance wireless connection solution. The router has a single WAN port, 4 LAN ports, with front-panel LED status indicators.

- 802.11 a/b/g/n
- Supports PPPoE, Dynamic IP, and static IP broadband functions
- Supports UPnP, DDNS, static routing, VPN Pass-through
- Supports SSID broadcast control and MAC access control list
- Built-in firewall features IP, MAC and URL filtering
- Built-in DHCP server with automatic dynamic IP address distribution

Part No.
VSWROUTER3A

NEW!

5 Port 10/100/1000 Gigabit Ethernet Switch

5 Port 10/100 Ethernet and Ethernet Gigabit switch, suitable for home or business applications.

- Protocol type: CSMA / CD
- Support MAC address self-learning
- Dynamic LED indicators provide simple status information
- Backplane bandwidth: 16Gbps
- Forwarding Rate: 10Mbps: 14880pps; 100Mbps: 148800pps; 1000Mbps: 1488000pp

Part No.
VS5PORTGSWITCH

NEW!

8 Port 10/100 Ethernet Switch

Ideal for usage in the home or small office, this 8-port Ethernet switch features plug & play installation and easy operation. The unit supports full-duplex switching bandwidth modes, which allows data rates of 10, 20 and 100Mbps.

- 10/100Mbps fast Ethernet switching hub
- Store-and-forward switching improves overall network performance
- Auto-partitioning and data collision control
- Low power consumption
- Diagnostic LEDs for power, link/activity, collision and full-duplex
- Easy to expand and upgrade

Part No.
VS8PORTESWITCH

NEW!

12 Port 10/100/1000 Gigabit Switch with Power over Ethernet (PoE)

The VS12PORTGSWITCHPOE supports 12 10/100/1000Mbps auto-negotiation ethernet ports and Power over Ethernet to IEEE 802.3af compliant devices. The unit is fully compliant with the standards of IEEE 802.3u/x/z/ab/af. The switch supports additional features such as Mac filtering policy, port mirroring, VLAN and full L2 protocol.

- 12 Gigabit Ethernet ports with non-blocking wise speed performance
- Supports Power over Ethernet (PoE) on each gigabit UTP port
- Auto detect powered device and consumption levels
- Supports per port PoE State setting
- Supports per port power priority setting
- LED indicators for PoE ready and PoE activity
- Supports Port Trunk for Bandwidth Aggregation

Part No.
VS12PORTGSWITCHPOE

NEW!

24 Port Ethernet + 2 Port Gigabit Switch

This 24+2 Ethernet/Gigabit Switch provides 24 x 10/100M Ethernet ports and 2 x 10/100/1000M Gigabit ports. The unit provides superior overall performance and is simple to install.

- Protocol type: CSMA / CD
- Power input: 160-240VAC, 50/60Hz
- Forwarding Rate: 10Mbps: 14880pps; 100Mbps: 148800pps; 1000Mbps: 1488000pp
- Backplane bandwidth: 8.8Gbps
- Power input: 160-240VAC, 50/60Hz
- Maximum Power: 12W
- UTP port supports auto-negotiation function, automatically adjusts the transmission and transfer rate
- Supports MAC address self-learning
- Built-in universal power supply

Part No.

VS24+2PORTSWITCH

NEW!

24 Port 10/100/1000M Gigabit Ethernet Switch

The VS24PORTSWITCH is a non-blocking, low-power 24 Port 10/100/1000M Gigabit switch. The unit supports a wide range of functions such as configuration management, VLAN, port aggregation and port mirroring.

- Protocol type: CSMA / CD
- Supports Port Mirroring
- Supports Port Aggregation function
- Built-in universal power supply
- Backplane bandwidth: 48Gbps
- Forwarding Rate: 10Mbps: 14880pps; 100Mbps: 148800pps; 1000Mbps: 1488000pp
- 1 Console port
- Support broadcast filtering

Part No.

VS24PORTGSWITCH

Wireless Mobile 3G Modem Router

Just insert a SIM card for wireless video

3G HSPA Wireless Modem

The VSWAN3G facilitates the remote installation of IP based equipment. It is suitable for IP cameras and network servers. It transmits over any 3G mobile network. This allows you to remotely access your equipment from virtually anywhere, making it ideal for remote location, rapid deployment applications and event security.

- Connect any type of IP device such as camera or network server
- Analogue video signal cameras can also be connected utilising an optional web server

- Advanced persistent link technology to monitor link integrity & maximise uptime across unpredictable networks
- Easily accessible SIM module with dual SIM support for redundant network failover
- Informative status LEDs for power, signal strength and cellular link activity.

Ethernet Connection	RJ45, 10/100 Base T
Serial Connection	RS-232/422/485
Supported Modes: 850/2100MHz WCDMA	Downlink up to 7.2Mbps / Uplink up to 2.0Mbps **
Supported Modes: 850/ 900/ 1800/ 1900MHz GSM/GPRS/EDGE	Downlink up to 236Kbps / Uplink up to 236kbps **
IPSEC encryption	DES, 3DES and up to 256-bit AES encryption
Power Input	9-30VDC
Power Draw	1.2W / Max: 3.4W

Part No.

VSWAN3G

Use and Integration of the VSWAN3G

Wireless CCTV

Wireless transmission networks for CCTV security applications are becoming increasingly popular due to the flexibility of wireless communication and, low cost and low-disruption deployment compared to installing cabled systems.

At RhinoCo Technology we can customise your wireless solution utilising our range of analogue and digital transmission devices.

If you have a specific inquiry please visit us at www.rhino.com.au for further information or call our sales team.

Below are some examples of typical installations using our wireless transmission products.

Definitions:

IEEE 802.11

A set of standards for wireless local area network (WLAN) computer communication in the 5 GHz and 2.4 GHz public spectrum bands.

Access Point (AP)

Wireless base station which coordinates communication for wireless clients between each other and with the wired network.

Wireless LAN (WLAN)

One or more access points and their associated clients which communicate by radio to form a data network.

Wireless Distribution System (WDS)

Method for linking many wireless access points to form a mesh-like network.

Wireless Bridge

A pair of access points configured in bridge mode allowing two wired networks to be transparently connected through wireless link.

Line of Sight (LoS)

A clear, straight line path between wireless devices which is in no way obstructed by buildings or trees.

WIRELESS TRANSMISSION 2.4GHZ

Analogue Super Mini 2.4GHz 4-Channel Wireless AV Kit

- 2.4GHz transmitter & receiver
- Option to select up to 3 channels
- Super mini size
- Auto switch channel
- Transmits and receives video & audio (Stereo)
- Channel indicator LED
- Potential range up to 100 metres
- Easy installation
- Includes 2 power supplies
- Weatherproof housing unit option available

Part No.
VS15-2400AK2

2.4GHz Directional Antenna 18dbi

N type female connector
For external use
For 15-2400 cameras and receivers
Size: 360 x 220 x 40mm
Weight: 1500g
UVB resistant

Part No.
VS15-2400AP18

Dual Band Outdoor Multimode Base Station IP67

This Dual Band Multimode Wireless Base Station product is designed for outdoor long-range wireless communication up to 50km. Based on the IEEE 802.11 a/b/g standards operating on 2.4GHz and 5GHz frequencies, the WTDB-MBS is an ideal cost effective solution for building-to-building wireless communications, parking lot security, and last-mile internet subscriber applications. The product is capable of operating at one of the four modes: Access Point, Wireless Bridge, Repeater or Client Bridge. The ruggedness of the IP67 rated enclosure and extreme temperature ratings along with a host of product features make the WTDB-MBS the product of choice for long range wireless networking and IP video security applications. The product is designed with the Power-Over-Ethernet (PoE) feature, which allows power and data to be transmitted over a single network cable, providing a simpler, more convenient installation.

Part No.
WTDB-MBS

2.4GHz Grid Antenna 24dbi

- Simple to install and aim
- Low mast and wind loading
- Surface-treated, corrosion resistant aluminium alloy grid reflector
- Vented, weatherproof feed housing
- Durable solid brass feed (not PCB)
- Good multi-path interference rejection
- Excellent front to back ratio
- Supplied with mounting hardware for attaching to mast or tower member
- Designed & manufactured in Australia
- 24-month warranty

Part No.
WT2-GA24

2.4GHz Directional RF Yagi Antenna 15dbi

- 2.4GHz Directional RF Yagi Antenna
- Antenna Gain: 15dB
- Dimensions: 475(L) x 425(W)

Part No.
MWYAGIR8215

2.4GHz Panel Antenna 21dbi

21dbi panel directional antenna deliver extended wireless access point range in a single floor environment with the antenna, ideally, secured at a corner of the building floor. These antennas can also be used for a point-to-point network so that wireless connections can be achieved with LANs between buildings in a campus-type environment or between two remote areas. Finally, they provide multi-floor transmission when placed on a ceiling, as the higher power output extends the range through typical flooring materials. Our antenna package includes several mounting options, such as fixed, wall-adjustable, and pole.

Part No.
WT2-PA21

2.4GHz Sector Antenna 21dbi

21dbi Sector Directional Antenna comprised of a professional quality "cell site" base station antenna and are designed primarily for carrier-class applications and service providers using the 2.4 GHz ISM band. The antennas are packaged with a directional orientation bracket that makes the main beam width and angle adjustable when an antenna is installed on the top of a mountain, radio tower or high-rise building. This feature offers maximum signal strength for both reception and transmission in the desired area. In addition, the directional characteristic allows the user to adjust the transmitting and receiving angle of their antenna and is designed specifically for outdoor building-to-building application with buildings of various height.

Part No.
WT2-SA21

2.4GHz Omni Directional Antenna 15dbi

15dbi omni-directional 2.4GHz antenna designed to radiate radio-frequency energy equally in all directions for widespread and all-point wireless deployment. This antenna is especially useful for optimizing coverage when you want to place your wireless access point or router out of plain view in a wiring closet or above a ceiling pad.

- Radiates radio-frequency energy equally in all directions for widespread and all-points wireless communications
- SWR 1.3:1 max, high performance antenna design
- Made with weatherproof and corrosion-resistant material
- Each package comes with a pole mounting kit for immediate outdoor installation
- Available in 9, 12, and 15 dBi gain

Part No.
WT2-ODA15

NEW!

2.4GHz Digital Wireless Transmitter and Receiver Set

This system is the ideal product for use when multiple wireless video/audio links are required for any commercial, industrial or consumer application. An example application would be to create a wireless network over which you wanted to transmit video footage from your camera to your DVR or Monitor. Simply connect the camera to the Transmitter box and your DVR or Monitor to the Receiver box.

- MPEG4 video compression
- 2.4GHz wireless mode (up to 5Mbps)
- High quality real time transmission
- 13 Channel adjustable
- Outstanding security
- Audio compression G.721

Part No.
AVTXRX2.4

WIRELESS TRANSMISSION 5.8GHZ (DIGITAL)

5.8GHz Grid Antenna 24dbi

- Compact 5.8GHz grid antenna suitable for point-to-point operation
- Simple to install and aim
- Low mast and wind loading
- Single piece, surface-treated, corrosion resistant aluminium alloy grid reflector
- Stainless steel/aluminium mounting hardware
- Vented weatherproof feed housing with microporous membrane
- Durable solid brass feed
- Good multi-path interference rejection
- Designed and manufactured in Australia

Part No.
WT5-GA24

5.8GHz Panel Antenna 21dbi

21dbi 5.8GHz panel directional antennas can be used ideally for a point-to-point network so that wireless connections can be achieved with LANs between buildings in a campus-type environment or between two remote areas.

Part No.
WT5-PA21

5.8GHz Omni Directional Antenna 12dbi

5.8Ghz omni-directional antenna is designed to radiate radio-frequency energy equally in all directions for widespread and all-point wireless deployment. This antenna is especially useful for optimizing coverage when you want to place your wireless access point or router out of plain view- in a wiring closet or above a ceiling pad.

Part No.
WT5-ODA12

5.8GHz Wireless Transmission Multi Access Point With N-Type Female Antenna Connector

This Wireless Transmission Multi Access Point is used with a compatible Wireless Antenna to create a wireless network. Common network configurations are point to point (2 Access Points and Antennae) and Point to Multi-Point (Multiple Access Points and Antennae). By connecting devices such as IP Cameras and NT Servers, IP video feeds can be transmitted across the wireless network.

The WT5-MAPNFC uses the 5.8GHz frequency. It

is protected by an IP68 certified die-cast all weather housing and lightning protector. It is designed for a wide variety of outdoor applications and can be deployed as point-to-point and point-to-multipoint solutions. The WT5-MAPNFC is an ideal access point solution due to its low cost, superior performance, range, ease of installation and management.

It offers two data rates, based on the IEEE 802.11a mode and the IEEE802.11a turbo mode. When the bridge operates under the IEEE 802.11a mode, it supports data rates from 6 Mbps to 54 Mbps. Under the IEEE802.11a turbo mode, it supports data rates from 12 Mbps to 108 Mbps. The frequency channel for the IEEE802.11a and the IEEE802.11a turbo are across from 5.15 to 5.85 GHz

Part No.
WT5-MAPNFC

Dual Band Wireless Transmission Multi-Access Point with N-Type Female Antenna Connector

This Wireless Transmission Multi Access Point is used with a compatible Wireless Antenna to create a wireless network. Common network configurations are point to point (2 Access Points and Antennae) and Point to Multi-Point (Multiple Access Points and Antennae). By connecting devices such as IP Cameras and NT Servers, IP video feeds can be transmitted across the wireless network. The WTDB-MAPNFC can utilise both 2.4Ghz and 5.8GHz frequency ranges. It is protected by an IP68 certified die-cast all weather housing and lightning protector, making it designed for a wide variety of outdoor applications. The WTDB-

MAPNFC is an ideal access point solution due to its low cost, superior performance, range, ease of installation and management.

It offers two data rates, based on the IEEE 802.11a mode and the IEEE802.11a turbo mode. When the bridge operates under the IEEE 802.11a mode, it supports data rates from 6 Mbps to 54 Mbps. Under the IEEE802.11a turbo mode, it supports data rates from 12 Mbps to 108 Mbps.

WTDB-MAPNFC

5.8GHz 29dBi Grid Antenna with N-Type Female Connector

This is a 5.8GHz 29dBi high gain Grid Antenna. These high performance and low loss grid antennas are built from the ground up with a focus on reliability, durability, and performance. Compact and durable in their design, these antennas are produced from high quality corrosion resistant coated galvanized steel, offering precise rugged mechanical aspects and maintenance free operation.

The antennas have a High Performance Radiation Pattern, with superior RF and Ground Plane Design to ensure maximum directivity and to minimise leakages. The low loss high efficiency radiation system provides exceptional VSWR ranging from 1.3 to 1.5 to maximize electrical to wireless power transfer. Designed to work well in highly congested areas, the antenna directivity optimises license free radio spectrum to provide more aggregated bandwidth per deployment area.

Frequency Range	5100 ~ 5900 MHz
Gain (dBi)	29dBi
Front-to-Back Ratio	35dB
Dimensions	900 (Dia) x 250 mm
Weight	4.86kg

Part No.
WT5-GA29

5.8GHz Sector Antenna 21dbi

21dbi 5.8GHz Sector Directional Antenna comprised of a professional quality "cell site" base station antenna and are designed primarily for carrier-class applications and service providers using the 5.1 to 5.9 GHz ISM band. The antennas are packaged with a directional orientation bracket that makes the main beam width and angle adjustable when an antenna is installed on the top of a mountain, radio tower or high-rise building. This feature offers maximum signal strength for both reception and transmission in the desired area. In addition, the directional characteristic allows the user to adjust the transmitting and receiving angle of their antenna and is designed specifically for outdoor building-to-building application with buildings of various height.

Part No.
WT5-SA21

0~6 GHz High Performance RF Lightning Arrestor

This product is used in-line between radio and external antenna to minimize transient voltage damage to sensitive RF equipment.

Part No.
WT-LA

NEW!

Single Port Power Over Ethernet (PoE) Injector

This Ethernet line in Power Over Ethernet Injector provides 48VDC power and up to 100mbps data transfer rate through a standard CAT5 cable.

Part No.
WT-CAT5POE1

WIRELESS TRANSMISSION ACCESSORIES

Outdoor Shielded CAT5 Antenna Cable 25m

- Low loss antenna cable
- Outdoor shielded CAT5
- 25m length

Part No.

Single Port Power Over Ethernet (PoE) Injector and Power Adapter

This product is used as a PoE Injector and Power Adapter for the WT5-MAPNFC.

The injector provides power to the main unit at 48VDC and allows data transfer, over a standard CAT5 cable.

Part No.
WT5-MAPNFCPS

LMR400 N-Male to N-Male cable

Type N connector (male) to Type N connector (male).
1.0m in length.

Part No.
CABLENM2NM

Dual Port Power Over Ethernet (PoE) Injector with Surge Suppressor

This 2 port, Power Over Ethernet Injector provides 48VDC power and up to 100mbps data transfer rate through a standard CAT5 cable.

This model also features surge suppression for protection from lightning and harmful transient voltage.

Part No.
WT-CAT5SP2

Five Port Adjustable Voltage Power Over Ethernet (PoE) Switch

The WT-POESWITCH is a unique and powerful outdoor five-port Ethernet Switch with an adjustable voltage feature.

The WT-POESWITCH Adjustable Voltage PoE Switch offers four voltage levels, enabling a wide range of outdoor network and security applications, whilst significantly reducing the complexity of outdoor network installation, integration and ongoing network maintenance. It also offers local power level configurations. Locally, each WT-POESWITCH port is designed with a simple, easy-to-use push button for power level configuration. Remote monitoring over the internet can be achieved using a common internet web browser. This PoE switch includes other dynamic features such as remote web browser, PoE device power cycle and individual port troubleshooting capabilities.

Part No.
WT-POESWITCH

Single Port Ethernet Surge Suppressor

This single port Ethernet Surge Suppressor provides surge protection from lightning and harmful transient voltage through a standard CAT5 cable.

Used for WTDB-MBS model and IP Cameras.

SOLAR POWERED WIRELESS TRANSMISSION

Totally Wireless Long Range Surveillance Cameras

This range of solar powered surveillance solutions has been developed due to the increasing demand for remote surveillance where cabling for both video and power is impossible or cost prohibitive. These systems provide a fully self-sufficient wireless surveillance solution, which can be customised to your individual requirements.

There are 4 versions available depending on your individual needs:

5.8m Galvanised Steel Pole With 120W Solar Panel, Battery & Compact Fluorescent Light.

Includes:

1 x 5.8m galvanised steel pole with in-built 120 watt solar panel, 150Ah deep cycle lead acid battery (charged by solar panel) & dual 15 watt compact fluorescent light.

Part No.

VSSOLARPOLE5.8M

Solar Pole with Wireless Access Point (802.11G)

Designed to integrate with an existing WLAN. Sends high quality real-time encrypted digitised video and audio using an outdoor WAP.

- Connect any type of IP device such as camera or network server
- Analogue video signal cameras can also be connected utilising a optional web server.

Includes:

1 x 2.4GHz outdoor weatherproof wireless access point (802.11G)
1 x Solar Pole (as above model - VSSOLARPOLE5.8M)

Part No.

VSSOLARPOLE5.8MW

Solar Pole with Wireless Next G Modem

Facilitates remote installation of IP based equipment. Suitable for IP cameras & network servers. Transmits over the Telstra Next G mobile network. Allows you to remotely access your equipment from virtually anywhere. Ideal for remote location, rapid deployment applications and event security.

- Connect any type of IP device such as camera or network server
- Analogue video signal cameras can also be connected utilising a optional web server.

Includes:

1 x Wireless Next G modem / router
1 x Solar Pole (as above model - VSSOLARPOLE5.8M)

-- Telstra Next G access plans available separately

Part No.

VSSOLARPOLE5.8MNG

Solar Pole For Point to Point Digital CCTV Transmission with Pan/Tilt/Zoom Control

Designed to send high quality real-time encrypted digitised video and audio up to 5km (LOS). Connect to composite video input on any DVR , supports RS485 & RS232 transmission (including PTZ) as well as alarm inputs & outputs

- Connect any analogue CCTV camera
- Can be used for bi-directional audio interface enabling support of gate access phones, public address systems etc.

Includes:

2 x 2.4GHz digitally encrypted wireless video transceivers with PTZ control,
1 x Solar Pole (as above model - VSSOLARPOLE5.8M)

Part No.

VSSOLARPOLE5.8MA

NEW!

Complete 4 Channel Watchguard H.264 DVR and Camera Kit with 500GB HDD

This high resolution surveillance package is ideal for a home or small business wanting to set up a digital surveillance system with network and remote access. The kit features H.264 Video Compression Technology, real time live display, recording rates of 704x576 (25fps), 704x288 (50fps), 352x288 (100fps), USB, DVD and Network backup functions as well as 4 x 20M IR Cameras with a resolution of 480TVL. The system includes a 500GB HDD and supports USB mouse control.

WATCH ON YOUR MOBILE!

The DVR is capable of offering mobile surveillance via many popular mobile platforms, supporting popular models such as iPhone, BlackBerry, WinCE, J2ME & Android.

Network surveillance

Network surveillance can be accessed via the licensed software "Video Viewer" or through a web browser. The DVRs support Internet Explorer, Mozilla Firefox and Google Chrome web browsers.

Amazing Features!!

Package Includes

1 x 4 Channel H.264 Digital Video Recorder

- Advanced H.264 video compression
- Recording rates: 704 x 576 (25fps), 704 x 288 (50fps), 352 x 288(100fps)
- 500GB hard drive
- Plug and Play installation
- Easy to operate frontpanel - just like a VCR
- IR remote
- Can be connected to a PC for remote viewing
- Real time live display
- USB/DVD/Network backup
- Multiple Mobile Platform Support - iPhone OS, Blackberry, WinCE and Android

Video Compression Format	H.264
Recording Resolutions	704 x 576, 704x288, 352x288
Max. Recording Frame Rate	100FPS Global
Max. Display Frame Rate	100FPS 'Real - Time Display'
Backup Methods	Network Remote & USB Backup.
Hard Drive Bays	1 x SATA HDD (1TB Capacity)
Network Functionality	Live Monitoring, Remote Playback, File Backup, Remote Configuration

4 x Day/Night 20M IR Weatherproof Colour Cameras

This is an outdoor camera with 20M IR range. It has 24 in-built IR LEDs, giving the camera high visibility and clarity in both day and night applications. The weatherproof outdoor housing is Standards Approved, rated IP66, and is very easy to install.

Image Sensor	1/4" Pixel CCD
Horizontal Resolution	480 TVL
Lens	f3.6mm@F2.0
Minimum Illumination	0 Lux (IR on)
Power	12VDC
Dimensions	56(L) x 76(W) x 65(H)mm

1 x Power Split Cable

Allows you to connect all 4 cameras to 1 power supply

1 x Network Cable (Optional Use)

Allows you to connect the LAN port on the DVR to your PC or network to facilitate remote viewing or backup functions

1 x Monitor Connection Cable

- Allows you to connect the BNC monitor output from the DVR to the RCA video input on your TV / VCR

4 x Camera Connection Cables

- Pre-terminated combined DC power & video (2 x10m, 1x 20m, 1x 30m)

2 x Switch Mode Low Voltage Power Supplies

- 1 x 3Amp 12VDC supply for use with the power split cable to power all cameras
- 1 x 2Amp 19VDC power supply for use with the DVR
- Advanced switch mode technology

Brightest Ever!

SOLAR POWERED FLOODLIGHT with MOTION SENSING ACTIVATION

The Watchguard™ Solar Powered Mini Floodlight uses 36 super bright LEDs to provide clear light sufficient to illuminate pathways, driveways, entranceways and general areas. Powered by a rechargeable battery in a weatherproof housing, the fitting can be easily installed in any location without the need for mains power to be present. The battery is charged by the solar panel supplied with the unit. The solar panel comes with 4 metre of cable allowing it to be remotely mounted and angled to catch the best sun. The Solar Floodlight has a built in motion detector which senses movement within a 5 metre range and turns the light on. This turns the light into an effective security or safety light around buildings, yards, gates or sheds without the need or waste of lights running all night unnecessarily.

PACKAGE INCLUDES:

1 x Crystalline Silicon Solar Panel

- Photo-voltaic technology
- With 4m power connection cable to the floodlight
- Separate from floodlight for fixable mounting position
- Tilt angle adjustment to catch the best sunlight

1 x Super Bright LED Floodlight

- Super bright with 36 LEDs
- Passive Infrared motion detector (5m detection range)
- Light ON when motion detected & automatically OFF after 30 sec
- Weatherproof housing IP44 rated

5 x Screws and Anchors

- 2 x screws & anchors for floodlight
- 3 x screws & anchors for solar panel

Ideal For : Patios • Yards • Drives • Barns • Sheds • Gardens

REPLICA (DUMMY) SECURITY PRODUCTS

Professional Outdoor Replica CCTV Camera With Weatherproof Housing

This realistic looking replica CCTV camera acts as a deterrent to would be criminals. It has a weatherproof outdoor housing and the dummy camera has a red flashing LED. The kit comes with two high-visibility warning stickers, and includes all necessary hardware. No cables are required for operation, making installation very easy.

Part No.
VSCD420F

Professional Indoor Replica CCTV Camera

- True professional appearance
- Stylish design
- Dummy camera with replica auto iris lens
- 2 x high visibility warning stickers
- Installation hardware included
- No wiring needed
- Camera includes flashing red LED (optional use. Requires 2 x AAA batteries)
- Wall mounting bracket with tilt / swivel adjustment

Part No.
VSCDFF

Professional Indoor Replica CCTV Dome Camera

- True professional appearance
- Dummy dome camera with lens
- 2 x high visibility warning stickers
- Installation hardware included
- No wiring needed
- Camera includes flashing red LED (optional use. Requires 2 x AA batteries)

Part No.
VSCDDF

Professional Indoor/Outdoor Replica Infrared CCTV Camera

- True professional appearance
- Stylish design
- Modelled on popular day/night weather proof cameras now commonly used in the CCTV industry
- Camera includes flashing red LED - (optional use. Requires 2 x AA batteries)
- 2 x high visibility warning stickers
- Installation hardware included
- No wiring needed
- Wall mounting bracket with tilt / swivel adjustment

Part No.
VSCD50F

Dummy Home Alarm Kit

Imitation home alarm kit
Realistic appearance outdoor siren / strobe
Deters criminals
Simple installation
Supplied with UV-resistant warning labels & mounting hardware

Part No.
DUMMYHA

European Style Dummy Home Alarm Kit

This imitation home alarm makes your home look more secure, reducing the risk of burglary or home invasion. The realistic looking alarm body and warning stickers act as a deterrent to would-be criminals.

- European style
- Imitation home alarm kit
- Realistic appearance outdoor siren / strobe
- Deters criminals
- Simple installation
- Supplied with UV-resistant warning labels & mounting hardware

Part No.

Alarm Warning Stickers (4 pack) A4 Size

Pack contains 4 A4 sized Alarm Warning Stickers.
2 x Rear Adhesive Stickers for use on flat surfaces
2 x Front Adhesive Stickers for use on interior windows

Part No.
VSCDSA

PROFESSIONAL BACK TO BASE MONITORED WIRELESS ALARM SYSTEMS FOR HOME OR OFFICE

The Watchguard™ Digital Series is a true revolution in monitored back to base alarm systems. Utilising a compact main control unit with inbuilt communication dialer and advanced wireless component technology means installation is very simple. The wireless design allows you to expand or relocate any of the systems at anytime. They are truly "plug & secure" systems, without any complicated programming or cabling. See below and over page for full system features, operation and expansion details. Remote programming software download available.

MAIN FEATURES:

- Expandable up to 8 individual zones
- Easy to install & operate
- Around the clock 24hr protection
- Connects to existing phone line
- Automatically communicates with back to base monitoring centres
- Contact ID Protocol

HOW THIS SYSTEM WORKS:

When smoke, intruder or help signal is detected, an alarm signal will send to the communication dialer

This is the "brain" of the system, when an alarm code is received from the Movement Sensor, Smoke Sensor or Panic Button, the communication dialer automatically connects to your monitoring centre via your phone line & transmits the detailed alarm activation data in (Contact ID Format). The in-built alarm siren will also sound, but can be disabled if used as a "Hold-up Button".

Alarm Monitoring Centre

The communication dialer connects to your monitoring centre and they will notify security, police, fire or medical services when an emergency arises. Please contact your preferred monitoring service provider to discuss their individual monitoring service plans, notification method and charges.

You will also receive notification of the alarm event: "Hello John. This is Sally from the monitoring centre. Your alarm system at 3 Main Street Springville has been activated at 11:14am by the smoke sensor in your master bedroom."

Professional Grade Back To Base Monitored Wireless Alarm System for Home or Office

The WGDIGITAL is a high-quality, anti-intruder professional grade monitored security system. Once installed, simply use the remote control button to arm the system before you leave your premises. If movement is detected after the system has been armed, the communication dialer will transmit the detailed alarm activation data (Contact ID Format) via phone line to your monitoring centre for appropriate response action to be taken.

System Includes:

- 1 x Main Control Unit - Communication Dialer
- 2 x Wireless Movement Sensors - Designed to detect the body movement of an intruder inside your premises.
- 2 x Code Hopping Remote Controls - Allows you to easily arm and disarm the system or activate the panic facility from virtually anywhere around your premises.
- 1 x Power Supply & 1 x Phone Connection Lead - Contact ID Protocol

Part No.

WGDIGITAL

Professional Grade Back To Base Monitored Wireless Fire Detection System for Home or Office

The WGSMOKE is a high-quality, monitored wireless fire detection system which is quick and easy to install and operate. When smoke is detected not only will the smoke sensor's in-built siren sound, but the alarm siren built into the main control unit will also sound in unison. The communication dialer will transmit the detailed alarm activation data (Contact ID Format) via phone line to your monitoring centre for appropriate response action to be taken.

System Includes:

- 1 x Main Control Unit - Communication Dialer
- 2 x Wireless Smoke Sensors - AS/NZS 3786:1993. Designed to detect the presence of smoke inside your premises using gas ionisation technology. In-built siren & low battery warning.
- 1 x Power Supply & 1 x Phone Connection Lead - Contact ID Protocol

Part No.

WGSMOKE

Professional Grade Back To Base Monitored Wireless Emergency Duress System

The WGEDS is a system which in the case of emergency or duress is manually activated by pressing the wireless panic button to alert your monitoring centre. Once a button is pressed detailed alarm activation data in (Contact ID Format) is immediately sent via your phone line to your monitoring centre for appropriate response action to be taken. Up to 8 individual emergency buttons can be used with your Watchguard Emergency Duress System and each button can be individually identified by the monitoring centre (i.e. Grandma's button, Grandpa's button...etc).

Includes:

- 1 x Main Control Unit - Communication Dialer
- 2 x Wireless Emergency Panic Buttons - Designed with the elderly or invalid person in mind. Large rubber button. Nylon lanyard included. Splashproof. Dipswitch coding. Operating range up to 100m (line of sight)
- 1 x Power Supply & 1 x Phone Connection Lead - Contact ID Protocol

Part No.

WGEDS

WIRELESS ALARM SYSTEMS WITH 2-WAY COMMUNICATION VIA SMS MESSAGING

**Ideal for Home, Business,
Marine or Caravan!**

Watchguard SMS 2010 Alarm System

The Watchguard SMS 2010 is a true revolution in monitored home & mobile security systems. It has been designed specifically to provide simple installation and maximum protection at an affordable price. It can be used across a range of applications, including caravans, boats, building sites etc. or anywhere where a portable, self-monitored alarm is required. It is a sophisticated system, utilising the latest in GSM communication and wireless alarm technology. The Watchguard SMS 2010 communicates to your mobile via a GSM mobile phone network. A suitable SIM Card is required (not included). The SIM Card enables 2-way communication via SMS text messaging between you and your alarm.

How The System Works:

Plug & Play Setup: Security has never been so easy to install. After mounting the movement detectors in the zones to be monitored and mounting the external siren in a prominent position, simply plug the alarm module into the power pack (or connect 12VDC), turn the power key to on and you are ready to go!

Arm The Premises: Use your Remote Control to arm the Watchguard Wireless Alarm System to secure your premises. When body movement is detected in the premises, the sensors will send a message to the alarm module.

8 Zone Alarm Module with Built in GSM Modem: This is the brain of the system. When it receives the message from the Wireless Movement Sensors, it automatically sends your reported alarm to your designated mobile(s) as an SMS. The internal siren will also sound, helping repel the intruder.

Alarm Notification: The Watchguard SMS 2010 alarm module communicates to your mobile phone via GSM. When triggered, the module sends a detailed SMS of the reported alarm to your designated mobile(s). A voice message may also be sent to a landline telephone, where supported. Up to 5 people can be notified.

Package Includes:

- 1 x 8 Zone Alarm Controller Unit with built in quad band GSM modem
- 2 x Wireless PIR movement sensors
- 2 x 2 Button Code Hopping remote controls
- 1 x 12V DC Power Supply for the alarm controller unit
- 1 x Compact External Siren with Strobe

*Receive SMS Alerts
from your alarm!*

Part No.
WGSMS2010

WIRELESS ALARM SYSTEMS

Watchguard Wireless Home or Office Alarm System

The Watchguard alarm is a complete stand-alone security system, which is ideal for the home or business owner wanting an affordable security system without a monitoring service. It is very reliable and extremely easy to install and operate. If the alarm is triggered, both the external and internal sirens will sound to repel intruders.

- Feature packed 8 zone security system (can be expanded using the range of Watchguard wireless accessories incl. reed switches and smoke sensors)
- Easy wireless installation
- 2 x quality wireless passive infrared detectors
- 2 x high security code hopping remote controls with lithium batteries
- Emergency panic function via remote control
- Backup battery & mains power adaptor
- Powerful external siren with flashing blue strobe
- Has the same appearance as security industry standard alarm systems
- High frequency internal siren to repel intruders

Part No.
WGUARD

Watchguard Fire & Theft - Complete Burglary & Fire Detection System for Your Home or Office

The Watchguard Fire & Theft is a complete burglary and fire detection system suitable for your home or office. When the system detects the body movement of an intruder, or senses smoke inside your building, the alarm will activate both the internal siren as well as the external siren with flashing blue strobe. The system is very easy to use and install.

- Latest supervised wireless detector & code hopping remote technology
- Feature packed security system with simple wireless installation
- AS3786 approved wireless gas ionisation smoke sensor
- Can be expanded using the range of Watchguard wireless accessories reed switches & smoke sensors
- High frequency internal siren to repel intruders
- Professional grade, high quality components
- Emergency panic function via remote
- Backup battery & mains power adaptor
- Powerful external siren with flashing blue strobe

Part No.
WGUARDFT

Budget Wireless Home Alarm System

This is an Entry Level Wireless Alarm System designed for use in a residential setting where the owner is wanting a basic security system without external monitoring.

The kit can be installed in three easy steps:

- 1. Mount the siren in a suitable position & plug in power adapter.
- 2. Mount the wireless detector.
- 3. Press the remote control to arm or disarm the system.

The Watchguard Sentinel includes:

- 2 x Remote controls to arm/disarm the alarm and panic function
- 1 x Wireless PIR sensor to detect movement up to 12m.
- 1 x Powerful outdoor siren and strobe to deter intruders

The system can be expanded with the range of Watchguard products, including smoke detectors, reed switches, PIR sensors and additional remotes.

Part No.
WGSENTINEL

WIRELESS ALARM ACCESSORIES

Wireless External Siren

- Wireless external siren with flashing blue strobe and backup battery
- 10m of cabling pre-terminated for 'plug & secure' installation
- Includes low voltage plugpack
- Sends tamper, low battery & supervision signals

Part No.
WSIREN

Wireless Solar Siren

- Wire-free operation
- No cable required
- In-built solar panel to charge internal battery
- 40 days of continuous operation without sunlight once charged
- Incorporates powerful 105dB/M siren & blue strobe light
- High capacity 6V 1.2Ah sealed acid rechargeable battery
- Tough polycarbonate housing
- In-built tamper switch to activate siren in case of unauthorised removal
- Weatherproof for outdoor use

* Also available with interface transmitter for use with other alarm control panels (See WSSOL-WSUTX)

Part No.
WSSOL

Wireless Solar Siren & Interface Transmitter

This system allows the WatchguardTM WSSOL solar siren to be used with most brands of alarm panels. The solar siren simply mounts to any external wall and the interface transmitter is connected to the siren output on your control panel. When the siren output is activated your solar siren will sound in unison and when the panel's siren output stops the cancel signal is sent to the solar siren.

40 Days
continuous operation
without sunlight

- Compatible with most brands of alarm control panels
- 40 day continuous operation without sunlight once charged
- Powerful 105dB/M siren & blue strobe light
- Inbuilt solar panel to charge high capacity 6V 1.2Ah acid battery
- Tough polycarbonate weatherproof housing for outdoor use

Part No.
WSSOL-WSUTX

Wireless Supervised PIR Detector

- Dual EdgeTM PIR Sensor Technology
- 12m detection range
- Compact & elegant design with swivel bracket for easy installation
- Intelligent power saving mode
- Up to 3 years life from 2 x CR2450 lithium batteries
- Selectable pulse count

Part No.
PIRW3

Wireless Supervised Reed Switch/Universal Transmitter

- Used on doors and windows
- Also has inbuilt terminals for use as universal transmitter
- Up to 5 years life from 2 x CR2450 lithium batteries

Part No.
WREEDI

Wireless Supervised Smoke Detector AS/NZS 3786:1993

- Gas Ionisation type
- Inbuilt piezo siren
- 9 volt alkaline battery
- Audible low battery warning

Part No.
SMODETW

Wireless Supervised PIR Detector (Outdoor)

- Fully sealed UV resistant housing for outdoor use
- 4 selectable coverage patterns (wide angle 10m, curtain 10m, long range 20m & vertical curtain 3m)
- 9 volt alkaline battery provides approx. 1 year life
- Communicates alarm, low battery & supervision signals
- Works with all of our Universal Receivers & Alarms
- High quality TAKEX sensor
- Made in Japan

Part No.
PIRWOD

Wireless Mini Numeric Keypad White

- Allows arm / disarm, home mode & panic functions
- Backlit rubber buttons
- Only 45 x 55 mm
- Code Hopping Technology
- Wall mount or portable
- Selectable 4 digit PIN number

Part No.
WKP

Large Wireless Numeric Keypad

- Large conventional size wall mountable keypad with flipdown front cover
- Allows arming & disarming of your system via PIN number
- 9 volt battery powered
- User programmable 4-digit PIN code
- Low battery indicator
- Back lit keys for night time illumination
- Weatherproof for indoor or outdoor use (under cover)
- For use on WGDIGITAL only

Part No.
WKPL

Personal Emergency/Panic Pendant

- Two internal switches meets new standard compliance for hold up buttons
- Designed with the elderly or invalid person in mind
- Large easy push rubber button
- Nylon lanyard included allows it to be worn safely around the neck
- Splashproof design
- Dipswitch coding

Part No.
WPANIC

4 channel version now available!

2 Channel Transmitter / Receiver Set - 433.92 MHz

This product is designed to be simple and easy to use. It has simple wiring connections and can be used in a variety of applications. Primarily, this product can be used to remote control your car, garage door, home alarm system, or your electric gate. The number of items to which you can interface is almost endless. The unit is supplied with 2, dual button remote controls which have an operating range of approximately 100 metres (line of sight subject to environmental conditions). The remote controls for this unit operate using code hopping technology. This is otherwise known as anti code grabbing or anti scanning type. This leading-edge technology prevents unauthorised copying of your remote control. This technology sends a unique and different code each time any of the remote control buttons are pressed.

- 1 second (momentary) negative outputs for each channel
- Separate latched negative output for channel 1
- Flashing 12V LED output for channel 1, i.e.- flashes when the button is pressed, stops when it is pressed again
- Can store up to 15 remote controls in total
- Up to 100m radio frequency range (line of sight)

Suitable for use with:

Electric garages / gates	Vehicle central locking
Home security systems	To replace your old, large & low security remotes

Part No.
RCX
RCX4

UNIVERSAL TRANSMITTERS & RECEIVERS

Universal Transmitter / Receiver Set for Alarm Control Panels - 433.92 MHz

This 8 Channel wireless narrow-band UHF 433.92MHz receiver / transmitter set will allow you to add remote on/off & panic functions to your alarm panel. It will also allow you to add up to 4 wireless sensors to your existing hardwired alarm panel. The unit is supplied with 2 x remote controls which have an operating range of approximately 100 metres (line of sight - subject to environmental conditions).

- Code hopping remote control technology
- Remote functions include arm / disarm & panic
- Ability to quickly add or erase detectors from your system
- 4 wireless DETECTOR zones available
- Wireless detector supervision output
- Low battery warning output
- Detector tamper warning output
- Intelligent detector learning program to prevent accidental code duplication
- Memory recall function to identify individual detectors ending low battery or tamper codes
- Wireless detectors available include PIR's, reed switches, smoke sensors & panic buttons

Suitable for use with WIRELESS:

PIR Movement Detectors	Magnetic reed switches
Panic / duress buttons	Smoke sensors

Part No.
KISSRX

4 Channel Multi-Function Receiver / Transmitter Set - 433.92 MHz

The RXPROR4 is an advanced multi-purpose 4-channel narrow-band UHF receiver / transmitter set with fully programmable relay outputs (1 amp rating). It is supplied as standard with 2 x code hopping, 4 button remote controls with long life lithium batteries. It can be used to add Watchguard wireless alarm accessories to virtually any alarm panel or device.

- Up to 200m radio frequency range (line of sight)
- All outputs are individually programmable to suit almost any application (momentary, latched, timed or pulsed)
- Up to 5 high security code hopping remotes (anti-scan, anti-code grabbing) can be used
- Power supply requirement: 12VDC @ 500mA
- Compatible with Watchguard wireless alarm detectors
- Up to 4 wireless detectors can be used
- Supports detector low battery, supervision & tamper signal outputs
- Step by step programming via remote control & indication via feature and channel LEDs

Suitable for use with:

To replace your old, large & low security remotes	Add wireless alarm sensors to any device	Most devices that allow remote on / off operation
	Electric garages / gates	Home security systems

Part No.
RXPROR4

4 Channel RF Receiver - 433.92MHz

The RXENF4 is a 4 Channel RF Receiver with 4 independently programmable output modes. When used with the TXENF4 4-Button Wireless Transmitter, this receiver can be used to control a variety of home automation devices, such as garage door openers, lights, motorised gates, lifts, or other devices, by remote control. The in-built 'Mode Switch' buttons allows for easy programming/re-programming of the channels. The receiver has 4 LEDs, one per channel, which indicate RF reception, learn mode, transmitter cleared and output type.

Features:

- Antenna transmission range of 150m (Can be extended to up to 350m with the use of the RXENF4ANT Dipole Antenna)
 - RXENF4ANT External Antenna plugs directly into receiver PC Board.
 - Mode switch for easy transmitter learning.
 - Each receiver channel can learn the codes of 15 different transmitter buttons on a first-in, first-out basis.
 - Codes are stored safely in EEPROM for up to one year in case of power loss.
 - Four Form-C Dry Relay Contact (N.O./N.C./Common) Outputs. Each output rated 10 Amps at 24 VDC.
 - 4 Separate Channels / 4 Output Modes Each:
 - a. Timed Momentary (1, 2, 3, 4, 5, 10, 30, 60 sec.)
 - b. Toggle (On/Off)
 - c. Latch (Output stays on until manually reset)
 - d. Continuous or Validity (Output for as long as signal is received)
- *All outputs are independently controlled. (i.e. Channel 1 can be toggle, Channel 2 can be one second momentary, etc.)

Part No.
RXENF4

Extended Range "Dipole" Type Antenna for RXENF4

This flexible antenna is used to extend the transmission range of the RXENF4 wireless receiver an additional 300m (Open air, LoS). The antenna easily plugs into a connector on the receiver, no extra wiring is required.

Part No.
RXENF4ANT

*Transmitter Belt Clip Holster also available (TXENF4HOLDER)

4 Button Code Hopping Hand-Held Transmitter - 433.92MHz

This 4-Button Code-Hopping Hand-Held Wireless Transmitter works in conjunction with the RXENF4 Wireless Receiver to allow you to remote control garage doors, alarm panels and home automation functions.

- Extremely durable: Rubber buttons help eliminate electrostatic discharge damage. Gold-plated battery clips and contact points extend the life of the transmitter.
- The transmitter has an operating range of 150m (Open air, Line of Sight)
- Uses anti-code grabbing technology for greater security
- Over 68 Billion possible transmitting codes

Part No.
TXENF4
TXENF4HOLDER

WIRELESS MINI ALARMS

Standalone Wireless Motion Sensor Alarm

Standalone wireless motion sensor alarm, ideal for home, garage or caravan. Can be activated or deactivated by a radio remote control from up to 30m away. Sits on any surface, with no mounting required

- 130dB ultra-loud alarm
- PIR sensor detects motion up to 7m
- Can be mounted on walls or simply placed on any flat surface
- Radio remote control activates & deactivates the alarm at a range of up to 30m

Part No.
WGWMSA

Ideal for the elderly, as an emergency button or for general security.

Calls up to 3 people when the button on the remote control or main unit is pressed

Wireless Help/Panic Alarm With Automatic Phone Dialer

This Help/Panic alarm with telephone dialer and RF key fob allows you to record a 10 second help message and store 3 prefixed telephone numbers of your choice. When the button on the main unit or remote is pressed it will dial the 3 preset telephone numbers. When the receiver answers the phone they will hear the recorded message and can take appropriate action. In addition, they have the option to open a two-way hands free conversation between the caller and the receiver. You can have up to 3 remotes and each one can be used up to a distance of 50m from the main unit.

- Features:
- Auto dialer, up to 3 programmable telephone numbers with a maximum of 16 digits each.
 - Record a personal 10 second message
 - Detection Area: Max 50m long, LoS
 - Easy to program
 - Two-way hands free voice communication
 - Use Radio 433.92MHz AM Super heterodyne receiver

Part No.
WGWHAD

Personal Alarm - 130dB loud siren

This personal alarm, also known as a personal attack or duress alarm, offers you basic protection and peace of mind. Our 130dB personal alarm is designed to draw attention to any crisis. The alarm is activated when the alarm pin is removed from the alarm body. The alarm is compact enough to fit in your pocket or handbag.

- Pull wrist cord to activate
- 130dB loud siren
- Light weight

Part No.

FIRE SAFETY PRODUCTS

Vinyl Pouch Fire Blanket

- Approved to Australian Standard AS3504 + Standards Mark
- Ideal for use on cooking oil and stove top fires
- A compact and easy to use household fire blanket
- Essential for kitchens, where 2 out of 3 home fires start
- Manufactured from 100% Woven Glass Fibre
- Handy Vinyl Pouch allows wall hanging
- Release tapes act as handles when blanket is unfolded

- Available in
- 1.0m x 1.0m (WGFN1.0VP)
 - 1.8m x 1.8m (WGFB1.8VP)

WGFB1.8VP

Photoelectric Smoke Alarm

Photoelectric Smoke Alarms consist of a light emitting diode and a light sensitive sensor. The presence of suspended smoke particles in the chamber scatters the light, which is detected, setting off the alarm. Photoelectric technology is superior to ionisation technology in detecting the visible smoke produced by smouldering fires, which most commonly occur in homes.

- Latest Photoelectric Technology
- Built-in test button
- Battery missing indicator
- Non-radioactive technology
- Extra loud alarm (sound over 85dB)

Part No.
WG1SMKP

Ionisation Smoke Alarm Twin Pack

Ionisation alarms detect the presence of large quantities of very small particles entering the ionisation chamber, when in sufficient quantity will cause an alarm to sound. Sufficient quantities of particles are generally only produced by flaming fires or from very hot surfaces. Ionisation alarms are more responsive to fires that start as, or quickly escalate into a flaming stage.

- Ionisation Sensor - sense visible or invisible particles of smoke at the earliest stage
- Easy installation (wall mount bracket & screws included)
- Extra loud alarm (sound over 85dB)

Part No.
WG2SMKI

SMS8

8 Zone Alarm Panel & LCD Keypad

The SMS8 is our premiere 8 Zone Alarm Panel and LCD Keypad, ideal for use in a home or business. The system is designed to provide personal security monitoring via your mobile phone using SMS Messaging or optional high security 24 Hour back-to-base monitoring. (*Fees Apply)

System reports are sent using the industry standard Contact ID communication protocol. The benefit of using the SMS8 to send these reports is that no SIM card is required - SMS messages are sent via your landline.

The SMS dialer function can be disabled if desired so as to operate as a regular 'dialer' alarm control panel only. The system is designed to be easily programmed, with all programming and setup done via a simple menu-driven system.

Features:

- 8 Hardwired Zones
- One button "Quick Arming" plus "Home Arming" for arming only certain areas - i.e: at night you can have the sensors in living areas armed, but those in the bedrooms disarmed.
- Panic, medical and fire emergency buttons
- Key-switch input
- On board modem with Contact ID protocol for optional back-to-base monitoring
- Supports SMS text messaging of alarm information to two separate mobile phone numbers
- Telephone line fault monitoring

Australian Designed!

*mobile phone not included

ALSO AVAILABLE
Professional Complete Hardwired Alarm Kit

- Includes:
 - 1 x Watchguard SMS8 Alarm Panel
 - 1 x External Siren/Strobe
 - 1 x Indoor Piezo Siren
 - 3 x High Quality PIR Sensors
 - 4 x Surface Reed Switches
 - 1 x Emergency Panic Button
 - All power supplies and cabling
 - Ideal for home or office.

Model: SMS8KITHW

SMS8 OPTIONAL
2-Wire Serial Interface Wireless Receiver

- Narrow band wireless receiver
- 2 Wire interface connection
- Includes 2 high security code-hopping remotes
- Remote functions include arm/disarm, home arm & panic
- 8 Wireless detector zones
- Easily add & erase up to 8 wireless detectors into your system
- Compatible with all Watchguard™ Wireless Accessories

Model: SMS8RX

ALSO AVAILABLE

Does your client want to receive SMS Messages instead of paying for back to base monitoring? If they demand this function, we have the solution!

Contact ID to GSM SMS Message Text Converter

- Connects to panel to convert Contact ID to SMS
- Enables personal monitoring, with SMS notification of alarms
- Connects to standard telephone line
- Easy to install - connects to communications port, 12V supply output and telephone line
- Maximum 16 alarm zones
- No SIM Card required

Model: SMS8IB

Part No.

- SMS8
- SMS8KITHW
- SMS8RX
- SMSIB

WGAP816

8 Zone Alarm Panel & LCD Keypad Expandable to 16 Monitored Zones

The WGAP816 is a versatile, microprocessor-based, fully featured 8/16 Zone alarm panel, which has two partitions. The alarm panel provides immediate notification of burglary, fire, medical & panic conditions. There is a dedicated panic zone, monitored siren output, auxiliary power outputs and five (expandable to seven) program able outputs that may be programmed to perform various trigger/switching functions.

Product Features:

- Eight programmable, end of line supervised zone inputs
- 2 Partitions
- Five programmable outputs on alarm panel. Expandable to seven when using Wired Zone Expander module
- Programmable loop response time
- Auto arm/disarm capability per partition and by day of the week. The panel can be programmed to arm/disarm at a pre-determined time
- Optional tamper reporting per zone using double end of line resistors (12k and 4k7)
- Fully programmable digital telephone communicator that supports most industry standard formats.
- Non volatile EEPROM memory retains all program and event log data in the event of a total power failure
- Excellent protection against lightning (provided by specialist "zap tracking" and transient suppressors)
- Fax defeat/answering machine override
- Dual reporting provides for duplicated reporting to two independent central base stations
- 3 quick arm modes
 - Away
 - Stay with no exit delay
 - Stay with exit delay
- 32 user codes
- Dynamic battery self test
- Low battery cut out circuit
- 500 event log
- False alarm reduction features

OPTIONAL 8 Zone Expander

Model: WGAEXPAND

- 8 wired, end-of-line supervised zone inputs
- Optional tamper per zone using double end-of-line resistors
- Programmable loop response time
- Dedicated box tamper input
- Excellent protection against lightning (provided by specialist "Zap Tracking" and transient suppressors)
- Expander supply voltage monitoring

8/16 Zone Hardwired Alarm Kit for COMPLETE Home or Office Protection

If you're after a complete Home or Office alarm system, you **NEED** the WGAP816KIT. It contains a Watchguard™ 8/16 zone alarm panel, internal and external sirens, motion sensors, reed switches, emergency panic button and all necessary power supplies and cabling. These detectors and sirens help protect ALL areas of your house by performing functions such as monitoring your rooms for movement, and detecting when doors or windows are opened. This gives you greater peace of mind that your home is secured against thieves, burglars and vandals.

1 x 8/16 Zone Alarm Control Panel with LCD Keypad

1 x Outdoor Siren/Strobe

3 x High Quality PIR Sensors

1 x Indoor "Top Hat" Piezo Siren

4 x Surface Reed Switches for Doors or Windows

1 x Emergency Panic Button

1 x 7Ah Lead Acid Backup Battery
1 x 100M of 4 Core Alarm Cable
1 x 16VAC Power Supply

Part No.
WGAP816
WGAP816KIT

WGAP1632

16 Zone Alarm Panel & LCD Keypad Expandable to 32 Monitored Zones

The WGAP1632 is a versatile, microprocessor-based sixteen-zone Alarm Panel. There are eight partitions and the panel can be expanded to monitor a total of thirty-two burglary zones through the use of wired zone expanders (Maximum of two). Most features are optional and may be programmed directly through the LCD Alpha-numeric keypad. There is a dedicated Panic zone, monitored siren output, auxiliary power outputs and eight (expandable to twelve) programmable outputs which may be programmed to perform various trigger/switching functions.

Product Features:

- 8 Partitions, 250 user codes, 500 event log
- Programmable loop response time
- RS485 keypad bus supports two 8-zone expander modules, one remote receiver, up to 16 keypads and GSM Communicator
- 16 programmable, end-of-line supervised zone inputs
- Expandable to 32 zones via keypad zones, zone expander modules, zone doubling or wireless expansion
- Optional tamper reporting per zone using double end-of-line resistors (12k and 4k7)
- Auto arm/disarm capability per partition and by day of the week. The panel can be programmed to arm/disarm at a predetermined time
- 8 programmable outputs on Alarm Panel. Expandable to 12 when using Wired Zone Expander module
- Non-volatile EEPROM memory retains all program and even log data in the event of a total power failure.
- Event log, date and time stamped (approx. 700 events - exact number of events is dependant on the timing of the events)
- Up and download using Windows based software, either directly via RS232 or remotely using a modem
- Excellent protection against lightning (provided by specialised "zap tracking" and transient suppressors)
- Fax defeat/ answering machine override
- Dual reporting provides for duplicated reporting to two independent central base stations - or one base station and a cellphone
- Support for secure dial-in functionality using any DTMF phone
- False alarm reduction features
- Optional voice module for voice reporting and DTMF, voice-prompted remote-controlled menu
- Dynamic battery self test

OPTIONAL 8 Zone Expander

Model: WGAEXPAND

- 8 wired, end-of-line supervised zone inputs
- Optional tamper per zone using double end-of-line resistors
- Programmable loop response time
- Dedicated box tamper input
- Excellent protection against lightning (provided by specialist "Zap Tracking" and transient suppressors)
- Expander supply voltage monitoring

16 Zone Hardwired Home Alarm Kit for COMPLETE Home/Commercial Building protection

If you're after complete commercial building protection, you **NEED** the WGAP1632KIT hardwired alarm system. It contains a premiere Watchguard™ 16 Zone alarm panel, internal and external sirens, motion sensors, reed switches, emergency panic button and all necessary power supplies and cabling. These detectors and sirens help protect **ALL** areas of your house by performing functions such as monitoring rooms and offices for movement, and detecting when door or windows are opened. This gives you greater peace of mind that your building is secure against thieves, burglars and vandals.

1 x 16 Zone Alarm Control Panel with LCD Keypad

1 x Outdoor Siren/Strobe

3 x High Quality PIR Sensors

1 x Indoor "Top Hat" Piezo Siren

4 x Surface Reed Switches for Doors or Windows

1 x Emergency Panic Button

1 x 7Ah Lead Acid Backup Battery
1 x 100M of 4 Core Alarm Cable
1 x 16VAC Power Supply

Zenith Poll

GSM Products

NEW!

GSM Fixed Cellular Unit with External Antenna

The GSM Fixed Cellular Unit is a device which is designed to act as an interface between the GSM Network and a locally connected telephone or security system where the standard PSTN lines aren't available.

Through the use of a GSM SIM card, users are able to make and receive phone calls via the GSM Network.

The device is ideal for installation and usage in areas where a phone line may be inaccessible or unavailable.

Features

- Enables phone calls over GSM Network
- Low cost alternative to installing a phone line
- Includes high-quality GSM antenna
- Optional RS232 port for connectivity and interfacing with PCs and compatible POS devices
- 12VDC Power - Use the power adaptor or connect an optional battery for wireless operation

Part No.
GSMTERMINALVO

GPRS/GSM Backup Module with Encrypted GPRS-TCP/IP Communication

In case your landline is sabotaged or is out of service, this GSM back-up device enables your security system to communicate with your monitoring centre via the mobile phone network.

It utilises a high quality GSM modem and is capable of sending (independently to your panel) its own periodic phone test, phone line failure or low battery message to 4 different receiver station phone numbers, via Contact ID protocol using the GSM network.

Both pulse and DTMF dialing are supported and as the unit draws less than 100mA, it can be easily powered directly from your alarm panels 12VDC power supply.

Features

- Backup phone line function:
In case of the failure of your PSTN Line, the system simulates a virtual PSTN line over the GSM mobile network.
- Encrypted GPRS-TCP/IP communication
- Phone line monitoring:
In the event of failure, the GSM communication will take over
- Default factory setting:
If the connected PSTN landline is available, all calls will be made through the PSTN line. If the PSTN line ever fails, all calls will then be made via the GSM Network

Part No.
GSMBU-ZB

HARDWIRED ALARM ACCESSORIES

Universal Passive Infrared Movement Sensor

Model No: PIRLHLB

This advanced PIR body heat movement sensor is suitable for indoor use with any alarm control panel. It can detect movement up to 12m away at an angle of 110 degrees from the sensor. The detector features automatic temperature compensation to improve performance when the ambient heat level in a room changes. The adjustable pulse count function enables you to select either normal or reduced detection sensitivity levels for use in harsh environments.

- High quality dual element PIR sensor
- Micro processor controlled
- Auto temperature compensation
- Adjustable pulse count (sensitivity)
- Selectable N.O. or N.C. alarm outputs
- PIR Mounting Bracket also available

Part No.
PIRHW
PIRLHLB

Complete Outdoor Siren - Full Assembled AC/DC Siren, Strobe & Tamper Switch

Specifically designed to save alarm installers time and money, this product combines a dual power AC/DC high powered siren, high visibility blue strobe light and tamper switch. It is housed in a moisture and UV resistant attractive industry standard external casing and all cabling is pre terminated.

- Suits all alarm control panels
- No assembly required, saves time & money on installation
- Highly durable, moisture & UV resistant external housing
- Includes rear protective cover

Part No.
COS

Flush Mounted Internal Siren

- Emits a high frequency oscillating siren intolerable to the human ear
- Low profile design to mount flush with ceiling
- Repel intruders from your home

Part No.
DPSF

Compact External Siren With Strobe

European style 115dB external siren with integrated blue strobe light, piezo siren and tamper switch. The siren utilises a simple 2-wire connection and 12V power.

Part No.
W24SIREN

Reflex Horn Speaker

- High powered
- For use with most alarm control panels
- Includes mounting base
- Alerts occupants and neighbours of intruders

Part No.
DRHS

Universal Movement Sensor With Triple Technology

Model No: PIRLSB

This advanced indoor movement sensor can be used with any alarm control panel and incorporates 3 detection technologies designed to prevent false alarms. It is particularly suited for use in harsh environments where using a standard PIR may result in false alarms caused by rapid changes in heat, light levels or from other environmental factors. This triple technology detector requires both the PIR and microwave sensors to both simultaneously detect an intruder (using software signal analysis) before activating the alarm output. Detection range is approx. 12 metres.

- High quality quad element PIR sensor
- Adjustable microwave sensor with auto temperature compensation
- Selectable N.O. or N.C. alarm outputs
- PIR Mounting Bracket also available

Part No.
PIRHWT
PIRLHSB

Single Tone Siren

- 12V DC
- 115dB single tone siren
- Mainly used with control panels with no internal siren driver

Part No.
S42

Piezo Siren

Repel an intruder from your home by installing this high frequency, super loud siren.

- Connect to the Negative On Alarm output on your alarm system
- Dimensions: 85(W) x 89(D) x 41(H) mm

Part No.
DPS

Photoelectric Hardwired Smoke Detector

- Sensor Type: Infrared Photoelectric Diode
- Dust and insect proof
- Detection Range 20m Sq
- 12V DC

Part No.
SMODET15P

Flashing Blue Strobe Light

- Low profile blue strobe light
- Designed for use with external sirens
- Continuous rated xenon tube

Part No.
DSBM

Surface Reed Switch (N/O Contact)

High quality Magnetic Surface Reed switch which has Normally Closed/Normally Open Contacts.

Part No.
DSRNONC

High Impact Plastic External Siren Cover

This External Siren Cover has been developed and designed as a replacement for old or damaged siren covers.

Main Features:

- Highly Durable.
- Moisture and UV resistant.
- Designed in Australia.

Part No.
DPSCY

NC Tamper Switch for Siren Covers

- Open Type
- 1A
- 125V
- For Siren Covers such as the DPSCY, which do not have a tamper switch

Part No.
DTBS

Concealed Reed Switch

- Perfect for mounting in the tops of doors or hidden areas
- Easy "push-in" installation
- Compact design
- Dimensions(mm): 32(L) x 11(Dia.)
- White

Part No.
DCRW

12V 15A Universal Switching Relay

This is a 12V 15A Contact Rated Universal Switching Relay. The relay is contact closed when power is applied.

Part No.
REL01LOOM

Roller Shutter Reed Switch

- Strong heavy duty cast housing
- Termination contacts via a stainless steel flexible conduit
- N/C contacts

Part No.
DRSR

Emergency Button Switch

- When pressed will instantly trigger the alarm
- N/C & N/O contacts
- Slimline design
- Dimensions(mm): 23(W) x 76(H) x 15(D)

Part No.
DEBS

Large Surface Mount Reed Switch

- Surface mounted reed switch
- Industry standard
- N/C contact with solder terminals
- Dimensions(mm) Reed: 90(W) x 13(H) x 12(D)
- Magnet: 90(W) x 13(H) x 12(D)
- White

Part No.
DSRHDW

Dual Button Emergency Switch (N/O Contact)

- Dual button activation virtually eliminates accidental triggering
- Push to Close momentary contact type
- Pre-wired for quick installation
- Sturdy metal case, silver-plated spst contacts
- Rated 1Amp at 25VDC

Part No.
DEBSDUAL

Mini Surface Mount Reed Switch

- Compact design surface mount
- Industry standard
- N/C contacts
- Dimensions (mm): Reed - 63(W) x 12(H) x 20(D)
- Magnet - 63(W) x 12(H) x 11(D)
- White

Part No.
DSRLW

8 Zone Wired Expander for the WGAP816 and WGAP1632 Alarm Control Panels

- 8 wired, end-of-line supervised zone inputs
- Optional tamper per zone using double end-of-line resistors
- Programmable loop response time
- Dedicated box tamper input
- Excellent protection against lightning
- Expander supply voltage monitoring

Part No.
WGAPEXPAND

On/Off Key Switch

An On/Off keyswitch with 2 keys used for various applications.
2 positions, single pole, single throw changeover switch.

Part No.
2POSSPST

Watchguard High Quality LCD Keypad for use with the WGAP816 and WGAP1632 Alarm Panels

Developed for use with the Watchguard WGAP816 and WGAP1632 Alarm Panels, this high quality LCD Keypad easily allows you to program and access your security system's functions and information. The large LCD screen displays menus and messages to inform you of your alarm status/any changes you are making. All the alarm system programming is done via the LCD Keypad. Programmable functions accessed through the keypad include auto-arming, away arming, zone bypassing and setting/changing/allocating user codes.

Part No.
WGAPKP

ELECTRONIC ARTICLE SURVEILLANCE (EAS)

EAS labels & tags are used as anti-theft devices. The tag or label is used with a doorway reader to detect if an item is being removed without authorisation. EAS systems are used mainly in retail stores, data centres, and libraries. When applied to items, the EAS tag / label is capable of activating an audible alarm as it passes through the doorway detector. Because of the anti-theft protection they provide, EAS systems allow more freedom for retail stores to display items that would usually be locked in display cases. This allows the consumer to examine the product more closely before purchasing.

Doorway Readers

Locate the doorway reader at the front entrance of the shop or the cashiers in supermarket. Any product that has an EAS tag attached must be presented to the cashier to deactivate the code; if the EAS tag hasn't been deactivated, when passing through the doorway reader the alarm will sound, in order to notify staff members.

- 1.2m operational width
- Multiple units can be connected to cover wider entry/exit points
- High sensitivity, low false alarm rate
- Anti-disturbance from metal trolleys and touch
- Uses advanced DSP microchip data processing to speed up scanning of EAS tags.
- Two alarm tones: quick and slow
- Three alarm volumes: high, medium and low

Bandwidth	7.7-8.7MHz
Scan Frequency	162, 171, 180, 189Hz (also available in 8.2MHz, 10.5MHz)
Signal sampling rate	21.8us
Operating Range	Soft label 1.2m / Hard tag 1.5m
Alarm Volume	High, Medium, Low
Alarm tone	Quick, Slow
Dimensions	1650 x 340 x 85 mm

Part No.

RFTMAIN1R
RFTMAIN2R

8MHz RF Hard Tag

The RFT hard tag with chrome pin is commonly used in fashion retail shops. The pin is designed to allow the tag to be pinned onto the clothing without damage. To remove, simply place the tag on top of the magnetic detacher, and the pin will release.

- Frequency: 8.2MHz
- Detection range: 1.30m-1.40m

Part No.

RFTHARDTAG

Ink Tag

The ink tag provides double the security for your products. It contains a small amount of highly visible ink, if anyone tries to force the tag off, the ink will spill out. Best suited for use in the clothing industry.

Part No.

RFTINKTAG

8MHz Adhesive RF Labels

These discrete disposable labels are designed to be placed directly on product packaging. Commonly used on books, electronics and cosmetic products.

Part No.

RFTLABEL

Magnetic Detacher

This magnetic detacher, simply mounts to the retail counter-top. The tags are placed on top of the detacher to safely release them.

Part No.

RFTDETACHER

ENERGY SAVING & SAFETY DEVICES (ENSA)

Makes your alarm sensors 'Dual Purpose' by turning on appliances & lights automatically as well as activating your alarm!

Home Automation / Remote Lighting

This unique product simply replaces the standard light switch in a room. The lights can then automatically be turned on when installed along with a compatible wireless detector, remote control or by an existing alarm sensor that is easily retrofitted with a miniature transmitter. When used in auto mode, if the wireless detector senses movement, a door opening, or perhaps even smoke, the ENSA can automatically turn the lights on for a pre-determined period. By not turning on a room light unless there is activity in the room, and there is insufficient natural lighting this product saves energy. There is also a manual mode of operation, where you can turn the lights permanently on or off as per a normal light switch.

- Low cost solution to the home automation & energy saving control of lighting and other devices (i.e. fans), without the need to install any cable or expensive control boxes.
- Can be used in virtually any home or business for convenience, added security, power bill reduction and of course environmental benefits
- Can be installed in minutes by a licensed electrician without requiring any electrical cabling
- Gives a unique opportunity for the security industry to enhance the function of their alarm systems by making their detectors dual purpose.

Part No.
ENSA

Energy Saving Master Slave 6 Way Powerboard

This Energy Saving Powerboard contains a special sensor that measures the electrical current running through the Master socket. It then automatically switches the 4 Slave sockets on or off based on the status of the Master. Eg: if your computer is plugged into the Master Socket and your printer, monitor, scanner, etc. are plugged into the Slave sockets, when your PC is turned off, the other equipment will also be switched off. This saves a significant amount of energy and also prolongs the life of your valuable equipment. Furthermore, it will minimise the risk of fire presented by appliances being always left on standby. Ideal for Computers, Audio/Visual, Workstations, Offices, etc.

This powerboard also features a circuit breaker to protect your electrical wiring and connected devices from electrical overload. This feature cuts off power if more than 2400 watts is in use. To calculate total wattage of connected appliances simply add the wattage stated on each appliance and if the total is less than 2400 Watts, you should not experience an overload problem.

Note: If continual activation of the overload switch occurs, please turn off all devices and isolate the problem source. If the problem persists either replace powerboard or seek the assistance of a licensed electrician to find the fault.

Normal Operating Voltage : 240V A.C. 50Hz 10A 2400W Maximum
Master Outlet operating range >30W, < 500W
Combination of Appliances

Part No.
WGESP6

Energy Saving Automated Wireless Power Point

This unique product simply plugs into your existing power point and allows you to control any mains powered device up to 10A (amps) via a wireless sensing device or remote control. Common applications include connecting a lamp, fan, or air-conditioner and using a radio remote control to be able to turn your appliance on/off from virtually anywhere in your home. Alternatively, you can use a wireless detector to save energy by not turning on connected devices unless there is actually human presence detected or insufficient natural lighting. You can also retro-fit our tiny transmitter to existing alarm detectors making them dual purpose.

- Connect any mains powered device up to 10amps.
- Compatible with all Watchguard wireless sensors
- Easy DIY Installation
- Inbuilt adjustable daylight sensor to allow setting of light level for activation.
- Adjustable timer to allow device to turn off automatically after a set period.
- Can be used with our radio remote controls for simple on/off operation.

Part No.
ENSAPOWERPOINT

NEW!

Passive Infrared LED Night Light

- 3 x bright LED lights
- Automatically "ON" when movement detected
- Light "ON" duration 10sec/ 60sec
- 5m detection range
- LED light available for 120° Tilt adjustment
- Battery operated (3x AAA 1.5V batteries. Incl.)
- Great for hall ways, stairs and all main access
- Ideal to use as a safety light for children and elderly

NEW Release

Rhino **NEW** Generation! Rhino RAV3 Car Alarm

Australian Standards Approved Car Alarm and Upgrade in One, inc. 3 Point Engine Immobiliser and Glass Break Sensor

PRODUCT FEATURES

Three automatic immobilisers

For maximum security fuel pump, ignition system and starter motor immobiliser cuts (where possible) are made so the car cannot be started unless it is disarmed via the remote. The system will immobilise 40 seconds after the ignition is turned off or when the alarm is armed.

Intelligent glass break sensor

Detects the sound frequency of breaking glass. It will only trigger the alarm if the shock sensor also picks up an impact. This reduces false alarms.

Intelligent dual stage shock sensor

It gives a warning on a light impact and a full alarm on a heavy impact to the vehicle. It can distinguish between environmental shocks such as trucks or aircraft and a thief attempting to break in. It will auto adjust its sensitivity for the environment on arming.

Data battery back-up siren

A self powered siren that communicates independently with the alarm so it cannot be fooled into turning off like normal battery back-up sirens.

Door, bonnet and boot protection

If the alarm is armed and a door, bonnet or boot is opened the alarm will sound.

Central locking from the remote

The alarm will lock/unlock the doors when the alarm is armed/disarmed.

Two rolling code 4 button waterproof remotes

(If you are not using your car's factory key to operate the alarm).

Turbo timer functions

The RAV3 is designed specifically to work with turbo vehicles. It has two turbo timer options to choose from.

On-board turbo timer – no need to fit an external unit - using the on-board turbo timer is the most secure way to have a turbo timer. The alarm is armed as usual but the car will continue to run for the preset run time of 1, 2 or 4 minutes. If the alarm is triggered during this time the car will shut down and the alarm will sound. It can also be turned off prior to the preset run time via the remote.

Turbo timer interface - link the alarm up with your existing external turbo timer so your car will continue to run on the external turbo timer after the alarm is armed as usual. If the alarm is triggered during this time the car will shut down and the alarm will sound.

NEW Control the alarm with your vehicle's factory key

If your vehicle has a factory key that locks/unlocks the doors your RAV3 alarm may be able to interface with it so the alarm arms/disarms at the same time. Boot release will also work from the factory key (and if the alarm is armed it will disarm). This feature will work with most factory keys.

NEW Courier function

Courier function allows the engine to continue running indefinitely while the system is armed. If the alarm is triggered during this time the car will shut down and the alarm will sound.

Compatible with all Rhino car alarm accessories and sensors

Three year warranty

Also available in a 24-volt version

Part No.
RAV3

CAR ALARMS & ENGINE IMMOBILISERS

Australian Standards Approved Car Alarm and Upgrade in One, inc. 3 Point Engine Immobiliser and Glass Break Sensor

The Rhino RAV3 is one of our top quality Australian Standards Approved car alarm. It has been engineered to the highest specifications to give you the ultimate in car security. The main features which have been developed and incorporated into the RAV3 include:

- Three Automatic Immobilisers
- Intelligent Glass Break Sensor
- Intelligent Dual Stage Shock Sensor
- Data Battery Back-Up Siren
- Door, bonnet and boot protection
- Central locking from the remote
- Turbo Timer Functions
- Alarm control via vehicle factory key
- Courier function

Part No.

GTS 12 Volt Backup Battery Car Alarm With 2 Point Immobiliser

The Rhino GTS is a highly featured mid-level car alarm and engine immobiliser. It features code hopping remote technology, a full size backup battery siren and numerous programmable features. The two onboard engine immobilisation relays can be used to cut both your starter motor and fuel pump.

- Backup battery siren
- 2 x Code Hopping remote controls
- 2 stage car body impact sensor
- 2 point engine immobilisation (on board relays)
- Protects doors, boot and bonnet
- Central locking relay outputs for keyless entry

24 Volt Version (Model: GTS24V) - Note: GTS24V siren is non battery backup

Part No.
GTS

Backup Battery Car Alarm & Immobiliser

The Rhino GTR is a well featured mid-level car alarm and engine immobiliser. It is a popular choice for budget minded owners looking for most standard alarm features plus connection to their existing central locking and electric boot for keyless entry. The compact size siren is easy to install in cramped engine bays.

- 2 x Compact size remote controls
- 1 point engine immobilisation (onboard)
- Can protect doors, boot and bonnet
- Car body impact sensor
- Central locking relay outputs for keyless entry
- Current (voltage drop) sensing

Part No.
GTR

Australian Standards Approved Upgrade Car Alarm & Immobiliser With Wireless Keypad

Unfortunately, large numbers of high-risk vehicles are now being stolen by thieves gaining access to the owner's car keys. With the RAKP, even if your car keys are stolen (including possibly your factory remote control) the RAKP can not be disarmed without entering your chosen PIN number. The Rhino RAKP is a variant of the RA Model and is designed primarily for use in modern high theft-risk vehicles with factory remote controls. The inclusion of our special wireless keypad prevents anyone from being able to disarm the alarm and start the vehicle unless they enter the chosen 4 digit PIN number within 20 seconds of opening one of the car doors.

- Auto-Immobiliser: The 3 onboard immobilisation circuits automatically activate 38 seconds after turning the ignition off.
- Auto Arming Alarm (Programmable): If the car ignition is switched off and a door is opened and closed, the alarm can be set to arm automatically.
- Manual Arming: You can also turn the alarm function on manually via your PIN number if you don't want to use the automatic function all the time.
- The wireless keypad uses long-life lithium batteries and has backlit keys for night time illumination.

Part No.
RAKP

RECEIVE SMS ALERT FROM YOUR CAR!

The Rhino RAM

Car Alarm and Immobiliser With 2-Way SMS Mobile Communication via SMS Text Messaging

The Rhino Model RAM is arguably the world's most advanced car alarm system. This system enables 2-way communication between you and your vehicle via a GSM mobile phone. The RAM is a high specification, all-in-one car alarm and immobiliser, with GSM mobile phone communication via SMS Text Messaging (SIM card required).

The RAM Can Send SMS Messages To Up To 5 Mobiles Advising:

- Alarm activation and cause
- If no response, your RAM will dial specifically programmed number(s)
- Panic / duress activation
- Car low battery warning

By Sending An SMS Message To Your Vehicle You Can:

- Acknowledge receipt of an alarm message
- Remote immobilise the engine
- Remote arm and disarm the system
- Remote unlock the doors

- 2/3 Point engine immobilisation (2 Onboard Relays and Output)
- Battery backup siren
- Code Hopping remote technology
- All points of entry protection (Doors, Boot, Bonnet)
- Dedicated onboard audio discriminating glass break sensor
- 2 stage shock (impact) sensor with auto adjust
- All black wiring harness
- Negative pulse central locking outputs
- GSM low coverage warning
- 3 SMS controllable negative outputs

Part No.
RAMV2

UPGRADE CAR ALARM SYSTEMS

'Transformer' Upgrade Alarm System For Vehicles With Factory Keyless Entry

If your vehicle is fitted with a factory remote keyless entry system, and you would prefer not to have a second remote control on your keyring (because your ignition key is part of the factory remote control), then the Rhino Transformer is your system of choice. Whenever you lock and unlock your vehicle with the factory remote, your Transformer alarm will arm/disarm in turn. The Transformer is simply a variant of the RA system with identical features - except there is no need for remotes. The connection of engine immobilisation circuits (up to 3) in addition to the factory immobiliser is optional, but at least 2 must be connected to meet Australian Standards requirements.

- Australian standards approved AS/NZ 3749.1 2003
- Three point engine immobilisation (onboard relays)
- All points of entry protection (doors, boot, bonnet)
- 2 stage pre-alert car body impact sensor with ETS
- Alarm memory (allows recall of the 10 most recent alarm activations in order)
- Visual arming and disarming via indicators (optional)
- Audio discriminating glass break sensor
- Backup battery siren
- All black wiring harness

Part No.
TRANS

* Mobile phone not included

'Transformer SMS' Add-On SMS Paging System For Vehicles With An Existing Alarm

The 'Transformer SMS' adds state-of-the-art 2 way GSM mobile phone communication to your existing factory or after-market car alarm system. If you intend to rely on the existing alarm system fitted in your vehicle, this product enables you to be notified on your mobile phone if the alarm is activated. You can also connect to your existing central locking to allow you to unlock your car from your mobile in case you ever lock your keys in your car!

- Notification of factory alarm activation via SMS text message
- Receive SMS alerts when your car battery is low
- Up to 5 people can be notified upon alarm activation
- Failure to respond to an SMS alert causes the system to ring the primary user to gain maximum attention
- 3 independent negative outputs can be controlled via SMS message these may be used for remote arming or other functions such as opening electric gates, remote immobilisation, etc.
- SMS controlled central locking outputs
- GSM sim card required

Part No.
TSMS

ENGINE IMMOBILISERS

Remote Keyless Entry & Basic Immobiliser System

This product can be used to remote control your existing car central locking and electronic boot release. It has indicator flash outputs and includes a single engine immobilisation circuit. The RCXI can also be used for remote controlling your garage door, home alarm system, or your electric gate.

- Adds remote controlled functionality to existing key operated central locking
- Remote Code Hopping technology
- Operating range of approximately 80 metres
- 1 second (momentary) negative central locking outputs for each channel
- Electric boot release output
- Optional connection to flashing LED, engine immobilisation relay & indicators
- Ultra compact module; Dimensions(mm): 60(W) x 30(D) x 13(H)

Part No.
RCXI

Australian Standards Approved Remote Control 2 Point Engine Immobiliser

The Rhino RES Engine Immobiliser is an Australian Standards Approved System and features passive arming, all black wiring and 2 engine immobilisation circuits. It also has a negative on alarm output on door and ignition activation to allow an optional siren to be connected for basic alarm function.

- Australian standards approved: AS/ NZS 4601:1999
- 2 point engine immobilisation (onboard relays)
- Code Hopping remote technology (anti-scanning, anti-code grabbing)
- Auto immobilisation (passive arming)
- Visual arming and disarming confirmation via blinkers
- Negative pulse central locking outputs
- All black wiring harness
- Insurance approved

Part No.
RES4601V2

JAG 12 Volt Australian Standards Approved Remote Control 3 Point Engine Immobiliser

The Rhino JAG is our top-of-the-range Engine Immobiliser and it's recommended for all high theft-risk vehicles. It is approved to the latest Australian Standard and features 3 onboard engine immobilisation relays plus all black wiring. The additional option of utilising the Rhino wireless keypad means maximum protection for your vehicle.

- Australian standards approved: AS / NZS 4601:1999 / amdt 1:2003
- Insurance approved including specialist insurers
- Three point engine immobilisation (onboard relays)
- Code Hopping remote technology (anti-scanning, anti-code grabbing)
- Auto immobilisation (passive arming)
- Onboard central locking relay outputs
- Optional wireless keypad compatible
- Numerous programmable features plus upgradeable to full alarm system

Part No.
JAGV2

24 Volt Version Available
(Model: JAG24V)

SIRENS

Cabin Piezo Siren - Black

Repel an intruder from the cabin of your vehicle by installing this high frequency, super loud siren under the dash.

- Connect to the Negative on Alarm output on your alarm system
- Dimensions: 85(W) x 89(D) x 41(H)mm

Part No.

DPS

Coded Backup Battery Siren - Suits RA, JAG Only

For use with Rhino RA & JAG only as these systems utilise a special data code signal to switch the siren on and off.

- Power: 12VDC
- All black wiring
- Australian standards Approved
- Dimensions: 105(W) x 110(D) x 80(H) mm

Part No.

BBSC

Mini Coded Backup Battery Siren - Suits RA & JAG Only

For use with Rhino RA & JAG only as these systems utilise a special data code signal to switch the siren on and off.

- Power: 12VDC
- All black wiring
- Australian standards approved
- Dimensions: 55(W) x 65(D) x 72(H) mm

Part No.

MINIBBSC

Universal Siren Battery Backup - Suits GTS

Universal replacement siren for most brands of car alarm. Used in Rhino GTS Car Alarm.

- Colour wiring harness
- Negative & positive trigger inputs
- Override keyswitch
- Dimensions: 105(W) x 11(D) x 80(H) mm

Part No.

SBB

Universal Mini Backup Battery Siren - Suits GTR & RSA

Universal replacement siren for most brands of car alarm. Used in Rhino GTR & RSA Car Alarms.

- Power: 12VDC
- Used in Rhino GTR & RSA car alarm
- Negative & positive trigger inputs
- Override keyswitch
- Dimensions: 55(W) x 65(D) x 72(H) mm

Part No.

MINISBB

VEHICLE ALARM ACCESSORIES

Ultrasonic Sensors For Detecting Body Movement Inside A Hardtop Vehicle

For detecting body movement inside the cabin of a hardtop vehicle. Easy to connect to most alarms via negative output trigger wire.

- Ultra compact sensors
- Frequency: 40 kHz crystal locked
- Adjustable sensitivity
- 12V DC

Part No.

UD6

Microwave Detector For Detecting Body Movement In A Soft-Top / Convertible Vehicle

For detecting body movement inside the cabin of a soft-top / convertible vehicle. Can be hidden behind non-metallic surfaces.

Part No.

UD5

Ultra Bright Flush-Mount 5.0mm 12V DC Flashing LED Light

Ultra bright flush-mount red flashing LED light for 'alarm armed' indication.

- 12V DC
- Diameter : 5 mm

Part No.

FL5

Digital Tilt Sensor With 3 Dimensional XYZ Axis Movement Sensing Technology

Designed to help protect your wheels / detect tow away. This device detects if your car is tilted by more than a couple of degrees. Unlike mercury switches, it does not matter if your car is parked on a slope. The sensor saves in memory the angle position of your car when your alarm is armed & monitors for any changes.

Part No.

TILTSENSE2

Automatic Electric Window Lifter

Automatically closes 2 power windows when your alarm is armed (2 units required for a 4 door vehicle)

- Dimensions: 70(W) x 115(D) x 27(H) mm

Part No.

GLU400

Electric Boot Release Motor

Add convenience to your car that is not fitted with an electric (push button) type boot / hatch release.

- Compact design
- Solenoid dimensions: 70(W) x 115(D) x 27(H) mm

Part No.

DL105

2 Stage Vehicle Impact Sensor

Designed to detect any shocks or impacts to your vehicle. The 2 stage system provides a warning alert if a light impact is detected, and outputs to the alarm if a heavy impact is registered.

- 2 stage for more accurate detection
- Prewired female plug
- Adjustable sensitivity with LED test indicator

Part No.
SHOCK2S

PIN409

PIN410

PINSW

Pinswitches

Used to detect the opening of a vehicle bonnet, boot or doors.

- Available Versions:

- Standard Pinswitch (PIN409) - 35(W) x 53(L)mm
- Right Angled Pinswitch (PIN410) - 45(W) x 60(L)mm
- Metal Pinswitch (PINSW) - 5(W) x 65(L)mm

- PIN409 and PIN410 are adjusted by cutting the pin
- PINSW is adjusted via the screw thread

Part No.
PIN409
PIN410
PINSW

Van Sliding Door Switch

For use when installing central locking on vehicles with sliding doors such as passenger & commercial vans.

- Female switch dimensions: 82(W) x 34(D) x 15(H) mm
- Male switch dimensions: 70(W) x 26(D) x 52(H) mm

Part No.
VANSW

40 Amp 5 Pin Changeover Relay

Commonly used for adding engine immobilisation circuits and connecting electric boot release motors to your system. Also used for central locking interfacing when vehicle does not have regular negative pulse inputs and your alarm / immobiliser also does not already have onboard central locking relays.

Part No.
40ARELAY
40ARELAY-24

Differential Pressure Sensor

The differential pressure sensor detects minute or major changes in the internal pressure of a car; when the alarm is armed, the sensor uses the internal pressure as a baseline. Any changes to this pressure - like breaking a window or prying open a door - result in the sensor detecting the change and triggering the alarm.

- High and Low Frequency Tuners

Part No.
PRESSENSE

Dual Zone Microwave Detector

Can be used to give a warning to anyone coming too close to your vehicle & to trigger the alarm if there is movement inside the cabin. Can be hidden behind non-metallic surfaces.

- Compatible with most alarms
- Tri-colour test LED
- Negative trigger output wires
- Detects perimeter approach & internal movement
- Dimensions: 83(W) x 80(D) x 20(H) mm

Part No.
MDDZ

CENTRAL LOCKING KITS

Heavy Duty Central Locking Kits

Add security and convenience to your car that is not already fitted with central locking. Can be key operated or connected to any car alarm or immobiliser with central locking outputs for remote keyless entry. This high quality door central locking kit is ideal for use in both modern and older vehicles which require high torque motors for activating stiff door locking mechanisms.

Kit Includes:

- 1 x control module with negative lock / unlock pulse inputs
- 2 x 5 wire master actuator / door lock motors
- 2 x 2 wire slave actuator / door lock motors
- Full wiring harness & motor mounting hardware

* Kit Available in:

- 4 Door Locking Kit (Model No: CLKHD)
- 2 Door Locking Kit (Model No: CLKHD2D)
- 24Volt Version (Model No: CLKHD24V)

Part No.
CLKHD
CLKHD2D
CLKHD24V

Central Locking Kit - Cable Lock Adapter

Use this adapter kit for vehicles fitted with cable type lock actuators.

Part No.
CLKHDCABLE

Heavy Duty Central Locking Motor - 5 Wire

Individual Central Locking 5-Wire Master Drive Motor

Part No.
DLHD101

Heavy Duty 2-Wire Central Locking Slave Motor

Individual Heavy Duty 2-Wire Slave Central Locking Motor

Part No.
DLHD102

Have You Ever Needed To Know Where Your Vehicle Is Right Now or Where It Has Been?

With RhinoTracks™ you can affordably locate & track your own vehicle to within 20 metres*, in virtually real-time, from anywhere in the world where you have access to the Internet. Unlike most other retail tracking products, the RhinoTracks™ service allows you to track your own vehicle at any time and find out where it is and where it has been. A major advantage for fleet management applications is that no expensive hardware or software is required.

Access to the RhinoTracks™ service is based on a low-cost monthly subscription service which is paid quarterly. RhinoTracks™ subscription plans include access to the RhinoTracks™ website and your SIM data plan. Please contact your RhinoCo Distributor for pricing and service terms.

Device	Andren	Thursday, 12 November 2009 12:46:34 PM	0 km/h

		Thursday, 12 November 2009 12:48:17 PM	

After logging into the Rhino Tracks website, you can select "View Live" or "History" to check on your vehicle. Currently, we are at "History" mode.

Google™ Maps** displays the "Streetview" of the vehicle's "current position" at the recorded time frame. "Streetview" can also be viewed full screen.

Using Google™ Maps, the data shows the vehicle's routine, position, location, speed, date and time frame.

The basic functions featured in all the GPS Trackers include:

- Support for numerous GPS applications such as vehicle location, remote monitoring, remote navigation, fleet management, anti-theft and real-time tracking.
- Provides accident and travel history records.
- Convenient, flexible, temporary Geofence setting.

* Provided your vehicle is within your selected mobile phone network carriers GSM coverage, GPS satellites are operational & the vehicle is not undercover.

VEHICLE & PERSONAL TRACKING SYSTEMS

Personal GPS Tracking System with Voice Function

The RHINOTRACKS-PTS personal tracking system includes the standard GPS tracking functions as well as voice functionality. The unit has a built-in microphone and speaker, with the ability to program phone numbers onto the speed dial buttons (via the computer software) for more efficient communication. More advanced functions of the unit include Help and SOS report sending, as well as a Self-Geofence option. The unit is charged through a portable docking station, and a full battery will provide more than 4 days standby operation.

Part No.
RHINOTRACKS-PTS

Standard GPS Vehicle Tracker

The RHINOTRACKS-ST5 is our standard GPS Vehicle Tracker, designed to keep you informed of where your vehicle is and where it has been. The system includes the standard GPS tracking functions, and comes with a GPRS and GPS antenna. *Suitable for 12 or 24 VDC Vehicles

Part No.
RHINOTRACKS-ST5

Available By Special Order

Wind Powered Tracking System with built-in GPS and GSM Antenna for Trucks, Trains and Trailers

This unique wind powered GPS tracking system utilises an independent wind power generator to charge and power the unit, removing the need to connect an external power supply. This makes the product ideal for mounting on the top of a trailer, truck or container, where it is out of sight from vandals and in a prominent position to capture the wind.

Part No.
RHINOTRACKS-WPT

Available By Special Order

Mini Tracker for Container or Covert Tracking

This compact GPS unit includes the standard GPS tracking functions and is powered by an inbuilt 3.6V Lithium battery, with a standby operation time of more than 12 days. The system has been designed to be mounted on the back doors of a truck or container. It has built-in GPS and GSM antennas and has both a motion sensor and magnetic door sensor, to easily detect the status of the container doors. The unit housing has a strong magnetic backing, which makes for simple installation and it includes a tamper switch (with trigger reporting) on the main unit for added protection against vandals.

Part No.
RHINOTRACKS-CTS

Available By Special Order

Stand-alone GPS/GPRS/SMS Solar Panel Tracker

The NEW Solar Powered GPS Tracking System is an ideal product for use in logistics applications such as on top of a truck or container. The internal battery is charged by the large photovoltaic Solar Panel, removing the need for an external power source. The unit includes the basic GPS tracking functions, allowing you to locate your vehicle from anywhere in the world where you have an internet connection. The built-in GPS and GSM antenna remove the need for external devices, and the unit's tamper switch (with trigger reporting) provides added protection against vandals.

Part No.
RHINOTRACKS-SPT

The Next Generation Of Driving Recorder Systems

Vehicle Driving Recorder System with Inbuilt GPS Module (Version 2)

Developed to provide added safety, security and peace of mind to individual drivers and larger transport fleets, the MDVR-XDv2 is an in-car driving recorder system which has an inbuilt GPS module.

The internal CMOS video camera can record at a resolution of 640 x 480 pixels at a maximum of 30fps. Along with the camera, the unit also has an inbuilt microphone for audio recording, a GPS location data logger for easy tracking of the unit location and a G-Force shock sensor to detect vehicle impacts.

The unit includes a bracket which allows it to be easily attached to the windshield of a motor vehicle. The inbuilt shock sensor is adjustable, which assists the unit in determining whether the vehicle has been involved in an accident; the pre and post event recording footage is taken to provide thorough coverage of the incident, making it easy for employers or individuals to lodge insurance claims or provide evidence.

The unit includes the footage viewing software and a 4GB Micro SD Card.

MAIN FEATURES:

Easy Installation

Simply install the unit on the windscreen, provide power by turning the car on, and the unit will begin recording.

Manual/Event Recording

The unit includes an Emergency Recording Button, allowing you to record events that may not trigger the automatic event recording.

3 Axis G-sensor Event Recording

While driving, if the car gets impacted from an event such as a collision, the G-sensor will detect the impact and record video prior to and during the impact, giving you evidence for insurance claims, police reports etc.

GPS Interface (Option)

The device has a built-in GPS module which allows it to track the driving route by map and speed

Footage Viewing Software

Recorded video clips can be played back by either using the provided software viewing program on the instruction CD or the free video player which is on the Micro SD card.

Supports Video-Out

If you connect the video-out terminal to a monitor or TV, you can simply setup the device functions and playback video clips instantly.

Automatic Recording System

After turning the vehicle on, the device will be powered and will start recording automatically. When the vehicle is turned off, so is the unit.

Camera	CMOS Image Sensor
Video Resolution	640 x 480 @30FPS
Audio	Internal Mic
Event	G-Sensor (3-Axis), Emergency Button

GPS	Internal GPS Module
Memory	Micro SD Memory. Supplied with 4GB Micro SD Card, Maximum Memory 32GB
Power	DC 12 ~ DC24V
Dimensions	L102 x W60 x D5mm

Part No.

MDVR-XDV2

The Next Generation Of Driving Recorder Systems

Vehicle and Driver In-Car Recorder System with inbuilt GPS Module (Version 2)

-  2 Camera Channel
-  Embedded GPS
-  Voice Guide
-  Constant Recording
-  Embedded G-Sensor
-  Real Time Display
-  Event Recording
-  SD Memory Card

MAIN FEATURES:

Constant Recording Function:

The product constantly stores front view videos, voice, GPS location, and time information on the SD card. When the amount of recorded data exceeds the capacity of the SD memory, the oldest files get overwritten.

Event Recording Function:

If the impulse sensed by the G-sensor exceeds a specific limit, or the user presses the emergency recording button, the video file containing 15 seconds of data prior to the event and 15 seconds into the event is automatically stored and transferred to the EVENT MOVIE folder on the SD card.

Video and Voice Data Playing & Analysing Function:

The user can play recorded video and information, using the software provided with the product, and easily analyse velocity, coordinates, time and GPS location. Recorded video files can be played at a maximum resolution of 640x 480 @ 25 FPS

2 Camera Monitoring:

The system has an additional camera, allowing for mounting elsewhere in the vehicle to provide extra monitoring, e.g. watching driver/passenger behaviour, rear view

Part No.

MDVR-TAXIV2

MOBILE DIGITAL VIDEO RECORDERS

* Hard Drive Not Included

4 Channel Mobile Digital Video Recorder with GPS Receiver

The NEW Rhino 4 Channel Vehicle Mobile Digital Recorder with GPS Receiving Unit is the ideal product for a number of applications, including:

- Monitoring driver behaviour
- Proving deliveries have been made
- Providing video evidence in the event of an accident.
- GPS Vehicle Tracking

The unit includes an A/V Input loom to allow you to connect up to 4 cameras to the device (For recording views such as front view, rear view, driver view, passenger/cargo view). The recorded footage is stored on the removable 2.5" Hard Drive, and can be backed up via USB.

The functionality of the unit can be increased through the use of optional accessories, such as a Driver Action Detecting Box (To provide notifications when turn signals are used, when brakes are applied, when doors are opened and other similar functions)

* Monitor Not Included

Part No.
MDVR-GPSV2

MDVR-GPS Shock-resistant Security Housing

- 8 Internal Rubber Shocks
- Lockable Flip-down Doors
- Rear Exhaust Fan

MDVR-GPS External Signal Box

Provides system information on the MDVR-GPS, including power, record, alarm and GPS fix status. An emergency panic switch is also provided. Useful when the MDVR-GPS unit has been installed out of reach from users.

Part No.
MDVR-GPS-HOUSING

Part No.
MDVR-GPS-SIGBOX

MDVR-GPS Wireless LAN Server

Allows streaming of camera footage over a wireless ethernet network. Unit contains RCA video and audio connections as well as dual wireless antennas.

MDVR-GPS LAN Server

Allows streaming of camera footage over an ethernet network. Unit contains RCA video and audio connections as well as a RJ45 socket.

FOR YOUR LOVED ONES!

Help see what's behind you in your
BLIND SPOTS when reversing

VEHICLE REVERSING KITS

VEHICLE PARKING SENSORS

Rearview Mirror with 4.3" TFT-LCD Inbuilt Monitor & Number Plate Camera Kit

This kit contains all you need to enable safe reversing with confidence, virtually eliminating blind spots. The Monitor/Mirror simply fastens over your vehicles existing rear view mirror and the camera is mounted above your Number plate. When reverse gear is selected, a colour video image is instantly displayed on the in-built 4.3" TFT LCD screen.

- Video display turns on automatically while reversing
- Inbuilt 4.3" colour TFT-LCD screen
- Monitor resolution: 480x 234 pixels
- Anti-glare blue glass mirror
- Secondary video input available
- Power: 12VDC (10W maximum power consumption)

Camera:

- 8 x infrared LEDs offer enhanced night time operation
- Easily mounts above your number plate
- 110Deg. horizontal viewing angle
- Power 12VDC 200mA

Part No.

VSDS-RVM4.3

4 Sensor Reversing Kit with 'Audible Alert'

This device is designed to aid drivers by detecting physical objects when reversing or parking. When reversing, the advanced ultrasonic sensors will detect obstacles within 1.5 metres from the rear of your vehicle.

- Detection Range - 0.2 ~ 1.5m
- 4 x Ultrasonic Sensors - 40KHz
- Digital Control Box
- Speaker for audible alert
- 12 Volt DC - 20~200mA

Part No.

REVSENSE4B

WARNING: Both reversing cameras and parking sensors are designed only as an aid to drivers. They should never be considered as a substitute for normal driver responsibility. Proper driving technique and use of mirrors whilst reversing should always be observed by the driver.

VEHICLE CAMERAS

Flush Mounted Bumper Camera with Infrared LEDs

This Reversing Camera simply mounts directly into your vehicle's rear bumper and once connected to one of Rhino's In-Vehicle LCD Monitors will display a clear colour image.

- 10 x infrared LEDs offer enhanced night time operation
- Easily mounts directly into the rear bumper of your vehicle
- 90Deg. horizontal viewing angle
- Compatible with Rhino's full range of in-vehicle LCD display monitors or any other LCD display
- Power 12VDC >=200mA

Part No.

VSDS-BUMPCAM

Number Plate Mounted Colour Reversing Camera with Infrared LEDs

This Reversing Camera simply mounts above your number plate and once connected to one of Rhino's In-Vehicle LCD Monitors will display a clear colour image.

- 8 x infrared LEDs offer enhanced night time operation
- Easily mounts above your number plate
- Camera can be tilted up and down to provide the best view
- 110° Horizontal Viewing Angle
- Compatible with Rhino's full range of in-vehicle LCD display monitors or any other LCD Display
- Power 12VDC >=200mA

Part No.

VSDS-NPCAMKIT

10m Video & Audio Cable for Truck Camera

This is a 10m RCA (Video and Mono Audio) cable for the VSMT-Truck Cam.

Part No.

VSRVM-CBL10

Large Vehicle Reversing Camera with Infrared LEDs for Night Vision

Suitable for mounting inside rear windscreen (eg.4WD) or externally on a truck or van body.

Infrared LEDs offer enhanced night time operation.

- 1/4" SHARP image sensor
- 420 TVL horizontal resolution
- 500(H) x 582(V) pixels
- Up to 30M IR range
- Effective illumination = 0.000Lux/F1.2(LED on)
- Fixed 2.8mm lens
- 120 Deg. view angle

Part No.

VSMT-TRUCKCAM

Ultra Small Wing Mount Reversing Camera

Ultra compact camera for mounting inside / outside the vehicle - such as above your number plate

- 130° Horizontal Viewing Angle
- Dimensions: 24 (L) x 19 (Dia.) mm

Part No.

VSMT-MINICAM

7 Inch LCD Monitor With Stand & Remote Control - Dual Video Inputs

- Display size: 7 inch
- Aspect ratio: 16:9
- Resolution: 234 x 480pixels
- Dual video inputs (Video1 & Video2)
- Multi-purpose LCD monitor for VCD/DVD/TV/GPS
- Full function remote control
- Power supply: DC 12V
- Power consumption: 7W
- Dimension: 195 x 140 x 25mm

Part No.

LCD7

WARNING: Both reversing cameras and parking sensors are designed only as an aid to drivers. They should never be considered as a substitute for normal driver responsibility. Proper driving technique and use of mirrors whilst reversing should always be observed by the driver.

PS19V2A

Switch Mode AC Adaptor 12V DC, 1.5 Amp

- Input - 100-240V AC / 50Hz
- Output - 12V DC / 1.5 Amp
- Lead - 1.8m
- Termination - DC plug

Part No.
PS1500SM

Low Voltage AC Adaptor 24V AC 2.0 Amp

- Input - 240V AC / 50Hz
- Output - 24V AC / 2.0 Amp
- Input lead - 1.8m
- Output lead - 1.8m
- Termination - Bare ends

Part No.
PS24VAC2AMP

Switch Mode Power Supply 12V DC, 5 Amp

- Input 100-240V AC / 50Hz
- Output 12V DC / 5.0 Amp
- Input lead 1.5m
- Output lead 1.8m
- DC Plug Termination

Part No.
PS5000SM

Power Supply for Commax Video Intercoms

18V DC Power Supply for Commax Video Intercoms

Part No.
PS18VDC

Switch Mode Power Supply 48VDC, 2.5 Amp

- Input 100-240V AC / 50Hz 2A
- Output 48VDC / 2.5 Amp
- Used for supplying power to IP cameras

Part No.
PS48VDC25A

24VAC 2.5 Amp Power Adaptor

- Input 120VAC, 60Hz, 70VA
- Output 24VAC, 2.5 Amp, 60VA

Part No.
PS24VAC25AMP

24VDC 2 Amp Power Adaptor

- Output 24VDC, 2 Amp

Part No.
PS24VDC2AMP

LEADS & CONNECTORS

BNC / RCA Adaptors

- BNC to RCA adaptor
- RCA to BNC adaptor

Part No.
VSFB2R
VSFR2B

BNC / 'T' Connector

- BNC - T Connector

Part No.
VSFBTA

BNC Connectors

- BNC (Standard compression type)
Available Models:
- VSFBNC (For RG59U 750 Ohm Coax Cable)
- VSFBNC3 (With Separate Pin. For RG59 Coax Cable)

Part No.
VSFBNC
VSFBNC3

High Quality Compression BNC Plug

- For RG6 Cable

Part No.
VSFBNC6

High Quality Compression BNC Plug

- For RG59 Cable

Part No.
VSFBNC59

NEW!

BNC Jack to Jack Bulkhead

Part No.
VSFBNCBULKHEAD

Twist BNC Connector

- Installer can fix this BNC plug by hand
- More reliable than crimp style

DC Power Jack to Jack, Coupler

Part No.
VSDCJ2JC

NEW!

DC Power Connector - Plug to Mini Terminal Block

- One DC Power Jack Input
- Five DC Power Jack Outputs

Part No.
VSDCPMTB

5-Way Power Splitter

- One DC Power Jack Input
- Five DC Power Jack Outputs

Part No.
DC4CHLOOM

Pre-terminated Combined Power & BNC Video Leads

- Pre-terminated cables with no crimping required. Your plug & play solution!
- Please note: The above power / video leads are not suitable for cameras which draw more than 1 Amp of current

Part No.
RCA4CHLOOM10M
RCA4CHLOOM20M
RCA4CHLOOM30M

Power Converter - Max 36VAC/DC convert to 12VDC Adaptor

- Max 36V AC/DC converted into 12VDC with power adapter connector.
- 1 Amp max. Regulator

Part No.
VSP0WCONVERTER

Connector Strip with Screw Terminals for Distributing Power to Cameras

- One Input
- 8 Outputs
- Polarity Markings

Part No.
VSTBB

Low Voltage Battery Cut-Off

This Low Voltage Battery Cut-Off connects to your 12 or 24VDC power supply or alarm panel and prevents the complete discharge of the backup batteries. The product has an adjustable voltage knob, allowing you to calibrate the voltage cut-off range to suit your requirements, and the Master On/Off switch easily turns On/Off both AC and DC power to the control panel or power supply.

Part No.
VSPOWCUTOFF

UNINTERRUPTIBLE POWER SUPPLIES

PRO Series Tower UPS

Suitable for standalone DVRs, Workstations and Printers.

- Wide input voltage window
- Boost and buck AVR
- Compatible with generators
- Provides LED and audible alarm function
- Surge protection
- Protection for short circuit and battery low voltage
- Automatic diagnostic on startup

Part No.
UPS600VA
UPS1000VA
UPS1400VA
UPS2200VA

UPS3000VAXC - 2100W

Uninterruptible Power Supplies

UPS1000VAXC - 700W

- Same unit can be used as tower or rack mount
- Hot swappable battery
- Selectable input/output voltage
- RS232 and USB communication
- Built in voltage stabiliser
- Line interactive
- True sine wave output
- Simple control and compact design
- SNMP compatible allowing web control and monitoring
- Generator compatible

Product Close-up

12VDC 9Amp 18 Output CCTV Power Supply

- Outputs can be connected parallel for connecting cameras with >500mA draw
- Not suitable for use outdoors
- Efficient compact design
- 18 individual 500mA fused outputs
- Lockable metal housing
- Output Power: 145W
- Input Voltage: 240V AC
- Output Current: 18 x 500mA fused outputs (9Amp Continuous-10Amp Peak)
- Dimensions(mm): 312(H) x 205(W) x 50(D)

Part No.

PS12V10A18CH

Product Image

24VAC 18 Channel 10A Switch Mode CCTV Power Supply

Designed specifically for use in the CCTV industry, this 24VAC switch mode power supply can be used to provide power to 18 CCTV cameras (cameras rated at less than 500mA).

- Input Voltage can be selected between 110V and 220V
- Voltage Adjustment
- Panel Isolation Switch ON/OFF
- Parallel CCTV Camera Connection: For CCTV Cameras rated at more than 500mA, multiple outputs can be connected in parallel to increase the total output current.

NEW!

Full Copper RG59 75Ohm Coax Cable 100m/R

Part No.
DCOAXFC

100m Roll Combined Coax/ Power Cable - Black 95% Braiding

- Combined coax/power cable
- 100% copper conductor
- 95% copper braiding
- Fig 8 - (2 x 24/0.2mm Stranded)
- RG59 75 Ohm
- 100m Roll

Part No.
DCOAXPWR24FCBP

TOOLS

Coaxial Cable Stripping Tool

- Coaxial cable stripper which suits RG58/59/6 cable
- Fitted with 3 blades to suit 4 cable diameters
- This 3 position stripper will strip cable revealing braid, dielectric and centre conductor

Part No.
VSA18

7.6 inch Professional Compression Tool

- Adjustable and changeable for waterproof connectors.
- Suitable for F/RCA/BNC RG-59, 6 (4C,5C) waterproof connectors.

Part No.
VSCOMPTOOL

Cable Tester - Tone Generator & Probe

- Features (Probe):
- Sound or illumination and vocal-light indicating for choice.
 - Volume adjusts.
 - Low voltage warning.
- Features(Tone Generator):
- Choose switch of multiple frequency signal and single signal.
 - Syllogistic remote switch applies for control operation mode.
 - Three color pilot light, display circuit polarity,continuity and testing voltage.
 - Red and black test cartridge,standard four wires plug.
 - Fine molding,expedient operation.

Part No.
VSCABLETESTER

Coaxial Connector Cable Crimping Tool with 5 Jaws

- Designed to crimp BNC/TNC connectors to RG58C/U and RG62 coaxial cable as well as the centre pin to the centre conductor
- Insulated handle and tension 6 position adjustment
- Hex sizes: 1.7, 2.5, 5.4, 6.5, 8.2mm

Part No.
TSA50

5-in-1 Multi Purpose 12VDC Tester

Although compact in size, this 5-in-1 Multi Purpose 12VDC Tester is an essential product for installers who need to perform troubleshooting tests while installing CCTV surveillance systems. The five tests which the unit can perform are:

1. Voltage Test
2. Load Test
3. Voltage Drop Test
4. PTC Fuse Test
5. Polarity

Part No.

Professional Cabling Tool Kit in Sturdy Carry Case

This compact kit has been designed to include the required tools for any cabling installation. It includes:

- 1 x Cable Tester.
- 1 x Crimping Tool for 6P/8P Plugs w/Ratchet.
- 1 x Crimping Tool for Coax 58,59,62,6 w/ Ratchet.
- 1 x UTP/STP Stripper.
- 1 x Coaxial Cable Stripper.
- Hard Plastic Tool Box - 309 x 185mm

Part No.
VSTOOLKIT

NEW!
Professional Cabling Tool Kit in Sturdy Carry Case

- Kit includes:
- 1 x Crimping Tool for 6P/8P Plugs w/Ratchet.
 - 1 x Cable Cutter
 - 1 x UTP/STP Stripper.
 - 1 x 110 Type Punch Down Tool.
 - 30 x 8p8c & 30 x 6p6c plugs
 - Hard Plastic Tool Box - 309 x 185mm

Part No.
VSTOOLKIT2

NEW!
Professional Cabling Tool Kit in Sturdy Carry Case

- Kit includes:
- 1 x Cable Tester.
 - 1 x Crimping Tool for 6P/8P Plugs w/Ratchet.
 - 1 x Cable Cutter
 - 1 x UTP/STP Stripper.
 - 1 x 110 Type Punch Down Tool
 - Hard Plastic Tool Box - 309 x 185mm

Part No.
VSTOOLKIT3

NEW!
UTP/STP/BNC Cable Testers

Diagnose cable problems and test a variety of network cables with these multi-cable testers. Each test has a number of features including:

- Automatically tests and checks for continuity, open, shorted and crossed wire pairs
- Informative status lights
- Powered by a 9V battery
- Tests RJ-45, 10 Base-T, Token Ring, RJ11/12 USOC and Coax BNC Cables

VIDEO/POWER PASSIVE BALUNS

NEW!
Camera Side RJ45 Jack BNC Male Pigtail Passive Balun

- Camera Side
- BNC Male & DC Plug Pigtail
- 1 pair video, 3 pair power
- Power Input/Output:
- VSBAL-CRJBMP: 12/18VDC Input/Output
- VSBAL-CRJBMP500MA: Max. 36VAC/DC Input/ 12VDC Regulated max 500mA Output

Part No.
VSBAL-CRJBMP
VSBAL-CRJBMP500MA

NEW!
Monitor Side RJ45 Jack BNC Male Pigtail Passive Balun

- Monitor Side
- BNC Male Pigtail
- 1 pair video, 3 pair power
- Power Input/Output:
- VSBAL-MRJBMP: 18/18VDC Input/Output
- VSBAL-MRJBMP500MA: Max. 36VAC/DC Input/Output

Part No.
VSBAL-MRJBMP
VSBAL-MRJBMP500MA

NEW!
Camera Side Terminal Block BNC Male Pigtail Passive Balun

- Camera Side
- BNC Male & DC Plug Pigtail to Terminal Block
- 1 pair video, 3 pair power
- Power Input/Output:
- VSBAL-CTBBMP: Max 36VAC/DC Input to 12VDC Output Regulated 750mA max.
- VB870-PW-750-ADJ: Max. 36VAC/DC Input to 0~18VDC (Adjustable), Regulated max 750mA Output

Part No.
VSBAL-CTBBMP
VSBAL-CTBBMP750MA

NEW!

Monitor Side Terminal Block BNC Male Pigtail Passive Balun

- Camera Side
- BNC Male Pigtail to Terminal Block & DC Power Jack
- 1 pair video, 3 pair power
- Power Input/Output:
Max 36VAC/DC Input/Output

Part No.
VSBAL-MTBBMP

NEW!

Terminal Block to BNC Male/Female Passive Balun

- Camera and Monitor Side
- BNC Male/Female to Terminal Block
- 300m Video Transmission Distance
- VSBAL-TBBMFDC: With DC Plug Cable
- VSBAL-TBBMFPA: With 18VDC 500mA Power Adaptor

Part No.
VSBAL-TBBMFDC
VSBAL-TBBMFPA

Single Passive Video/Power/Data Balun

Future-proof your installations by running economical CAT-5/CAT-6 cable for all your analogue installs now and allow for future upgrade to IP video surveillance.

- Transmits video, power and data over CAT-5/ 6
- RJ45 Jacks
- Video: BNC male pigtail
- Power: DC male and female pigtail
- Data: 2 wires (ie. send PTZ control via RS-485)

Part No.
VSBALCATPAIR

NEW!

BNC Male to RJ45 & Screw Terminal Video Passive Balun

- Camera and Monitor Side
- BNC Male to RJ45 or Screw Terminal
- 300m CAT5 Passive-Passive Colour Transmission Distance

Part No.
VSBAL-BMRJSTP

NEW!

BNC Male to Screw Terminal Video Passive Balun

- Camera and Monitor Side
- BNC Male to Screw Terminal
- 300m CAT5 Passive-Passive Colour Transmission Distance

Part No.
VSBAL-BMSTP

NEW!

BNC Male 20cm Pigtail to Screw Terminal Video Passive Balun

- Camera and Monitor Side
- BNC Male Pigtail to Screw Terminal
- 300m CAT5 Passive-Passive Colour Transmission Distance

Part No.
VSBAL-BMPSTP

NEW!

4 BNC Male Pigtail to 1 RJ45 Jack 4 Port Video Passive Balun

- Camera and Monitor Side
- 4 BNC Male Pigtail
- RJ45 Jack
- 300m CAT5 Colour Transmission Distance

Part No.
VSBAL-4BM1RJ

NEW!

4 BNC Female to 1 RJ45 Jack 4 Port Video Passive Balun

- Camera and Monitor Side
- 4 BNC Female Connectors
- RJ45 Jack
- 300m CAT5 Colour Transmission Distance

VIDEO PASSIVE BALUNS

NEW!

BNC Male to RJ45 Video Passive Balun

- Camera or Monitor Side
- BNC Male to RJ45 Jack
- 300m CAT5 Passive-Passive Colour Transmission Distance

Part No.
VSBAL-BMRJP

NEW!

BNC Male to Screw Terminal Video Passive Balun

- Camera or Monitor Side
- BNC Male to Screw Terminal
- 300m CAT5 Passive-Passive Colour Transmission Distance

Part No.
VSBAL-BMSTPMINI

NEW!

4 BNC Female to 8 Terminal Block 4 Port Video Passive Balun

- Camera and Monitor Side
- 8 Terminal Block to 4 BNC Female Connector
- 300m CAT5 Colour Transmission Distance

Part No.
VSBAL-4BF8TBP

NEW!

4 BNC Male Pigtail to 8 Terminal Block 4 Port Video Passive Balun

- Camera and Monitor Side
- 8 Terminal Block to 4 BNC Male Pigtail
- 300m CAT5 Colour Transmission Distance

Part No.
VSBAL-4BM8TBP

NEW!

4 Port RJ45 Jack Video/Power Distribution Hub

- Works between the monitor and camera baluns, to pass through camera video and supply power for up to 4 camera baluns.
- 4 Port RJ45 to RJ45 Jack
- 18VDC 2.3 Amp Power Adaptor

Part No.
VSBAL-4RJVPDH

NEW!

4 Port Terminal Block & RS485 Screw Video/Power Distribution Hub

- Works between the monitor and camera baluns, to pass through camera video and supply power for up to 4 camera baluns.
- 4 Port RJ45 to Terminal Block
- 18VDC 2.3 Amp Power Adaptor

Part No.
VSBAL-4TBRSPDH

Quad Passive Video Balun - RJ45 Jack to 4 BNC Female Connectors

- For both camera side and monitor side.
- Camera/Monitor Connectors: 4 BNC Female.
- Wire Connector: RJ45 Jack.
- Wire required: CAT5, or better.
- Frequency response: DC to 6.5 MHz
- Attenuation: 75 ohm to 100 ohm about 0.4dB
- Impedance: Coax/75 ohm, UTP cable/100 ohm.
- Coaxial Cable: unbalanced, 75 ohm.
- UTP C5: balanced, 24 AWG, 100 ohm.

Part No.
VSQUADBALUN

NEW!

Quad Passive Video/Power/Data Balun - Terminal Block to 4 BNC Female Connectors

- 4 Port BNC Female Connectors to 8 Screw Terminal Block
- 1 Input to 2 Output Power Distribution
- 36V Max Power Input
- PTC Resettable Fuse on each output of power
- 1 Input to 2 Output Data
- Model also available with built-in surge protection (VSBAL-TB4BFPSURGE)

Part No.
VSBAL-TB4BFP
VSBAL-TB4BFPSURGE

NEW!

16 Port Passive Video Balun

- 16 port Passive Video Balun
- 16 x BNC Female Connectors to 8 Pin Screw Terminals
- Video Interface: Monitor side receiver

- Power Distribution (per 4 cameras)
 - Power Input: Max 36V
 - PTC resettable Fuse on each output of power
 - PTC Hold Current: 2.5 Amper
 - LED Indicator for each power supply
 - Individual power input per 4 channels

- Data:
 - Screw Terminal Connector for the wires

Part No.
VSBAL-16PP

VIDEO ACTIVE BALUNS

NEW!

Monitor Side BNC Male Video Active Balun

- Monitor Side
- BNC Male to Screw Terminal
- 12VDC Power Plug
- 1800m CAT5 Active-Active Transmission Distance

Part No.
VSBAL-MBMAA

NEW!

Monitor Side BNC Male Video Active Balun

- Monitor Side
- BNC Male to Screw Terminal with 12VDC Plug Pigtail
- 1800m CAT5 Active-Active Transmission Distance
- Model also available with inbuilt surge protector

VSBAL-MBMALSURGE

NEW!

Camera Side BNC Male Video Active Balun

- Camera Side
- BNC Male to Screw Terminal with DC Power Plug and Socket Pigtail
- 12VDC Power Plug
- 1800m CAT5 Active-Active Transmission Distance

Part No.
VSBAL-CBMAA

NEW!

Camera Side BNC Male Video Active Balun

- BNC Male to Screw Terminal with 12VDC Plug Pigtail
- 1800m CAT5 Active-Active Video Transmission Distance
- Model also available with inbuilt surge protector

Part No.

VSBAL-CBMAL

NEW!

Camera Side BNC Male Video Active Balun With Surge Protector

- BNC Male to Screw Terminal with 12VDC Plug Pigtail
- 1800m CAT5 Active-Active Video Transmission Distance
- with surge protector

Part No.

VSBAL-CBMALSURGE

VSBAL-CBMTBAL

NEW!

Camera Side BNC Male Video Active Balun

- BNC Female/RCA Male to 8 Pin Terminal Block with 12VDC Plug
- 4 Video Input/Output
- 1800m CAT5 Active-Active Transmission Distance

Part No.

VSBAL-CBMTBAL

VSBAL-MBMTBAL

NEW!

Monitor Side BNC Male Video Active Balun

- BNC Female/RCA Male to 8 Pin Terminal Block with 12VDC Plug
- 4 Video Input/Output
- 1800m CAT5 Active-Active Transmission Distance

Part No.

VSBAL-MBMTBAL

1 Channel Active Balun, Camera Side

- 1 Channel Active Camera Side Video Balun.
- 12VDC 50mA
- Connector for camera: BNC Male, BNC Female, F Male, F Female, 20cm BNC Male Cable
- Screw Terminal Wire Connector

Part No.

VSBALACTIVE

1 Channel Video/Audio Balun

This 1 channel balun TR/TX not only has a BNC socket, but it also comes with 2 RCA sockets for audio transmission support. This device converts video camera cabling and increases transmission distance by converting the signal from coaxial to CAT 5 Cable.

Part No.

VSQC-3424

VIDEO/AUDIO BALUNS

NEW!

Video or Audio Balun over CAT5 - RCA Female

- Video/Audio Balun Over CAT-5 UTP Cable
- Video/Audio Connector: RCA Female
- Connector for the UTP wires: 2 terminal block
- Max Transmission range: Video/300m, Audio/300m
- Perfect for DVD, VCR, DVR, receivers, monitors, home theatre etc

VSBAL-VARCAF

Part No.

VSBAL-VARCAF

NEW!

Video or Audio Balun over CAT5 - RCA Male

- Video/Audio Balun Over CAT-5 UTP Cable
- Video/Audio Connector: RCA Male
- Connector for the UTP wires: 2 terminal block
- Max Transmission range: Video/300m, Audio/300m
- Perfect for DVD, VCR, DVR, receivers, monitors, home theatre etc

Part No.

VSBAL-VARCAM

NEW!

Video & Stereo Audio Balun over CAT5 - RCA Female

- Audio Connector: 2 RCA Female
- Video Connector: RCA Female
- Connector for the UTP wires: 6 terminal block
- Max Transmission range: Video/300m, Audio/300m

Part No.

VSBAL-VSARCAF

NEW!

Video & Stereo Audio Balun over CAT5 - BNC/F Female

- Audio Connector: 2 RCA Female
- Video Connector: BNC/F Female
- Connector for the UTP wires: 6 terminal block
- Max Transmission range: Video/300m, Audio/300m

Part No.

VSBAL-VSABNCF

NEW!

HDTV/RGB Balun Component Video over CAT5

- HDTV/RGB Balun Over CAT-5 Composite Video
- Video Connector: 4 RCA gold-plated Female connector
- Connector for the UTP wires: RJ45 Female
- Max Transmission range: Video/300m, Audio/300m

Part No.

VSBAL-HDTVRCAM

NEW!

HDTV/RGB Balun Component Video over CAT5 with Digital Audio

- HDTV/RGB Balun Over CAT-5 Composite Video
- Video Connector: 4 RCA gold-plated Female connector
- Connector for the UTP wires: RJ45 Female
- Max Transmission range: Video/300m, Audio/300m
- With Digital Audio

Part No.

VSBAL-HDTVDCAM

VIDEO AMPLIFIERS & DISTRIBUTORS

VIDEO SURVEILLANCE PROTECTION EQUIPMENT

UTP Data Surge Protection - Terminal Block Simple 'in-out' Surge Protection for PTZ Controllers or Data Wires

- Surge protection attack time: 100ns
- Maximum surge current: 5000A
- Dimensions: 45 X 25 X 25mm
- Weight: 74g

Part No.
VSSPU

UTP Video & Data Surge Protection - RJ45 Connectors Simple 'in-out' Surge Protection for IP Cameras & Network Devices

- Surge protection attack time: 100ns
- Maximum surge current: 50,000A
- Dimensions: 32mm X 45mm X 72mm
- Weight: 105g

Part No.
VSSPR

At Last... Real Protection For All Your Video Surveillance Equipment...

Did you know that it is common for video surveillance equipment such as DVR's, cameras, PTZ controllers, multiplexers & any other devices connected by coaxial cable, CAT5 or Fig 8, to be susceptible to damage caused by lightning strikes, power surges, and earth loops?

These Surge Protectors & Filters protect your surveillance equipment by passing the hazardous voltages to ground and filtering out noise with total galvanic isolation which eliminates earth loops and hum bars.

Coaxial Surge Protection - BNC Connector Simple 'in-out' Surge Protection for CCTV Cameras

- Surge protection attack time: 100ns
- Maximum surge current: 5000A
- Dimensions: 78mm X 25mm X 25mm
- Weight: 80g

Part No.
VSSPB

Ground Loop Isolator

- 75 ohm BNC Male to 75 ohm BNC Female
- Transient Voltage Suppressor: 12 Volts rms
- BNC Male with 100 mm miniature coaxial cable input and BNC Female output
- Isolation Voltage: 750 Volts DC
- Insulation Resistance: >100 M ohm
- Dimension: 50 x 30 x 25 mm

Part No.
VSVSI

REMOTES & FREQUENCY COUNTER

Single Button Remote Control, available in Fixed and Rolling Code

- GLTX - Fixed Code
- The GLTX is used for the Rhino LS and GA car alarms
- GLRLTX - Rolling Code

Part No.
GLTX
GLRLTX

Yellow LED: Code Hopping, suits Rhino RCX and RES4601V2 immobilisers, WGUARDSMS2010

Red LED: Code Hopping, suits Rhino GTS Car Alarm

Green LED: Fixed code suits Rhino GTR Car Alarm

Part No.
GTTX
GTSTX
GTRTX

3 Button Code Hopping Remote with LED Torch Function - Suits JAG, RA & RAM

- 3 button remote With LED torch
- As supplied With Rhino JAGV2, RAV3 & RAMV2 Car Alarm
- Also compatible with Rhino RCX, RES4601V2, WGSMS2010

Part No.
RCTX3-T

4 Button Code Hopping Remote Control for RAV3

- As supplied with the Rhino RA (V3) and Jag (V3) car alarm
- Also compatible with Rhino RCX, RES (4601V2) and WGSMS2010

Part No.
RAV3TX

4 Button Code Hopping Remote - As supplied with Rhino RXPROR4

- As supplied with Rhino RXPROR4. Optional use with Rhino RCX, RES, JAG, RAM, WGSMS2010
- Colour coded buttons with printed numbers to match GTTX / RCTX3-T i.e button 1 on your RCTX4-U is the same function as button 1 on your GTTX remote

Part No.
RCTX4-U

Programmable
4-Button
Replacement Remote!

For your old Car Alarm, Home Alarm, Garage Door or Electric Gate.

UHF Learning Programmable 4 Button Replacement Remote

The Rhino PTX Remote Control can duplicate a majority of fixed code remote controls (not code hopping remotes). Fixed code means that each time the remote control is pressed, the same code is transmitted each time. The PTX remote has four buttons so that it will universally suit most remotes i.e. some remotes have just one button for arming / disarming, where others may have separate buttons for multiple functions. The same code can be copied onto multiple buttons if desired. If your original remote has a function controlled by pressing multiple buttons together, you must duplicate that code to a single button on your Rhino PTX.

- 4 channel programmable remote control
- Many uses including car alarms, home alarms, panic buttons, garage doors...
- Copies most radio frequency fixed code remote controls
- Learns in seconds
- 255-500 MHz adjustable frequency
- Battery included

Part No.
PTX

Frequency Counter for Scanning & Adjusting Remotes

* Remote Control Not Included

RF Remote Control Frequency Counter

This tool is ideal for both home and vehicle technicians to quickly check if UHF remotes are working and re-tune to correct frequency if required.

- Large easy to read display
- Reads 250 ~ 500 MHz
- Power supply included

Part No.
FREQCOUNTER

Universal Air Conditioner Remote

This universal air conditioner remote control can control over 100 different world famous brands of air-conditioners, including Fujitsu, Daikin, Hitachi, Mitsubishi and Samsung.

This remote is the ideal product to replace lost or damaged air conditioner remotes and can control multiple functions including fan speed and air swing direction.

Features:

- Low power consumption.
- Long distance transmission range
- Simple to set up and operate
- Clear LCD screen, easily shows functions such as temperature and operating mode
- Elegant and simplistic design.
- Lightweight (56 grams)
- Dimensions (mm): 135 (H) x 47 (W) x 23 (D)
- Requires only 2 x AAA batteries to operate

Part No.
RS10

Waterproof Dynamo Torch

This flashlight doesn't require batteries, it is powered by simply shaking the unit up and down. This battery-less power source makes it a handy tool to have, especially in situations where emergency light may be needed, such as during a power blackout. When shaken, the flashlight is powered from the generation of a magnetic force created by the double copper coil wire within the handle. The torch comes in a transparent waterproof housing, making it suitable for use in a wide range of applications. It can be used underwater to a depth of two metres. The lack of batteries and the associated electronics means that the overall cost of production is lower, bringing you a high quality product for less.

- Waterproof
- Recharge By Shaking
- Light / Flashing Light Function

Part No.
WGDT200L

ALARM PADLOCK

SCARE AWAY THIEVES!

Alarm Padlock

with ear-piercing ultra loud siren when movement or shock is detected!

IDEAL FOR:

IDEAL FOR: Sheds, Gates, Garages, Lockups, Bikes, Toolboxes, Trailers, Caravans, Lawn Mowers, Garden Machinery, etc.

Watchguard 110dB Siren Alarmed Padlock

This Security Alarm Padlock, when armed, emits an ear-piercing ultra loud siren when movement or shock is detected, increasing the chances of scaring away thieves and protecting your valuables. The padlock features a 110db internal siren which sounds if the lock is moved, touched or knocked after it has been armed. The padlock has been manufactured to the highest standards, with a stainless steel shackle and hardened zinc alloy body. The body of the padlock has been powder-coated providing extra corrosion, water and weather resistance. The versatility of the padlock make it suitable for use in any number of applications, including garden sheds, gates, garages, lock-boxes, bikes, toolboxes, trailers, caravans, lawn mowers and garden machinery.

EASYPBX-IDCARD

LINKSYS VoIP Analogue Telephone Adapter

- Enables legacy PBX hardware for VoIP
- Provides routing and QoS functions, allowing you to share your existing internet connection without sacrificing call quality
- Configuration via a simple web interface
- Includes two standard telephone sockets for phones or fax machines with independent phone numbers
- Compatible with all common telephone features, such as Caller ID, Call Waiting and Voicemail

Part No.
VOIP-VOICEBOX

Serial Interface Expansion Card

- Allows simplified programming through a computer interface
- Can be configured to output station status and call metering data

Part No.
EASYPBX-RS232IF

Australian 606 to US Modular Adapter

- Often used in older buildings
- 6P2W adapter

Part No.
606M2

Voice Over IP Expansion Card

- Four line internal VoIP card - does not occupy your normal PSTN line inputs
- Allows for seamless dial-plan integration between two or more EasyPBX systems at different sites anywhere in the world
- Make free *intraoffice calls and transfers (*Excludes any associated data costs)
- Can register to any SIP based ITSP (ie Engin) to allow for low cost local and international calling
- Can be combined with the Digital Automated Attendant Unit to automatically route calls between offices

Part No.
EASYPBX-VOIPCARD

Telephone Extension Leads

- Flexible multistranded wire
- Fitted with 6P4W modular plugs
- Can be used with the 606 adaptor above
- Available in 1m, 10m, 20m or 30m lengths

Part No.
PHONEEXT1M
PHONEEXT10
PHONEEXT20
PHONEEXT30

2 Port ISDN BRI Card

This 2 port ISDN BRI card gives the PBX the ability to connect to any standard ISDN Basic Rate Interface. IE Telstra NT1.
2 physical ports= 4 logical lines

Part No.
EASYPBX-BRICARD2

3.5mm Male to Male Audio Lead

- Used to connect the EasyPBX system to a standard hold music source (ie radio)
- Length : 1.2m

RhinoCo Technology's Terms & Conditions of Sale

1. DEFINITION

The expression "The Company", when referred to in these Terms and Conditions, refers to CORNICK PTY LTD ABN 74 001 621 610.

2. GENERAL

These Terms and Conditions of Sales apply to the sales of goods and services manufactured or supplied by The Company.

Any order received by The Company is deemed to be an order incorporating these Terms and Conditions and no variation or cancellation of any of these Terms and Conditions shall be binding on The Company unless assented to by The Company in writing.

Each order placed by the customer shall be & be deemed to be a representation by it, made at the time that it is solvent & able to pay all of its debts as & when they fall due. Failure to pay The Company in accordance with these terms shall be & be deemed to be conclusive evidence that the customer had no reasonable grounds for making the representation hereof & that the representations were unconscionable, misleading and deceptive.

3. ACCEPTANCE

Any quotation by The Company is not to be construed as an offer or obligation to sell and The Company reserves the right, at its option, to accept or reject any orders received.

4. PRICES

All prices charged/quoted shall be The Company's prices ruling at the date of despatch. Verbal quotations are subject to written confirmation which will be given when requested. All goods are sold and all prices are subject to FOB ex-works The Company unless otherwise specified. The Company reserves the right at any time to make reasonable adjustments of prices in relation to fluctuations in The Company's cost of labour, material, goods or transport and also in relation to any changes in currency exchange rates or duty which affect The Company's costs for imported goods.

Unless expressly noted all prices charged/quoted are exclusive of GST. All government imposts of GST or any equivalent as separately itemised on The Company's invoices are to the customer's account.

5. CANCELLATION OR VARIATION

A contract may, at The Company's option, be terminated in the event of insolvency of the purchaser or the purchaser being placed in liquidation, whether voluntarily or otherwise. A purchaser may only vary an order if such variation is accepted by The Company in writing and any variation or cancellation may only occur on terms which will provide for The Company to be indemnified by the purchaser against any loss or damages. Cancellations will attract a cancellation fee and must be at least 90 days prior to current due delivery date. No cancellation will be accepted on indented products. Re-schedules must be at least 45 days prior to the current due delivery date and any item may be deferred only once, up to a maximum of 90 days from the original requested date.

6. PACKING

Unless otherwise indicated prices include standard cases or packing.

7. DELIVERY

Unless otherwise stated in writing the price quoted is ex The Company's store where stocked. Where delivery is requested beyond this point The Company may, at its discretion, agree to act as agent for the purchaser in this matter and all costs for cartage and insurance will be for the purchaser's account.

8. TERMS OF PAYMENT

Cash on Delivery otherwise expressly agreed to in writing. The Company reserves the right to deliver and invoice any item or items comprising the whole or part of any order. Failure of The Company to deliver any part of an order shall not entitle the purchaser to repudiate the contract.

9. CLAIMS

The following conditions relating to the return of goods for credit apply to all goods returned for this purpose.

9.1 Goods returned must be accompanied by a Delivery Docket stating original invoice number, date of purchase and reason for return.

9.2 Non-standard equipment made to special order cannot be credited under any circumstances.

9.3 Inward freight packing and delivery charges are the responsibility of the purchaser.

9.4 Goods will only be accepted for credit to the extent of that wrongly or over-supplied.

9.5 All returns must be in good order and condition, unused and in original packaging. No claims by the purchaser need be recognised unless made in writing within fourteen days after delivery of the goods to the purchaser.

No claim for damage or resultant expense direct or indirect in respect of any goods shall in any case exceed the invoice price of the goods in respect of any damages or expense shall arise. All damage or expense over and above such invoice shall be the responsibility of the purchaser.

10. RISKS

Risk in the goods purchased shall, unless otherwise agreed in writing, pass to the purchaser upon delivery of the goods to the purchaser or his agent or to a carrier commissioned by the purchaser.

11. PATENTS

To the best of The Company's knowledge goods sold to the purchaser will not infringe any patent, trade mark, registered design or copyright of any third party but The Company shall in no circumstances be liable to the purchaser in respect of any such infringement constituted by the sale or use of the goods.

12. PERFORMANCE AND REPRESENTATION

Any figures or estimates given for performance of goods are based upon The Company's experience and are such as The Company would expect to obtain on test. But The Company will only accept liability for failure to obtain the figures or estimates given when such figures or estimates are guaranteed in writing within specified margins. The purchaser acknowledges that neither The Company nor any person purporting to act on its behalf has made any representation or given any promise or undertaking which is not expressly set out in the contract whether as to the fitness of the goods for any particular purpose or any other matter.

13. CONDITIONS AND WARRANTIES

All conditions and warranties expressed or implied by statute, the common law equity trade custom or usage or otherwise howsoever are hereby expressly excluded to the maximum extent permitted by law. Where so permitted the liability of The Company for a breach of a condition or warranty that cannot be excluded is limited (at The Company's option) to the replacement or repair of the goods or the supply of equivalent goods or the cost of replacing or repairing the goods or of acquiring equivalent goods. The Company shall not be liable in any way whatsoever for indirect or consequential loss or damage whatsoever (whether based on tort or contract or otherwise). It is a condition of this contract that the purchaser shall not use the goods for the installation in or in association with aircraft. Goods are not authorised for use in life support devices, systems intended for surgical implant into the body or for applications intended to support or sustain life or where the failure of the product would ordinarily create a situation where personal injury or death is likely to occur. In the event the goods are so incorrectly used, The Company shall be exempt from all liability whatsoever and the purchaser hereby indemnifies The Company in respect of any claims, demands, suits or proceedings whatsoever resulting from such misuse of the goods. The Company warrants its products to be in conformance with its own plans and specifications and to be free from defects in materials and workmanship under normal use and service for 12 months from the date stamp control on the product, or for products not having a date stamp, for twelve months from the date of original purchase unless the installation instructions or catalogue sets forth a shorter period, in which case the shorter period shall apply. The Company's obligation shall be limited to repairing or replacing, at its option, free of charge for materials or labor, any part which is proved not in compliance with The Company's specifications or proves defective in materials or workmanship under normal use and service. The Company shall have no obligation under this Limited Warranty or otherwise if the product is altered or improperly repaired or serviced by anyone other than The Company. For warranty service, return transportation prepaid, to 9 Hannabus Place McGraths Hill NSW 2756 Australia.

There are no warranties, expressed or implied, of merchant ability, or fitness for a particular purpose or otherwise, which extend beyond the description on the face hereof. In no case shall The Company be liable to anyone for any consequential or incidental damages for breach of this or any other warranty, express or implied, or upon any other basis of liability whatsoever, even the loss or damage is caused by its own negligence or fault. The Company does not represent that the products it sells may not be compromised or circumvented; that the products will prevent any personal injury or property loss by burglary, robbery, fire or otherwise; or that the products will in all cases provide adequate warning or protection. Customer understands that a properly installed and maintained alarm system may only reduce the risk of a burglary, robbery, or fire without warning, but it is not insurance or a guarantee that such will not occur or that there will be no personal injury or property loss as a result.

Consequently, The Company shall have no liability for any personal injury; property damage or other loss based on a claim the product failed to give any warning. However, if The Company is held liable, whether directly or indirectly, for any loss or damage arising under this limited warranty or otherwise, regardless of cause or origin, The Company's maximum liability shall not in any case exceed the purchase price of the product, which shall be the complete and exclusive remedy against The Company. This warranty replaces any previous warranties and is the only warranty made by The Company on this product. No increase or alteration, written or verbal, of the obligations of this Limited Warranty is authorised.

14. TITLE TO GOODS

14.1 Notwithstanding delivery of the goods to the purchaser, until the purchaser has effected full payment for the Goods and any other goods previously supplied by The Company:

- legal title to the Goods will remain with The Company;
- the risk in the Goods will pass to the purchaser on delivery to the purchaser or its agent;
- the relationship between The Company and the purchaser will be fiduciary;

11.2 The Purchaser will:

- hold the Goods as bailee for The Company;
- keep the goods separate from other goods; and
- label the goods so that they are identifiable as the goods of The Company;

14.3 With The Company's consent (which is given) the purchaser is at liberty to sell the Goods, in the ordinary course of the purchaser's business, provided that the money from the sale will:

- be held in a separate account in trust for the vendor;
- not be mingled with other money; and
- not be placed into an overdrawn account

14.4 The purchaser is not an agent of The Company in any sale of the Goods by the purchaser.

14.5 After the happening of an Event of Default, the vendor may without demand retake possession of the Goods and may without notice sell the Goods on such terms and in such a manner as it determines and will be entitled to deduct all expenses incurred. For the purposes of recovering possession and without limiting the generality of the foregoing, the purchaser irrevocably authorises and licenses The Company and its servants and agents to enter any premises where any Goods may be stored and to take possession of the Goods.

15. RECOVERY OF COSTS

The customer will pay to The Company any costs and expenses incurred by it or its solicitors, legal advisers, mercantile agents and other parties acting on The Company's behalf in respect of anything instituted or being considered against the customer whether for debt, possession of any goods or otherwise.

16. FORCE MAJEUR

The Company will not be in default or in breach of any contract with the customer by as a result of Force Majeur. Force Majeur means beyond the reasonable control of The Company and includes any strike or lockout either directly or indirectly by any supplier of goods or services.

17. LEGAL CONSTRUCTION

Except as may be otherwise agreed by The Company, the contract shall be governed by the laws of the State of NSW.
